*Alternating between past and present narratives, Gayle Forman builds Mia's life piece by piece. Mia becomes much more than a character - she is a girl with a family, friends, a great love, and an incredible talent.*

I was a mess reading that last line, sobbing uncontrollably at 11PM on a Saturday night. This story gripped me from that very first line: What did the snow do? I had my suspicions from reading reviews on Goodreads and I knew the plot was based on Mia losing something. Nevertheless, in no way was I prepared for the emotional onslaught reading this short book gave me. I did this because it gave me a lot to think about and I remember half way through this book something that Mia said hit me so hard that I cried for a long while. It flowed well and gave me a helluva lot to think about. This is one of those books that will stick with me for a very long time! I know this is highly irregular but I have absolutely nothing bad to say about this book. The cover was simplistic yet lovely, the writing was incredibly amazing, the feelings I got were overwhelming in the best way possible and the characters were incredibly endearing and I found it easy to feel what Mia felt and my heart broke for her, for everyone actually. All of her family, Adam, Kim and when the flashbacks came and Mia was remembering precious memories, I became a blubbering mess. She had a choice, which was the main point of this storyline. I know you won't regret it. OH and good news for all the fans of If I Stay: There will be a movie!!! Then tweet me and fangirl with me! It looks amazing, so close to the book and the song Say Something was just made for this story. Please oh please ignore this: In no way does this book remind me of Twilight, absolutely no way. Before reading this book, be prepared. There is a movie coming out August 22 and so I wanted to read the series before the movie came out. I borrowed it and began reading without delving into the synopsis. From the first sentence, I was in the grips of this book. I did not want to put it down. Not in the traditional, who-dun-it mystery sense. Forman created a quirky, wonderful family that in just a matter of pages you fell in love with. Then Forman destroys it. And as a reader, I felt like I was there. The shock and the horror and the sorrow were genuine emotions that consumed me. I read quite a bit and enjoy most of what I read. This is a book that I enjoyed not because it was full of feel-good, happy-ever-after bliss. No, it was because Forman expertly captured human emotion. At the beginning, I thought the book would be whether Mia would choose to go to New York and pursue her education at Julliard or stay closer to her boyfriend Adam. And of course, Mia chooses to stay -- but it is not clear at the end if she chose to stay with Adam or not. So I began the second book thinking it was going to pick up very shortly after the first. I was wrong - but happy to be. Just like the first book, this book was emotionally gripping. It also focuses on a very brief span of time; the latter portion of the book explores one night where Mia and Adam reunite. I am so glad that these books crossed my radar. They are incredibly well done and are on my best of list for the year. I am not sure if I am looking forward to the movie or not. For readers, movies rarely are as good as the book and I admit that I am not sure how the movie could even come close. Her parents are gone and some of the choices she has to make seem to be just too hard to even think about considering. But as the machines keep her body alive, her spirit walks the halls of the hospital seeing the people she loves and reminiscing about days gone past. With college looming and having to decide between the love she has for music and the boy that holds her heart, Mia needs to decide. If she goes she can be with her family. Well that remains a mystery. This is one of those devastating stories about loss and love. And I adored the way love was portrayed in this novel. Not necessarily the love between main character Mia and her boyfriend Adam but the love between families. Their passion for music and life was infectious. Like wise the love shown between friends - like Kim and Willow. Even though her flashbacks I found her to be a little standoffish and lacking the vibrant energy in which she describes her family and friends as having. That said, her narration does deliver a well rounded and full picture into her life and her music. Her relationship with music and love was beautifully written and I thought it was a very interesting way to look at the world. This is a beautifully written novel about love and life. It kind of snuck up on me. I will definitely be on the look out to read more from this fantastic YA author. I wanted to read something that would possibly be emotional and I was hoping this would be one of them. The book started off ok and then I must say I was quite bored. The story felt like it was all over the place not in a bad or hard to

