Do not Bid if you are outside of the USA. Our company does our best to describe all items as accurately as possible. All items are considered second hand and sold As-Is. Many manufactures like to reuse parts already in production so one part may fit many models. In saying this please check for yourself if the year and model of the item I am selling will fit your vehicle. The keyword search is used to attract attention and not always what the item fits exactly. Always ask questions if you are unsure. I will post the questions if I do not know the answer for others. If you have more info regarding the item that I might not know please tell me I appreciate it and will post it. All payments must be recieved within 7 working days. All payments must be cleared before shipping. If you have any problems with payments please contact me Via Ebay. Most days it will be next business day. I will bend over backwards for those that pay quick. I like to get my parts fast too. I cannot ship UPS to P. Please send me an actual confirmed address. All Items are Sold As-Is. Please bear with me when buying large items such as body panel, wheels, tanks, etc. I spend extra time finding the correct box for safe shipping. This may delay shipping a couple days on my end. Please place your max bid before the end of auction to avoid more experienced Ebay snipers. I receive many emails from second place bidders that would of payed a little more but did not put their max bid. Feedback is important to everyone. I am more worried about making my customers happy then a negative feedback. If there is a problem with anything please contact me before leaving feedback. I will leave feedback once it is received to insure that every customer is satisfied. There is no refunds unless we described the item incorrectly. We are human and make errors and will fully compensate for errors on our part. Always ask question, we are here to help. The free listing tool. List your items fast and easy and manage your active items. Questions and answers about this item No questions or answers have been posted about this item.

Your CRF can be started with the transmission in gear by pulling in the clutch lever before operating the kickstarter or start button. Preparation Make sure that the transmission is in neutral. Turn the fuel valve ON. Fuel Valve Starting Procedure Always follow the proper starting procedure described as follow. About 15 seconds after the engine starts, push the choke knob back all the way to fully OFF. If idling is unstable, open the throttle slightly. Extended use of the choke may impair piston and cylinder wall lubrication and damage the engine. Turn the fuel valve 1 ON. Do not use the choke. Keep the throttle fully closed. The engine requires a richer mixture for starting in cold weather. When the throttle is so opened, the accelerator pump will feed extra fuel to the cylinder, thereby facilitating starting in cold weather. Continue warming up the engine until it runs smoothly and responds to the throttle when the choke knob is pushed back all the way to fully OFF. ON -Turning the fuel valve ON before attempting to start the engine allows fuel to flow from the fuel tank to the carburetor. Pull the choke knob 2 fully ON, if the engine is cold. Pull the clutch lever all the way in, and depress the start button. Or operate the kickstarter to start the engine. Starting from the top of the stroke, kick through to the bottom with a rapid, continuous motion. Do not operate the throttle. Allowing the kickstarter to snap back freely against the pedal stop can damage the engine Incoming search terms:
