Dauntless and courageous, Brenna vows not to be a slave of the barbarian Vikings. From the description of her childhood, we get to learn that she had prior skills in sword fighting. On her capture, she is taken back to the Viking camp where she is handed over to Garrick as his slave. Garrick treats her as such and constantly visits her quarters where he violates her. This event angers Brenna greatly to an extent that she tries to escape. Garrick views the escape as a betrayal of his love for her. This causes him to lose trust in her, and he even refuses to take her back when she is kidnapped and returned to his home. The son is born early and hence life threatened. Garrick heroically saves him and this encounter softens his heart toward Brenna. Brenna faces danger throughout the books as unknown people try to take her life. The mystery of these unknown killers is solved later in the novel. Garrick proposes to Brenna and she accepts the offer. The two marry and live happily forever after. At the beginning of the book, we meet Angela Sherrington, a poor girl living in Alabama at the center of the civil war. Jacob had been observing Angela from a distance throughout her childhood days and when her father dies, he sends her to Massachusetts to complete her education. Before sending her to school, he tells her a little about her mom, and she even gets to learn that her mother also took her studies in Massachusetts. On one fateful afternoon as Angela was shopping, she stumbles upon an unsuspecting Bradford. The two had a romantic encounter that day, but Bradford did not at any moment realize who she was. After the encounter, Bradford is obsessed with this mystery girl who did not even leave him her name. Bradford hires detectives to find her and after finding her the duo fall in love. Angela later returns to school and she still does not tell him her name. They try to break up this engagement and at first they succeed. Later in the novel the two love birds reconcile their differences and live happily forever after. Johanna Lindsey works are an art of perfection which leaves the readers wrapped in the world of romance and fantasy. The use of vivid explanation indulges the reader into the events taking place in the book from the very beginning to the last page. She is truly one of the best writers of her time. Beschreibung bei Amazon Johanna Lindsey is one of the premier authors of the romance genre. Her books have been loved by readers and bestsellers for years. She continues this tradition by creating another great family series, the Reid Family. The series begins with the story of Duncan and Sabrina. He is the sole heir an English marquis and has no desire to be in London or married. Enter Sabrina, a beautiful and innocent country lass, who is even less underwhelmed by the prospect of a London season. However, she has agreed to be guided by a lady known for her viperish speech as much as for her ravishing beauty. The twist is that this is the lady to whom Duncan has become betrothed. Even though there is no love lost between them, he has to decide which is more important, duty to his title or his fervid passion for Sabrina. The series continues with the story of Ophelia and Raphael. Ophelia is determined to make her own choice for a husband and Raphael is the heir to a dukedom. He is chased by all the young debutants despite being completely uninterested in marriage. This story involves a bet, a change of opinion and a passionate romance. The third book in the series belongs to Rebecca and Rupert. It contains intrigue, spies, assumed deceit as well as romance. She is an inexperienced beauty, unused to the deception of the royal court. He is a charming spy who leads a double life. Due to the machinations of a noblewoman who uses young ladies like Rebecca as spies, he becomes convinced of her duplicity. Once they are thrown into a situation that brings them to intimacy he discovers that he was extremely wrong. Now he finds himself unbearably in love with a woman he has grossly insulted. How can he show her that she is the only woman he will ever love? The latest installment in Reid family saga, features a real-life Cupid in the person of Devin. He is a well-known horse breeder who also likes to bring about matches between marriage-minded ladies and gentlemen of a similar mindset. Amanda is the loveliest lady that any gentleman could hope to marry but she is beginning her third season still searching for a husband. She sets her hat on a horse-loving Earl and knows she needs to overcome her fear of horses to bring him to the altar. To accomplish this and acquire the skills she needs, she enlists the help of her sister-in-law. Devin, as a masterful horseman, agrees to give her riding lessons and the sparks start to fly! Now the dilemma facing Amanda looms, she must choose between the sensible choice and the one that makes her heart beat faster. This series is another romantic achievement by Johanna Lindsey. With every book she brings another passionate love story to life for her devoted readers. To meet those duties of which he is heir, he has become engaged to a beautiful but cantankerous lady. This lady has decided to lead the newly arrived from the country and lovely, Sabrina, through her first season. Duncan and Sabrina are often in each other company due to his attendance on his fractious fiancée. The attraction builds between the two, and they end up in having some interesting, yet questionable, and humorous moments. Now Duncan must decide if he weds with his first choice, or if he will allow his heart to rule. The main characters are Ophelia, an incomparable sensation who has a nasty tongue and Raphael, an heir to a dukedom with total disinterest in marriage. They are both highly sought-after, but Ophelia is the one who has decided marriage is in her best interest. However, she wants to make her own choice, not leave it to her title-hunting father. Rafe developed an intense dislike of Ophelia from their first meeting, but has doubts to her viperishness after she showed him a vulnerable and honest side to her character. He takes some scandalous steps to win his wager, resulting in amusing and fiery occurrences. His lessons soon bring about a positive change in Ophelia but with the consequence of showing him her true delightful, yet spirited, character. And when Ophelia turns over a new leaf and reenters society, she gets more offers than she can handle. It then becomes obvious to Raphael that she is the only woman he would want to change his bachelor-hood status. The torrid attraction they have for each other brings their story to life, yet will Ophelia believe that he truly has fallen head-over-heels in love with her or will she choose a gentleman who is less likely to break her heart? Rafe now needs to prove his love for Ophelia, hoping that he will let him be the devil who tames her. With these four books, Johanna Lindsey has conjured from her imagination another family who are dynamic, enchanting and full of passion. The series follows the romantic lives of the

