Has this poem touched you? I know people are thinking well maybe I should have educated him more about safe sex, but in his defense, he was lied to by the young lady in reference to her use of birth control. Wrong to opt out of his own protection, but I had to remember the mistakes I made as a carefree girl I always tell him about how I never knew what love was until the day he was born, but does he understand that it is not just story but the TRUTH? He was my first born, my first love. It was such a violent crime that I question God. My son was such a great young man He was raised to respect his elders and to love hard. If he was guilty of anything, it was that. His killer s are still at large without additional leads. This evil individual s came into his house with his grandmother just upstairs and shot him fourteen 14 times. I am at a loss for words I hurt so much. I buried my step-father shortly over a week ago, only to return a week later to plan to bury my first born. I say all this as I take comfort in knowing there are others who have learned to work through this horrible pain and dealing with such tragedies while keeping their faith. Nevertheless, having a support group along with my faith will perhaps help me through. The strength and courage you have is a true inspiration to others who have suffered the worst possible tragedy, losing your beloved child. No words from us humans will suffice. Only GOD can ease your pain through time. Still, my heart and prayers go out to you. I pray that you watch for your son. You will always be connected to your child. No matter how far apart we may feel, we are always connected by an invisible umbilical cord with our children, which never severs. How he died was from liver failure due to alcoholism. He only told us the good things, never the bad. I miss him so much. Does this pain ever get easier to deal with? We lost our son, he was 26 years old and had 3 children. He was shot 12 times just a few miles from were we live. He was a twin and we see him all the time in his brother, they were like one person so the surviving twin went down the wrong road after that and ended up in prison. So basically we lost both for a time. Ya, they say a parent should never have to bury their child. This is so true, you never get over it, it only dulls a little with time. Unless you have gone through the same pain there is nothing that compares. My heart goes out to all of you who have felt the same. I too turned to poetry to ease the pain and be my voice. I have 3 children. God bless us all and keep them and God in our hearts. The hard loving struggle to make sure the child was raised right. You put everything you had into it. The laughter the joy the tears no one could ever take away that heartfelt feeling mom created out of love. Mom created more than a child she created an entire lifetime. Every word every moment every lesson taught. A lifetime of family values. When your children always came first no exception. A mom is love compassion,a very rare heartfelt feeling. Something happens to a mom when they realize they are going to be a mom. Their selfish world now becomes selfless. The child is first. Their happiness their life their world is entirely in mom hands. Mom does all or most the loving the care the teaching the compassion. She is needed desperately in the family. Mom makes a house feel like love. I have 4 sons and all are living and healthy. I just love them all sooooo much and just wanted them to have something to remember me by always. God Bless you all and your families. I had him at the age of 16, and he is about to be nine. Having a child at 16 was scary at first, but I would not change it for the world. Thank you so much again. I like this poem a lot. God bless you and your family. No one knows nothing and his killer is still out there. The sad part of the whole thing he had a daughter that he never got to meet. She is three years old and we just got to meet her and know her, she asked to talk to her dad every day. I miss my son every minute of every day. My husband was murdered as well. I miss them everyday I had two sons and they are the light of my life. My only son now has blessed me with twins two little boys and I love them so much. I pray that his uncle and his grandpa can enjoy them from heaven. He was 24 yrs old. His only child my grandson was seven months at the time. My grandson would say I want to see my dad. People would say I understand because I lost my uncle or mom or sister. The pain I felt back then I can still feel it as if it was yesterday. Please understand I am not trying to take away the important role that person had in your life. Even though I can still feel that pain as if it was yesterday, I have to thank God for His love because He said I will

never leave you nor forsake you. Please encourage everyone because He still sits on the throne. I Miss You Son! He was jumping off cliffs into a lake, which people do daily. He jumped and never surfaced. He loved the lake, the sun, the fun. This was almost two months ago. I have three younger kids. There are no words to express my pain. The bond between us is something I miss. He was my first true love, my best friend, I just seem lost without him. I can see my son doing the same thing since he has taken lots of risks many times. I always pray I will get to see him live a long healthy life. It hurts to hear another mother in pain. Do you think he would want you to feel as you do? Do You think if he was here he would want to see you like that? Focus on the awesome times you had. No one can tell you how long it will take you to move on I know. But it gets better, your other three kids need you. Maybe they are going through some pain. Turn that energy to them. I have 4 sons and this poem is dedicated to all of them. I just needed them to know just how much I love them.

We need sad songs for the comfort they can provide. Bernie Taupin captured this sentiment best and hid it in a jaunty little pop song by Elton John: And these 50 songs helped the Paste staff to hurt so good. This list barely scratches the surface of sad songs—or even sad songs that got nominated by our writers. If your favorite is missing, add it to the comments section below. Here are our 50 favorite of the saddest songs: Tammy Wynette articulates the internal struggle of so many divorcees-to-be with children, the strain and ache in her warble serving as a vehicle for her overwhelming remorse. With such a delicate experience on his hands, he admitted that the choruses he came up with sounded too literal. This song hit me at the perfect time in life, and seemed to capture a kind of ineffable melancholy that went beyond the girl I was pining over, and was instead an essential part of the human experience. Here, Beam has accomplished nothing less than telling the story of our sadness. The imagery alone is gripping, but the gentle harmonies from Krauss are what push this mournful track into sob-worthy territory. The music, for the most part, hangs back from his resigned vocals, clicking away like a bit of hospital machinery and only interrupted by a haunting piano roll and a fluttering bit of melodica. She sums up those natural feelings of jealousy when an ex moves on to someone new sooner than expected. But instead of writing a dreary ballad about it, Robyn flipped the script. From the time I arrived, I could tell she was over our relationship. Over some sparse, rumbling guitar plucks, Mark Kozelek memorializes Carissa, a mother who died in a fire at the age of He delivers with anxiety-driven urgency, sounding like he could just break down into a blubbering frenzy at any moment. The horn section rides along smoothly in comparison, cresting and dipping deftly as Waits sings vigorously, wounds exposed. Meanwhile, the keyboard line bounces happily along. That the words are set to his impossibly lovely melodies just makes it harder to hear. Father gambles, drinks, runs around. She begs him to repent. Mother gets sick, prays, dies. Finally, father gets religion. With their Appalachian twin harmony, it is the sorrow of the mountains distilled. Winner for most upsetting lyric is hands-down: Both the lyrics and the music are simple, but its repetitive rhythm, steady beat and basic rhyme scheme just make it more relatable. Vedder sings the final chorus with renewed agony and then hums a hymnal-like, wordless tune before the instruments and Vedder both fade into silence. Over his claw-hammer finger picking, Earle lists a litany of afflictions—poverty, alcoholism, loneliness, klutziness, and lost youth and love—throughout a third person narrative. But in the bridge, Earle shifts the perspective to that of the omniscient narrator. Over a cartoon toy cowgirl getting left under a bed. After a final tour the following year, the Grammy-winning country singer, TV host and actor recorded a farewell song for a the documentary Glen Campbell: The father of eight children from four wives, Campbell has been married to Kim Woolen for more than three decades. A brief summary of its events: All he can do is ride the train to an unfulfilling job and dream of all the places he wants to take her. Beaten women, getting hustled, crime gone bad, jail time, addiction. Two minutes, 23 seconds of harsh reality, stoic in its acceptance of a fate worse than death. God is a place you will wait for the rest of your life. Nor can I think of anyone who can somehow express this inexpressible concept with such power and emotional precision quite like Mangum. Despite being literally blown through a window by the blast, Sadako appeared to be relatively unharmed and lived a normal childhood until she developed leukemia at the age of 11 from the lingering radiation. In her dying days, Sadako therefore worked on folding her own 1,000 cranes, but passed away having only completed The remaining cranes were finished by friends and family, and the poor young victim of WWII was ultimately buried with them. In its place was one of the most depressing-sounding—and artistically brilliant—albums in recent memory. Jules and Andrews traded the original pulsating synths for a stark, arpeggiated piano line and soft mellotron swells that arguable better emphasize the brooding lyrics of alienation. But in the chorus, Jules manages to laugh in spite of his dreams of death. Written by Marijohn Wilkin and Danny Dill in , the song tells the tale of a man wrongfully hanged for a murder because his alibi happens to be married to his best friend. Rather than betray his love and ruin a marriage, he carries the secret to his grave, leaving his lover in a

state of constant mourning. A relationship full of resentment, as the bedroom has turned cold and all his failings have been exposed, is something to mourn, and everything about this song super-charges that mopey feeling. Or the song from the perspective of a crooked cop trying to hide his kickback money from his young son to not lose his respect. Or the song about the evil small-town mayor who tricks his illegitimate son into hooking up with his half-sister. Harry Chapin is not kind to the characters in his songs. Its power resides in its slowly stately build up with shuffling drums, a sly bit of marimba, and those weightless strings wafting through it all. Stranded in the middle of this musical swirl stands Orbison, bleeding with emotion as he recounts all the reasons that his shattered heart is never going to heal and his tear-stained cheeks will never dry. This is a song that more people should know, but that no one else should ever attempt to cover. Cohen has a way of invoking deep spiritual longing with Biblical references that turn extremely personal, and Buckley had a way of drenching it all in tremulous emotion. The combination is transcendent. With his deep, hang-dog voice, Stephen Merritt can no longer imagine that the sun would even bother to shine on a world where his love is gone. *The Man Comes Around*, in November His wife, June Carter Cash , died six months laterâ€”followed four months after by Cash himself. The robin, the whippoorwill, the midnight trainâ€”they all mourn with him to meet his quavering drawl, the imagery paralleling the sonic atmosphere. When the narrator looks at the body of the girl he loves after she finally succumbs to cancer, he thinks for a moment that he sees her breathing. Then he sings about God: And the only conclusion is a chorus of angels whose weeping turns into something like joy as a triumphant trumpet kicks in. There are so many details that lead to my inevitable goosebumps: Because the characters seem so real, so does the sorrow.

