Henry Townsend Grewell was born on month day , at birth place, Iowa, to Henry David Grewell and Harriett Jane Grewell (born Bundy). Henry was born on November 11 , in Tuscarawas Co, Ohio. Harriett was born on March 29 , in Ohio.

His paternal grandfather had been born on the UK crown dependency island of Jersey. He began to call himself Henry David after he finished college; he never petitioned to make a legal name change. The house has been restored by the Thoreau Farm Trust, [22] a nonprofit organization, and is now open to the public. He studied at Harvard College between and He lived in Hollis Hall and took courses in rhetoric , classics, philosophy, mathematics, and science. Harvard College offered it to graduates "who proved their physical worth by being alive three years after graduating, and their saving, earning, or inheriting quality or condition by having Five Dollars to give the college. Return to Concord, â€"[edit] The traditional professions open to college graduatesâ€"law, the church, business, medicineâ€"did not interest Thoreau, [26]: After he graduated in , he joined the faculty of the Concord public school, but he resigned after a few weeks rather than administer corporal punishment. The school closed when John became fatally ill from tetanus in after cutting himself while shaving. Emerson urged Thoreau to contribute essays and poems to a quarterly periodical, *The Dial* , and lobbied the editor, Margaret Fuller, to publish those writings. In his early years he followed Transcendentalism , a loose and eclectic idealist philosophy advocated by Emerson, Fuller, and Alcott. They held that an ideal spiritual state transcends, or goes beyond, the physical and empirical, and that one achieves that insight via personal intuition rather than religious doctrine. In their view, Nature is the outward sign of inward spirit, expressing the "radical correspondence of visible things and human thoughts", as Emerson wrote in *Nature* He rediscovered the process of making good pencils with inferior graphite by using clay as the binder. Later, Thoreau converted the pencil factory to produce plumbago, a name for graphite at the time, which was used in the electrotyping process. In April he and his friend Edward Hoar accidentally set a fire that consumed acres 1. I did not wish to live what was not life, living is so dear; nor did I wish to practise resignation, unless it was quite necessary. I wanted to live deep and suck out all the marrow of life, to live so sturdily and Spartan-like as to put to rout all that was not life, to cut a broad swath and shave close, to drive life into a corner, and reduce it to its lowest terms, and, if it proved to be mean, why then to get the whole and genuine meanness of it, and publish its meanness to the world; or if it were sublime, to know it by experience, and be able to give a true account of it in my next excursion. I see no other alternative, no other hope for you. Thoreau refused because of his opposition to the Mexicanâ€"American War and slavery , and he spent a night in jail because of this refusal. The next day Thoreau was freed when someone, likely to have been his aunt, paid the tax, against his wishes. In January and February , he delivered lectures on "The Rights and Duties of the Individual in relation to Government", [43] explaining his tax resistance at the Concord Lyceum. Bronson Alcott attended the lecture, writing in his journal on January His allusions to the Mexican War, to Mr. Thoreau did not find a publisher for the book and instead printed 1, copies at his own expense; fewer than were sold. Thoreau left Walden Pond on September 6, The book compresses that time into a single calendar year, using the passage of the four seasons to symbolize human development. Part memoir and part spiritual quest, *Walden* at first won few admirers, but later critics have regarded it as a classic American work that explores natural simplicity, harmony, and beauty as models for just social and cultural conditions. In , he and his family moved into a house at Main Street , where he lived until his death. He jested that all he got from this adventure "was a cold. Whereas his own country had had its revolution, in Canada history had failed to turn. He read avidly on botany and often wrote observations on this topic into his journal. The point of this task was to "anticipate" the seasons of nature, in his word. He also kept a series of notebooks, and these observations became the source of his late writings on natural history, such as "Autumnal Tints", "The Succession of Trees", and "Wild Apples", an essay lamenting the destruction of indigenous wild apple species. Until the s, literary critics[who? With the rise of environmental history and ecocriticism as academic disciplines, several new readings of Thoreau began to emerge, showing him to have been both a philosopher