Reid family and their friends through entertaining events and impassioned embraces. She continues to delight her readers by never failing to enrich her characters with intelligent wit, beauty, dynamic personalities. She fills her stories with ardent romance and will certainly extend her wonderful talent to any future novels involving the enthralling Reid family. Jack Reacher is back! Because when he visits there he finds out no-one with the last name of Reacher has ever lived there. It leaves him wondering - did his father ever live there?

### 3: Listen to Audiobooks written by Johanna Lindsey | [www.enganchecubano.com](http://www.enganchecubano.com)

*Hardcover release scheduled for 12th June, #1 New York Times bestselling author Johanna Lindsey sweeps readers into the ballrooms and country houses of England's elite society in the sparkling, passion-filled tale of a desperate debutante who learns in a most delightful way that she can't fight her scandalous attraction to her virile matchmaker.*

He was so handsome! Curly, light brown hair, beautiful green eyes, nearly six feet tall. Lord Kendall Goswick, my lady, at your service. May I beg your name? Are you here buying a new mount? Baldwin has remarkable stock. Amanda Locke, all fire and brimstone, was definitely a sight to behold. After a few moments Ophelia actually snapped her fingers in front of his face to get his attention. He started to laugh at himself, but cut it off and glanced at her instead. He did laugh this time. He was appalled by the notion, told me to bite my tongue and not give it another thought. He thought his sister would be horrified if she found out about it, and he was right about that, as you just witnessed. We have a marriage of the sort you try to arrange, blissful in every way. But even their father has concluded that a new plan of action is needed at this point and last night spoke to one of the old matchmakers he is acquainted with. Your approach is innovative. The whole family will adjourn to the country for the celebration. She took offense and, as you said, was out there snarling at the grass because of it. All of her friends have found husbands. Who is that handsome young man sitting next to Amanda, enthusiastically talking her ear off? She seems quite enthralled by him. Quite the horse fancier he is. He must have just returned from Ireland. He went there a few weeks ago to buy a mare he heard about. Kendall gave Devin a jaunty hail and came over to meet Ophelia. I was just about to ask her if she would be agreeable to my accompanying her for a ride some morning in the city, perhaps in Hyde Park? Would that be permissible, Lady Ophelia? Devin noticed that she cringed slightly at the idea. That he could well consider it a mandatory requirement for a wife. I was assured today that with the right guidance and instruction, you can be back on a horse and enjoy it. It might be helpful to find that out before I risk breaking my neck again. You might never see him again if I have to tell him that. There was no point in discussing that when it looked as if it might not even be necessary now! Are you going to cross him off because of a simple little fear that you could easily conquer? Most men love to ride. Most husbands enjoy riding with their wives. He was the one who said it would be easy. I thought it might, since you seemed to be courting her unofficially, of course. She would never have been happy with him once she learned the truth about him. Truly, that was what really lured me to her house.

*The Heir (Reid Family Series #1) by Johanna Lindsey The many wondrous gifts of Johanna Lindseyâ€™ her fiery and endearing characters, her enthralling stories, her ingenious blending of passion, wit, and emotionâ€™are all on glorious display in this unforgettable tale about an unwanted title and an unexpected love.*

