The cherubic hero in the neat powder blue suit, who looks like he was torn out of a yakuza pop-up book? Or is it the overarching impression here that Suzuki has constructed a wonderfully buoyant Japanese discotheque time capsule crammed with a swatch, lock, or secretion of just about every brand of mod culture happening in , from James Bond and Andy Warhol to Made in U. A and Blow-Up, and in the silk-screened process, fabricated the perfect pop art poster child? Seven defining moments in Tokyo Drifter: Chiharu is snatched by hoods in broad daylight, only the driver turns out to be the Drifter. The ensuing events are a riot of spatial displacement and fractured continuity: She swoons, collapses, a doll the gangsters have stuck with voodoo pins. The Drifter enters—lights, gunplay, action! Bullets fly, yakuza dive for cover, Tetsu throws away his gun, then retrieves it and dispatches the henchmen. But his old boss, Kurata, has the drop on him, so he flips his gun over his head and then catches it before it hits the floor. In the year of Tokyo Drifter, it was as if the whole world had gone Day-Glo. The plot is just an excuse to set hit men and their ornamental paramours in motion; the drama is all in the interplay between the fluidity of appearances and static mannequin poses. Then along came Tokyo Drifter, by all outward indications a retreat to simpler, safer genre pastures, a studio-placating cavalcade of glum gunmen tooling around in big American cars and lacquered mistresses with beehive hair and wishbone legs. The film has a passing, dismissive interest in the emergent post-Goldfinger phenomenon of the pseudo-hip action hero. A , however, it is first and foremost an aesthetic object, an intricate universe unto itself—it references the outside world fads and fashion , but it creates its own dreamy enclave. In our day, when retro is often another word for an insatiable hunger for something more authentic or more glamorous or more risky than what the dominant culture affords, the Drifter finds fellow travelers in the likes of Mad Men and the late Amy Winehouse who could have been auditioning to be house chanteuse at Club Aries. To call Suzuki a global filmmaker and emphasize the internationalist character of his work is not to say that he was emulating Hollywood or European mannerisms, or borrowing directly from pop art, for that matter. It is more accurate to say he picked up the zeitgeist and ran with it—Tokyo Drifter was an engraved invitation to the party of the sixties, the flip side of the assassinations and napalm and anguish, indulging the pop love of surfaces and artifacts over Freudian anxieties or Marxian imperatives. Branded to Kill is a full-on nightmare vision, while Tokyo Drifter is more in the bittersweet range. But that only licensed Suzuki to take a routine assignment and experiment all over the place, probing how much could be done inside the frame, the amount of energy that could be brought to bear on the entropy of custom. Formulating an insistent tension between beauty and the void, Suzuki here couches it in the commercial language of the day, as well as in the irreverence and wit and love of mass modernity of the pop gate-crashers.

Realizing that I had missed a day and my photos were not that inspiring or interesting either. Looking at the bright side of things though, which we all need to do more of, I did get 6 days of photos. While they might not be that grand or interesting to look at, it is a peek into our every day and that matters. The whole catch the moment is just capturing the everyday. And that is exactly what I do each week. Dusting myself off and being proud that I did get 6 out 7 photos and that in itself is a win too, no matter how small. While our weeks are very average and to some boring, that is okay. It is our week and our regular life. I am all about that regular life. Taking advantage of my free birthday item at Starbucks, Roxy and I walked up to our local Starbucks. I ordered myself lunch and an iced tea. And while in there picking up my food I asked for a puppuccino. Roxy was pleased with this little treat too. Instead, I gave myself a bubble bath and relaxed. Day â€” Wednesday, September 26th â€” Reading at soccer, or rather trying to. I was nearly done with this book and would take no time at all but kept getting distracted by the other field. She looked so cute in her pumpkin bandana. Sam is the neighbor dog behind us. They are quite the duo in the neighborhood because if one barks the other comes to help. Roxy gets so excited when Sam comes into the fence to play a bit. Day â€” Sunday, September 30th â€” Was a cozy lazy Sunday. How was your week?

My "catch" moment will, hopefully, be a fleeting one. Certainly, contending with the Trump regime and his Republican enablers often reduces me to the kind of response of wanting, as one.