keep up way, but I felt like the book was just filled with background information of the past. It was good writing and it had some great moments. Leave this world forever or stay and try to rebuild the ruins of your life? After the horrible car accident that led to the death of her family, Mia is in a coma. She is the girl in between. There are moments with her family, simply eating breakfast, or her falling in love with her boyfriend Adam. I had high hopes in the relationship between Mia and Adam. He is sweet, has inner strength and is willing to fight for Mia no matter what. Nonetheless I find it helpful and necessary that Gayle Forman includes moments of their lives and retells the most important stations to offer the reader a glimpse of what could be forever lost to our torn protagonist Mia. And torn is exactly how I felt about Mia, too. On the one hand I totally got how she felt about this whole messed up situation. People who are interested in music the same way Mia is should like this read a lot. Gayle Forman tells the story of Mia with the right amount of sensibility and beautiful piano notes contributing a soundtrack to the sad story. If I Stay is purely indescribable. The complexity of these characters just astounds me. I want to know what that special kind of happiness is. But after one fight, they became instant buddies. Mia and her little brother, Teddy-who is absolutely adorable, let me tell you-are thick as thieves. And Mia and her parents are practically polar opposites; her dad was once a rock band drummer, and her mom is a total rocker chick. But the four of them make a hilarious family. Here is a description of the typical young adult book boyfriend: So guess what the guy-Adam-does in this book? But he is so incredibly sweet. Little things here and there just make you fall for him-like Mia did-before you even realize that you fell for him-like Mia realized. Because they get in fights too. They have their differences too Adam plays in a rock band. They are just a regular teenage couple-but the two of them are just so deeply in love I want to cry. But the part I loved the most about this book: If you were in a car accident, if your parents were dead, if your little brother might be on the verge of death, if you were stuck in a coma, if you knew that there was nothing for you if you came back except for a boyfriend and a best friend and a few relatives Take a deep breath and sit back and just think. You would be a seventeen-year-old orphan. Your life would definitely not be the same as it was before the accident. Would you really want to stay? Deep and engrossing, If I Stay is a must for any reader. Such an emotional novel is guaranteed to kindle a response to the biggest choice one could possibly have: Close X Follow us.

Plot[ edit ] On a snowy day, Mia, her mother, her father, and her little brother, Teddy, decide to go for a morning drive. Another car crashes into theirs, causing serious injuries for the entire family. When Mia awakens, she finds herself detached from her body, which is barely holding on. She finds the bodies of her mother and father, who died from the crash. She also finds her own body, on the brink of death. Mia realizes that she is having an out of body experience, and follows her physical body to the hospital. She watches her extended family rushing to take care of her, while her best friend Kim and her boyfriend Adam struggle to reach the hospital. Through her stay at the hospital, Mia reflects on her life, reminiscing about the development of her relationship with Adam, the development of her passion and talent for playing the cello, and the obstacles of being a teenager who feels out of place no matter where she goes. Mia goes back and forth between deciding whether to stay with her remaining family, as well as Adam, or whether to leave, to be with her parents and Teddy, who have passed on. Her decision is almost made up to leave, until Adam finally reaches the room where her body is being held. He begs her to stay, and in that moment, she sees how her whole future would go on if she was to stay. And in that moment, she makes her biggest decision to stay.

Characters[ edit ] Mia Hall: Mia is a year-old teenage girl living in Oregon. Though she cares deeply and has a great deal of love for her family, and her boyfriend Adam, the one place in which Mia feels most secure is when she is playing her cello. Her idol is Ludwig van Beethoven. Mia struggles with a sense of fitting in, especially amongst her parents and her younger brother Teddy. While her entire family shares a great passion for music, Mia stands out as the only classical music inclined member. Both of her parents were great promoters of the rock movement. Even her younger brother Teddy, while young, is already showing an interest in rock. Mia struggles between the two versions of herself, the version that fits in with her music and the version that longs to fit in and get along easily with her family and her boyfriend. Mia struggles to understand why her boyfriend, Adam, cares for her the way he does. This poses problems for the two, though their relationship is inherently very strong otherwise. He is very handsome and loves music. He plays guitar in the band Shooting Star, which is rapidly gaining popularity throughout Oregon. Though their love for each other is very strong, they both seem to be heading in separate directions. It is their love for music that is causing the separation. Mia is considering going to Juilliard and Adam must stay in the Oregon area to continue playing guitar for his band. Adam loves Mia and would do anything to make her happy. Although they originally hated one another when they first met, they soon become best friends. They are said to be very alike and are perceived as "dark and studious" assumptions that often work to their advantage. Kim is sarcastic, and obedient to her emotional mother, up until her breaking point in which she tells her mother to get her stuff together. Kim said that their connection is only through Mia, and this connection is clearly strengthened through their ventures to get Adam to Mia when she is in the hospital. Mia is extremely fond of Teddy, saying he is like her own child. Teddy admires Mia and the two are very close. The relationship between Mia and Teddy is much closer than the average brother-sister relationship. His death hits her extremely hard. Kat struggles to understand her daughter, who is so unlike herself and the rest of the family. She loves her unconditionally, and does her best to make Mia feel accepted and loved despite the differences between the two. She tells Mia all of the things she needs to hear, despite whether or not she actually wants to hear them. Denny also possesses a great love for music and was in a rock band of his own before he became a father. Though music was extremely important to him, his family was more so, and because of that he finds it easy to move on and "grow up". Mia and her father share a special relationship and find themselves connecting as artists. Mia appreciates who her father is, both as a musician and a lyricist. Though Denny has given himself over to the idea of fatherhood and settling down, he still clings to his rock and roll self, dressing in odd hipster fashions and playing rock music for his family in the car. Denny pushes Mia to be the best musician she can be, and shares a special connection with her. He buys Mia her first cello and gives her a pep

talk before her first ever performance. Themes[ edit ] Choices: The conflict of making choices is a prominent theme in the book. Her choices become a reflection of her true character; whether she has the strength to go on in her life without her family, or whether the burden of losing them will be too much to bear. The choices about whether to go to Juilliard or to stay with Adam. The choices about whether she stays true to her passions of classical music or whether to step outside the box and try to immerse herself in the world of rock. This is an obvious theme in the book. Mia is confronted by the idea of life versus death and is given the rare opportunity to choose which she wants to embrace. She faces death in a very abnormal way, dealing with not only the death of her family but the potential death of herself. She also must deal with the idea of life, and all the possibilities it can bring for her. Mia is forced to face the reality of growing up way before her accident, although it becomes much clearer that her life will require her to grow up very quickly should she choose to stay in the physical world. Mia struggles with leaving her childhood behind as she reaches the end of her high school career and is on the brink of entering an adult world, where she will not only be in a new place but be completely alone, where she must fend for herself. The two were going through a hard time when Mia made the decision to end her relationship with Adam and left to go to New York to attend the Juilliard School of Music. The sequel follows their reunion through one night in New York, and takes them on a wild ride that might bring the two back together. If I Stay film After the book became extremely well received, Forman decided to collaborate with Summit Entertainment to bring the novel to the big screen. Catherine Hardwicke , director of the first Twilight movie, was originally set to direct the film adaptation, but she was eventually replaced by Brazilian filmmaker Heitor Dhalia , [9] who also left the film later. On January 24, , R. Cutler was announced as the new director of the film. Pictures was announced to distribute the film and released on August 22,

Initially, she believes that she is dead. Mia and Teddy are rushed to a local hospital. Then, Mia is flown to a trauma center in nearby Portland, where she undergoes surgery and is placed in the Intensive Care Unit. Her grandparents and other relatives arrive, as well as her best friend Kim. Eventually, Adam, her boyfriend, drops in to see her. It is Mia herself who is in control of whether she lives or dies. Mia begins to consider what her life would be like if she stays. Eventually, she determines that although having her die will hurt those who love her, they will recover. It is too difficult to think about living in a world where she has suffered so much loss. However, before she can let go, Adam arrives and puts headphones over her ears, allowing her to hear a piece of music by her favorite cellist, Yo Yo Ma, whose concert they attended on their first date. This causes Mia to think about not only what she has lost, but also about what might still be ahead of her. This section contains words approx.
