

# HELEN HATH NO FURY pdf

## 1: Helen Hath No Fury - OK Virtual Library - OverDrive

*I didn't realize that I had already purchased "Helen Hath No Fury" so I've also read this one out of series order but as always An Amanda Pepper Mystery is an entertaining stand-alone.*

I find Amanda Pepper a believable protagonist and most of the people in the book are not two dimensional. The hurt and confusion comes when they find out that she has taken her own life and none of them saw it coming. As a group, they begin to dissect what they know of Helen and try to find out how they, her friend This was the second book from this author that I have read, and I really enjoyed it. As a group, they begin to dissect what they know of Helen and try to find out how they, her friends, could have known so little of what was going on in her life to bring her to such an action. I found the scenario to be totally realistic. How could they then comprehend that she was to commit suicide the next day? How could they, as friends, not see through her actions and help her? It is the most natural thing in the world for them to try to learn more about her life and how they misjudged her. I am liking this series more and more. For those reading the series, there has been a continual exploration in a significant question related to the southern, handsome detective named C. It creates quite an ironic conflict for Ms. I loved the ending. I always like it when the book ends with everyone happy. She finds out that one of the members dies - ruled accidental or suicide. She and her friends dont believe it and start to investigate. Other accidents occur while they look into the death. Also Amanda is worried about CK because he seems anti marriage. This had a lot of suspects and was good. Other things occur to make Amanda happier than usual. Good read for a cozy mystery.

## 2: Helen Hath No Fury (Amanda Pepper, #10) by Gillian Roberts

*Helen Hath No Fury is the tenth Amanda Pepper Mystery. I am one of those readers who loves to find a series that is well-written with characters I care about and plots that are fast paced and exciting.*
