The couple subsequently had one more child, a daughter named Carine. McCandless graduated from W. Woodson High School in Fairfax, Virginia, in 1972. It was during this journey he learned that his father had not yet divorced his first wife when McCandless and his sister Carine were born, and had apparently maintained somewhat of a double life before the move to Virginia. It is speculated that this discovery had a profound impact on the younger McCandless. A flash flood disabled his car, at which point he removed its license plates, took what he could carry, and kept moving on foot. His car was later found, repaired, and put into service as an undercover vehicle for the local police department. Gallien had given McCandless a ride from Fairbanks to the start of the rugged track just outside the small town of Healy. Gallien dropped McCandless off believing McCandless would head back towards the highway within a few days as hunger set in. Self-portrait photographs and journal entries indicate he foraged for edible plants and hunted game. McCandless hunted porcupines, squirrels, and birds, such as ptarmigans and Canada geese. On June 9, he stalked and shot a moose. However, the meat spoiled within days after McCandless failed to properly preserve it. In July, after living in the bus for three months, he decided to head back to civilization but the trail was blocked by the swollen Teklanika River; the watercourse by that stage was considerably higher and swifter than when he had crossed in April. McCandless did not have a detailed topographical map of the region and was unaware of a hand-operated tramway that crossed the river eight-tenths of a mile away from where he had previously crossed. He posted an S. I need your help. I am injured, near death, and too weak to hike out. I am all alone, this is no joke. In the name of God, please remain to save me. I am out collecting berries close by and shall return this evening. Thank you, Chris McCandless. Upon entering, he smelled what he thought was rotting food and discovered "a lump" in a sleeping bag. The hunter quickly radioed police, who arrived the following day. He had died of starvation sometime in August. First, he offered that McCandless was running the risk of a phenomenon known as "rabbit starvation", from overrelying on lean game for nutrition. Swainsonine inhibits metabolism of glycoproteins, which causes starvation despite ample caloric intake. Thomas Clausen, the chair of the chemistry and biochemistry department at UAF, said, "I tore that plant apart. There were no toxins. Ronald Hamilton, a retired bookbinder at the Indiana University of Pennsylvania, [5] suggested a link between the symptoms described by McCandless and the poisoning of Jewish prisoners in the Nazi concentration camp in Vapniarka. He put forward the proposal that McCandless starved to death because he was suffering from paralysis in his legs induced by lathyrism, which prevented him from gathering food or hiking out. The ODAP, a toxic amino acid, had not been detected by the previous studies of the seeds because they had suspected and tested for a toxic alkaloid, rather than an amino acid, and nobody had previously suspected that *Hedysarum alpinum* seeds contained this toxin. The protein would be relatively harmless to someone who was well-fed and on a normal diet, but toxic to someone who was malnourished, physically stressed, and on an irregular and insufficient diet, as McCandless was. Results suggest that the seeds contained 0. In February, Krakauer published a follow-up article in *The New Yorker* that reported on scientific analysis of the H. Known as "The Magic Bus", the International Harvester was abandoned by road workers in on the Stampede Trail where it remains today. First off, he spent very little time learning how to actually live in the wild. He arrived at the Stampede Trail without even a map of the area. If he [had] had a good map he could have walked out of his predicament [ Among my friends and acquaintances, the story of Christopher McCandless makes great after-dinner conversation. Now and then I venture into the "what a dumbshit" territory, tempered by brief alliances with the "he was just another romantic boy on an all-American quest" partisans. But Chris, with his idiosyncratic logic, came up with an elegant solution to this dilemma: He simply got rid of the map. In his own mind, if nowhere else, the terra would thereby remain incognita. A PBS documentary uncovering some additional information, with interviews, titled *Return to the Wild*: In the book, Carine describes the verbal, physical and sexual abuse her parents allegedly inflicted upon each other and their