and an analyst of ecological patterns in fields and woodlots. Walden Pond He traveled to Canada East once, Cape Cod four times, and Maine three times; these landscapes inspired his "excursion" books, *A Yankee in Canada*, *Cape Cod*, and *The Maine Woods*, in which travel itineraries frame his thoughts about geography, history and philosophy. *Paul and Mackinac Island*. He devoured all the first-hand travel accounts available in his day, at a time when the last unmapped regions of the earth were being explored. He processed everything he read, in the local laboratory of his Concord experience. Among his famous aphorisms is his advice to "live at home like a traveler. Thoreau was disgusted by this, and he composed a key speech, *A Plea for Captain John Brown*, which was uncompromising in its defense of Brown and his actions. As a biographer of Brown put it, "If, as Alfred Kazin suggests, without John Brown there would have been no Civil War, we would add that without the Concord Transcendentalists, John Brown would have had little cultural impact. In , following a late-night excursion to count the rings of tree stumps during a rainstorm, he became ill with bronchitis. Recognizing the terminal nature of his disease, Thoreau spent his last years revising and editing his unpublished works, particularly *The Maine Woods and Excursions*, and petitioning publishers to print revised editions of *A Week and Walden*. He wrote letters and journal entries until he became too weak to continue. His friends were alarmed at his diminished appearance and were fascinated by his tranquil acceptance of death. When his aunt Louisa asked him in his last weeks if he had made his peace with God, Thoreau responded, "I did not know we had ever quarreled. Today, Thoreau is regarded as one of the foremost American writers, both for the modern clarity of his prose style and the prescience of his views on nature and politics. His memory is honored by the international Thoreau Society and his legacy honored by the Thoreau Institute at Walden Woods, established in in Lincoln, Massachusetts. Nature and human existence[edit] Most of the luxuries and many of the so-called comforts of life are not only not indispensable, but positive hindrances to the elevation of mankind. He was himself a highly skilled canoeist; Nathaniel Hawthorne , after a ride with him, noted that "Mr. Thoreau managed the boat so perfectly, either with two paddles or with one, that it seemed instinct with his own will, and to require no physical effort to guide it. He wrote in *Walden*, "The practical objection to animal food in my case was its uncleanness; and besides, when I had caught and cleaned and cooked and eaten my fish, they seemed not to have fed me essentially. It was insignificant and unnecessary, and cost more than it came to. A little bread or a few potatoes would have done as well, with less trouble and filth. Instead he sought a middle ground, the pastoral realm that integrates nature and culture. His philosophy required that he be a didactic arbitrator between the wilderness he based so much on and the spreading mass of humanity in North America. He decried the latter endlessly but felt that a teacher needs to be close to those who needed to hear what he wanted to tell them. The wildness he enjoyed was the nearby swamp or forest, and he preferred "partially cultivated country. His expectations were high because he hoped to find genuine, primeval America. But contact with real wilderness in Maine affected him far differently than had the idea of wilderness in Concord. Instead of coming out of the woods with a deepened appreciation of the wilds, Thoreau felt a greater respect for civilization and realized the necessity of balance. I believe that water is the only drink for a wise man; wine is not so noble a liquor. Of all ebriosity, who does not prefer to be intoxicated by the air he breathes? He strove to portray himself as an ascetic puritan. However, his sexuality has long been the subject of speculation, including by his contemporaries. Critics have called him heterosexual, homosexual, or asexual. Some scholars have suggested that homoerotic sentiments run through his writings and concluded that he was homosexual. In him are the spaces which my orbit traverses".

Shrader, II, 1st Vice President,. Corresponding Secretary, Thomas Allum, C. I need not add that Iowa City, the birthplace of the Regiment, is anxious to see! You need no invitation and no credentials beyond the fact that you were a member of the Regiment. The tent doors of the Reunion Camp are wide open to you; the camp fires of the garrison. Take due notice of this. Switzer, at Iowa City, whether you expect to attend the Reunion or not as soon after receipt of this as you can, that we may be fully prepared to welcome you and provide for your comfort and enjoyment. Finally, Comrade, the Secretaries have been at work diligently since last September, in procuring the correct names and post-offices of the survivors with all effort possible. I believe there are a number of those living whose addresses we cannot find. Below is a list of those not known to us to be dead, as complete as we could get it, together with the post-offices as we have received them. We want to reach every man. If any officer finds himself reduced to the ranks let him remember that it will be the endeavor of the committee in charge to bring the "high private in the rear rank" to the front at our Reunion and place him in command of all the enjoyment that he will be able to control.