The Boston-based quintet found the middle ground between the menace of the Rolling Stones and the campy, sleazy flamboyance of the New York Dolls, developing a lean, dirty riff-oriented boogie that was loose and swinging and as hard as a diamond. In the meantime, they developed a prototype for power ballads with "Dream On," a piano ballad that was orchestrated with strings and distorted guitars. In 1971, the first incarnation of Aerosmith formed when vocalist Steven Tyler met guitarist Joe Perry while working at a Sunapee, New Hampshire, ice cream parlor. Tyler, who originally was a drummer, and Perry decided to form a power trio with bassist Tom Hamilton. The group soon expanded to a quartet, adding a second guitarist called Ray Tabano; he was quickly replaced by Brad Whitford, a former member of Earth Inc. With the addition of drummer Joey Kramer, Tyler became the full-time lead singer by the end of year. Aerosmith relocated to Boston at the end of 1972. After playing clubs in the Massachusetts and New York areas for two years, the group landed a record contract with Columbia Records in 1973. *Toys in the Attic* captured the essence of the newly invigorated Aerosmith. Its success prompted the re-release of the power ballad "Dream On," which shot into the Top Ten in early 1975. In early 1976, Aerosmith took a break and prepared material for their fifth album. Released late in 1976, *Draw the Line* was another hit, climbing to number 11 on the U.S. In addition to another tour in 1977, the band appeared in the movie *Sgt. Bootleg* appeared late in 1977 and became another success, reaching number 1. Aerosmith recorded *Night in the Ruts* in 1978, releasing the record at the end of the year. *Night in the Ruts* performed respectably, climbing to number 14 and going gold, yet it was the least successful Aerosmith record to date. Brad Whitford left the group in early 1979, forming the *Whitford-St. Louis*. The new lineup of Aerosmith released *Rock in a Hard Place* in 1979. Peaking at number 32, it failed to match the performance of *Night in the Ruts*. Perry and Whitford returned to the band in 1980 and the group began a reunion tour dubbed *Back in the Saddle*. After the release of *Done with Mirrors*, Tyler and Perry completed rehabilitation programs. In 1981, the pair appeared on *Run-D.M.C.* Like *Permanent Vacation* and *Pump*, *Get a Grip* was produced by Bruce Fairbairn and featured significant contributions by professional songwriters. The making of Aerosmith albums usually had been difficult affairs, but the recording of *Nine Lives* was plagued with bad luck. The band went through a number of producers and songwriters before settling on Kevin Shirley in 1987. Upon his firing, Collins insinuated that Steven Tyler was using hard drugs again, an allegation that Aerosmith adamantly denied. Under such circumstances, recording became quite difficult, and when *Nine Lives* finally appeared in the spring of 1987, it was greeted with great anticipation, yet the initial reviews were mixed and even though album debuted at number one, it quickly fell down the charts. The live *A Little South of Sanity* followed in 1988. *The Very Best of Aerosmith* arrived in 1989. From there, Aerosmith entered a period of volatility. This tour proved to be ill-fated, with Steven Tyler suffering a leg injury in June, then falling off the stage in August, leading to the cancellation of the subsequent dates. As 1990 came to a close, Joe Perry released a solo album called *Have Guitar, Will Travel* as Tyler announced that he was planning on "working on the brand of myself," which included working on an autobiography and a solo album, along with a stint in rehab to wean himself off painkillers prescribed due to his stage injuries. Before Tyler embarked on solo projects, he returned to the band for a series of concerts in 1991, in the midst of which it was announced that the singer would be a new judge on the televised singing competition *American Idol*. Originally scheduled for release in summer of 1992, *Music from Another Dimension!*
