2: Senior State Health Rankings | www.enganchecubano.com

The states were ranked on health care using three broad benchmarks: Access to care, quality of care and the overall health of the population. This includes concerning measures such as the.

Healthcare has been a significant topic in the recent U. There is controversy among which form of health care should be implemented. Is the answer to that is a complicated one. Although all states in America are to be treated equal, they are not. Each state in the U. There are multiple ways to determine if a state has good healthcare. The three main points that define its quality is affordability, availability, and result. Most people view all healthcare as basically the same thing, and the only thing that is different is the price. This is the wrong way to view healthcare. However, the price of the healthcare is essential because it is the first thing that must be considered. Seeing if a healthcare system is affordable is very important to ensure its success. However, it is immensely valuable. Healthcare is available when it is opening up its benefits to many other people; showing that is it a system that cares about its citizens. This proves to be a significant issue. People may be excited that the healthcare they found is cheap, and they qualify. These three characteristics are the most vital pieces to consider when viewing healthcare. The results of this ranking of the states have been produced due to the sources listed at the bottom of the article. Most sources are from government sites that display public information on healthcare in individual states. Affordability 5th, Availability 11th, Result 8th. Minnesota is tied for the second-best healthcare in the country along with Iowa. Although Minnesota is thriving with pneumonia and frostbite, the state makes it a priority that their citizens can access an effective healthcare at an affordable price. Affordability 2nd, Availability 29th, Result 13th. Ranking 2nd in both cost and overall healthcare quality, Iowa is a magnificent model of a proper healthcare system. Affordability 3rd, Availability 42nd, Result 1st. Hawaii is arguably the state with the best healthcare. While ranking 3rd in cost and 1st in the outcome, Hawaii appears to be the perfect place for healthcare. The issue is that the majority of health services are on Oahu. Meaning that due to the geography of the state, many citizens are unable to receive medical aid. Affordability 16th, Availability 4th, Result 7th. The price of the healthcare is what stops New Hampshire from being the best. Affordability 1st, Availability 6th, Result 37th. It is the most affordable healthcare and is available to most citizens. The downfall of D. Affordability 30th, Availability 2nd, Results 5th. Next to Maine, Connecticut is also the state that makes its healthcare most available to citizens. Affordability 7th, Availability 5th, Results 24th. Besides being known for Mount Rushmore, South Dakota is known for possessing a great healthcare system. However, it proves not to be very useful. Affordability 20th, Availability 18th, Results 3rd. Vermont is one of those states that provides excellent healthcare to few people. The system focuses on making the healthcare very efficient. However, that does come at a cost, seeing as that healthcare costs more than about 20 other states. Affordability 41st, Availability 3rd, Results 2nd. Massachusetts is the place to go for the wealthy. They provide some of the best healthcare in the country. However, the cost is quite high. Affordability 15th, Availability 13th, Results 10th. Rhode Island is one of the view states that have an excellent all-around system of healthcare. All components Affordability, availability, and results place very well in the listings. Affordability 4th, Availability 22nd, Results 23rd. Opposite of Massachusetts, Maryland is the perfect place to go for the not-so-wealthy. Even while the healthcare is cheap, it still provides adequate outcomes and is available to most residents. Affordability 6th, Availability 15th, Results 21st. Like Maryland, Kansas is excellent at providing affordable healthcare that is decent in delivering results and being available to most citizens. Affordability 23rd, Availability 20th, Results 4th. Colorado is known for having an incredibly diverse geography. Affordability 17th, Availability 1st, Results 26th. While their healthcare does not produce great results, Maine is known for having healthcare that is the most accessible in the country. Affordability 13th, Availability 33rd, Results 6th. However, the healthcare produces excellent results. Affordability 12th, Availability 21st, Results 18th. North Dakota is an evenly balanced in their healthcare system. They focus on providing adequate pricing, availability, and results. Affordability 21st, Availability 10th, Results 19th. Affordability 14th, Availability 8th, Results 31st. Although being known for its gorgeous mountains and lively history, Pennsylvania also has a good healthcare system. The government

