The scene, made to look like a glitchy terrorist video, showed Green Lantern Kyle Rayner seemingly being beheaded by a group whose name bears the title of the comic. Writer Tom King is a former counter-terrorism officer for the CIA and he uses that experience to craft a story about insurgencies and religion set in the deep cosmos of the DC Universe. This has been a breakout year in comics for King, with not only this series but Grayson, The Sheriff of Babylon, and The Vision all receiving worthy acclaim. T, Steven Seagal, and others. When he falls for the diminutive Eiffel, the lead singer of the metal band The Ejaculoids, we get a sweet, hilarious, and surprising story of dating in a fictional version of San Francisco. Goetzinger fictionalizes the biography slightly by inserting her own character, a reporter-turned-model named Clara, to act as our eyes into this world of color that revolutionized the drab post-War fashion of that era. Girl in Dior made its English language debut this year after winning the prestigious Grand Prix Bd Boum award when it was first released in France in His award-winning comic series Pope Hats often goes at least a year between issues, making him less visible in an increasingly social media-driven market. While previous issues of Pope Hats focused on telling the story of a young woman named Frances balancing career and life, issue four breaks from that format to compile a bunch of short stories unrelated to the previous narrative. Then come the aliens. Then Allen Ginsberg and William S. And then things really start to get trippy. Each issue of Zero is drawn by a different artist, with Jordie Bellaire serving as the regular colorist to provide some visual continuity. This works really well, as each chapter acts as a stand-alone piece of a larger story. Frontier showcases up-and-coming talent by giving them an entire issue to show their stuff. When the new creative team of Brenden Fletcher, Cameron Stewart, and Babs Tarr took over in late , their lighter, more fun approach to the title was a breath of fresh air among the increasingly dark and brutal superhero comics the company has been putting out. Aimed at a female audience that DC never seemed to make comics for, the success of this title sparked an awakening for the publisher, leading to a new initiative in to introduce more books of a similar ilk see Black Canary, Prez. They took a chance by giving unknown young artist Babs Tarr a shot on this book, and she is now well on her way to becoming a superstar. The backstory of The Eternaut is just as gripping as the comic. Lopez escaped to Spain, but Oesterhel, who also wrote a biography of Argentinian revolutionary Che Guevara, was never seen again. The creative team gives us a noir story full of morally compromised characters, femme fatales and, of course, murder. This short graphic novel follows a group of women and one man across a devastated countryside in search of a town they learned of from a found diary. His wordless one-page strips took social media by storm this year, with 2. The Spanish cartoonist is not afraid to be disturbing and gory, nor does he shy away from controversial topics. This year, Fantagraphics released a hardcover collection of some of his comics called Mox Nox. It is an impressive debut. The series as a whole, now collected by DC Comics in a large hardcover deluxe edition, is in many ways the epitome of the Grant Morrison superhero comic. Layered with subtext and references to forgotten comics of old, these are crammed with unbelievably cool ideas and are about as meta as a comic can get. As the existence of the multiverse faces an unstoppable threat, Morrison checks in on various parallel DC universes, like one in which Superman was adopted by Hitler and another where the spoiled grown children of the Justice League avoid paparazzi and party like a bunch of super-powered Kardashians. Deep Dark Fears instantly became a popular Tumblr comic , and now Krause has compiled them into a hardcover. Her wildly popular webcomic Hark! Marvel launch their new Star Wars line, spearheaded by two ongoing titles: Star Wars and Darth Vader. Both stories take place immediately after the events of Episode IV, and there are some great fanboy moments like a battle between Luke Skywalker and Boba Fett, and a meeting between Vader and Jabba the Hutt. Still, there are some new character developments that will truly take you by surprise. Their subject matter is the antagonistic relationship between twins whose conflicts tear their entire family apart. By Jason Little Uncivilized Books Borb tells the story of a down-on-his-luck homeless man, playing it for laughs by using the punchline format of a newspaper comic strip. That may seem insensitive and offensive, but Jason Little is aiming for a visceral reaction from his readers. By presenting his story in a style derived from classic Depression era strips like Little Orphan Annie, Little calls to mind the lovable, hapless hobo archetype of that period, but pairs it with the horrific situations that real homeless people actually experience today. While it will make you laugh at times, it is sure to disturb you even more. In his latest collection of stories, Killing and Dying, we even see him reaching out of his comfort zone a little. By Ethan Young Dark Horse Comics Cartoonist Ethan Young seemed to come out of nowhere this year with this brilliant and accomplished fictional graphic novel about two Chinese soldiers trying to escape the fallen city of Nanjing during the second Sino-Japanese war. Along the way they are confronted by the atrocities committed by the conquering Japanese soldiers, some of the most horrific committed in the history of modern warfare. It is a war that is not depicted often in Western media, and Young, who is the son of Chinese immigrants, pours a lot of emotion into it. Working with congressional aide and writer Andrew Aydin and the award-winning artist Nate Powell, Lewis tells his story of being a key figure in the Civil Rights movement. Reading it at this moment in post-Ferguson America gives the comic an even sharper relevance. As Lewis and others non-aggressively attempt to ride buses and go to movie theaters in segregated areas of the South, they are met with extreme and shocking violence not only from the KKK, but from average white citizens as well. It is a vivid and disturbing depiction of an ugly time in American history. At first, it seems to be a series of vignettes about high school parties, drinking, sex, and adolescent angst, but then kids start showing up dead and no one seems too preoccupied by it. The landscape starts to become littered with decadent graffiti, and you begin to notice the total absence of adults anywhere in the story. Her drawings are bold and confident and her characters are full of life and unique personality.
