

1: Gun Control: A Documentary And Reference Guide

Gun control is one of the most enduringly controversial issues in modern American politics. For the first time this book compiles a comprehensive array of documents that explain and illuminate the historical and contemporary context of the modern gun debate.

For the first time this book compiles a comprehensive array of documents that explain and illuminate the historical and contemporary context of the modern gun debate. Accompanying commentary and analysis is included to help the reader fully understand the meaning of these documents. Numerous bibliographic sources provide additional resources for interested readers. Old-style militias gave way to a modern professional American military, and the settling of the American frontier ushered in modern gun laws. In the past century, political assassinations and gun-related mass violence spurred both new gun control efforts and a burgeoning modern gun rights movement. Students will be able to read and analyze primary documents surrounding these events, including the Federalist Papers, early hunting laws, Supreme Court rulings, federal and state regulations, and recent political platform statements. Constitution really say about the right to bear arms? The controversy surrounding this single issue illustrates how important documents are to understanding history--and how they can be open to interpretation. Expertly chosen primary source documents, analytical commentary, and comprehensive study resources present Americans grappling directly with complex social and political issues in ways that have had a deep and lasting impact on contemporary society. Students often are unaware that hotly contested public debates have deep historical roots. Intended to allow readers to engage with history and discover the development of controversial social and political issues over time, the Documentary and Reference Guides series introduces such issues through carefully chosen primary source documents. The documents analyzed in these volumes encourage critical thinking, offering fresh perspectives as they sweep away preconceptions and restore immediacy to debates that may have become stale. They encourage students to explore for themselves how important issues came to be framed as they are and to consider how contemporary discussion might advance beyond the assumptions and hardened positions of the past. Founding Documents and Gun Rights². Twentieth Century Supreme Court Cases⁶. This book, on a vital and interesting topic, would be an excellent addition to large public libraries and to high school and college libraries. Each document is followed by an analysis of the significance and meaning of the document regarding gun control. The volume covers constitutional and other government documents, court decisions, acts passed by legislatures, as well as other writings such as the Federalist Papers. The two volumes are more complementary than duplicative. Original documents are important for anyone studying or taking part in the debate, he says, because so much information is distortedâ€”deliberately or notâ€”during emotional exchanges and pronouncements. He also explains the context and impact of each document. The primary arrangement is chronological, with sections on founding documents, the Second Amendment and early laws, early US and state court rulings, 20th-century US Supreme and lower-court rulings, modern gun laws, and the states and two major parties.