focusses on providing healthcare to as many citizens as possible. Affordability 10th, Availability 24th, Results 29th. However, the healthcare does not produce great results. Affordability 18th, Availability 30th, Results 20th. Healthcare in Virginia is one that is affordable, yet not that available. The system is one that is not very effective. Affordability 25th, Availability 16th, Results 22nd. With availability ranked as 16th, affordability and results are lacking in comparison. Affordability 9th, Availability 14th, Results 38th. Being the 7th most populated state, Ohio is a place that should have great healthcare. However, the system focusses on making healthcare affordable and available, but the results are poor. Affordability 8th, Availability 25th, Results 40th. The healthcare is affordable but produces great results. Affordability 29th, Availability 39th, Results 12th. New Jersey focusses on making their healthcare produces great results. However, that does come at a cost. Affordability 22nd, Availability 48th, Results 9th. Affordability 31st, Availability 41st, Results 11th. Located in the Pacific Northwest, Washington produces healthcare that is available to very few people, yet is very useful. Download Minnesota Fact Sheet 1. Breaking it down further, Minnesota ranked: Featured Cities The following cities in Minnesota scored highly in our analysis of health factors. Duluth - Combining a relatively higher percentage of residents over 65 with a high ratio of hospital beds to patients and low cost of living, Duluth is an attractive destination for seniors. Minneapolis - Minneapolis ranked highest in community factors, including Park Score, and had the highest number of senior living community options in the state. Paul, the capital of Minnesota and adjoining city to Minneapolis, scored well in overall health metrics including air quality measures and park score. Download Iowa Fact Sheet 2. Iowa Iowa ranked as the second healthiest state for seniors thanks to some impressive consistency that saw the state rank among the top 13 for all five categories including a fourth-place finish in community well-being. Featured Cities The following cities in Iowa scored highly in our analysis of health factors. Des Moines - Des Moines, the capital of Iowa, has relatively low air particle emissions and has the largest number of options for senior community living and home healthcare nursing. Waterloo - With the highest Medicare reimbursement rate and prescription drug coverage, residents from Waterloo enjoy good health and a high ratio of hospital beds to patients. Cedar Rapids - Cedar Rapids scored highest in overall hospital patient satisfaction among all cities on our list and had relatively low readmission rates. Download North Dakota Fact Sheet 3. North Dakota North Dakota claimed a pair of first-place rankings in both environment and community well-being while also finishing second in cost of living. Those strengths propelled the state to number three overall while also ranking: Featured Cities The following cities in North Dakota scored highly in our analysis of health factors. Bismarck - Bismarck, the capital of North Dakota, had the highest average metrics among hospital factors ratio of beds to patients, satisfaction rate, and readmission rate. Grand Forks - With the highest Medicare reimbursement rate and lowest mortality rate, Grand Forks scored second on our list. Minot - Paired with a relatively low cost of living and abundance of senior care options, Minot is a good option for long term care and independent senior living. Download Florida Fact Sheet 4. Florida was solidified as the fourth healthiest state for seniors by ranking: Featured Cities The following cities in Florida scored highly in our analysis of health factors. Pete ranked second in overall ratio of hospital beds to patients and scored well in affordability of cost of living. Tampa - With clean air and a relatively low cost of living, Tampa seniors have an abundance of activities including fine arts performances that contribute to a high quality of life. Sarasota - Sarasota, home to some of the top ranked beaches, has one of the highest percentages of residents over the age of 65 and one of the lowest readmission and mortality rates of all cities analyzed. Download Nebraska Fact Sheet 5. Nebraska Nebraska came in as the fifth-healthiest state for seniors in part by ranking in the top 14 for environment, community well-being and cost of living. Nebraska was also boosted by ranking: Featured Cities The following cities in Nebraska scored highly in our analysis of health factors. Omaha - The Omaha area has the highest concentration of assisted living facilities and offers an abundance of public parks. Lincoln - Lincoln, the capital of Nebraska, holds a high patient satisfaction rate and low cost of living that help make it it an attractive area to live in older age. Methodology Our research team compiled data from multiple sources including publicly available national data as well as third-party data from the United Health Foundation and others. Our meta analysis included 20 discrete metrics across five key areas: Each state was scored on an aggregated and weighted average based on a commissioned survey of senior respondents who rated how important each factor was to their health and wellbeing. Areas such as healthcare coverage and affordability were weighted higher than environmental and community factors. The analysis was based on the most recent data available for each dimension. A full listing of data sources is provided below.