And trust their niece, Sabrina, who loved the outdoors no matter the time of year, to be found out in that little piece of earth. The two women continued to watch Sabrina, silently, pensively. Alice Lambert wore a frown. Her sister Hilary, the elder by one year, looked rather despondent. It was hard to tell they were sisters by looking at them. Hilary took after their father, tall, narrow of frame to the point of extreme thinness, with dull brown hair and light blue eyes. Alice was nearly an exact copy of their mother, on the short side and rather plump, but with dark hair of a lustrous brown and dark blue eyes tinged occasionally with a violet hue. Yet for once they were in agreement. The niece they had pretty much raised was having her come-out in London society tonight, and they were both worried. Unfortunately, they had good reason to be worried. Any husband of good standing would do as far as the Lambert sisters were concerned. It was much, much more personal and had to do with why the two sisters had never married themselves. They each feared that the old scandal that had haunted their family for three generations might surface again after all these years. But neither of the two women would mention what was at the heart of their nervousness. By mutual accord, the long-ago tragedies were never spoken of. The girl, having noticed it, assumed the pose of a fencer and, as if she had a real rapier in hand rather than an imaginary one, made a stab for the leaf. She then laughed at herself and scooped the leaf up, tossing it into the air where the brisk winter wind caught it and carried it away. Sabrina should have been just as nervous as her aunts were, if for different reasons, but instead, she appeared not to have a care in the world. Neither woman truly regretted not having a spouse. What they might have regretted was not bearing any children themselves, but Sabrina, having come to them to raise when she was barely three, had thoroughly satisfied their maternal instincts. Many might call them old maids and claim their sour-grapes bickering stemmed from that, but that was hardly the case. The two sisters had been bickering since they were children. It was rather ingrained. Mary has mentioned many times in her letters that she starts preparing herself as soon as she gets out of bed in the morning. Mary had grown exceedingly plump over the years, so much so that Hilary had barely recognized her old friend when they arrived in London yesterday. No one who had heard them talking in whispers and in such agreement for those few moments would have believed it, certainly not the niece they had been discussing. Her come-out had been a year in the planning, which included several trips to Manchester for fittings for her new wardrobe. And she knew her aunts had such high hopes for her. That was why she was nervous. The people here were much too sophisticated, while she was just a simple country girl. She was used to conversations about crops and tenants and the weather, while the London ton thrived on gossip, salacious gossipâ€™about each other. And there would be dozens of other hopeful young misses all descending on London for the same purpose. It was considered the place to find a husband. But Sabrina began to relax as the evening progressed. It helped that she had a friend in Ophelia, who was so very popular. But then Ophelia had been born and raised in London. She already knew everyone, was already aware of all the current on-dits, and even helped to spread the latest gossipâ€™even if it was about herself. The London girl was in her element. Not that arriving in time for the first ball of the Season would have made much of a difference, when Ophelia was destined to be the success of the Season, as beautiful as she was. It could all be true, after all. How was she to know? Ophelia had befriended her, was introducing her to all her friends. It would be like betraying her. He was actually her neighbor, or rather, his grandfather was. He really was a recluse who rarely left his estate. And it had certainly been news to them that he had a grandson. Her aunts had actually scoffed when they learned that Ophelia had been affianced to this heretofore unknown heir. It was only Ophelia who was unhappy with the match, well, Ophelia and her many ardent admirers. She had those in abundance. The young men flocked about her, utterly entranced by her beauty, and apparently that had been the case at each affair she had thus far attended. But how could they not be? She was blond and blue eyed. Sabrina, now, could claim none of those appealing attributes. Her hair was a dull brown, not even a lustrous

brown or a rich brown, but utterly dull, and her eyes, which really were her best feature, or so she used to think, were the color of spring lilacs, yet ringed with a darker violet, so they were actually quite startling when first noticed. And to top all that off, her features were rather plain, not ugly by any means, but not what one would call pretty either. Plain did describe them very well. Actually, Sabrina had never been quite so unhappy with her own looksâ€”until she met Ophelia and saw what a real beauty looked like. Like night and day, there was no comparison between the two of them. Which was quite possibly why Sabrina began to relax soon after they arrived at her first ball that night, and completely forget her previous nervousness. And once she did relax, she was able to be herself rather than the stiff, timid little mouse she had been feeling like. Sabrina enjoyed a good laugh as much as anyone, and made an effort to bring laughter to others. She could be outspoken, but she also had a teasing nature. She made them laugh, though. A few of them even asked her to dance again for that very reasonâ€”she was amusing. And at one point in the evening she actually had three young men wanting to dance with her at the same time. Unfortunately, Ophelia happened to notice thatâ€”Three Ophelia was standing across the ballroom with three of her closest friends, well, two friends and one girl who secretly despised her, but was loath to leave the circle of her popularity. Each of the three was pretty in her own way, though not nearly as beautiful as Ophelia. Nor did any of the three outrank Ophelia in title. She was the only lady among them, her father being an earl, their fathers having less prestigious titles. How could anyone dislike her, after all, as eminently popular as she was? And she had known she would be. There had never been any doubt that she would reign supreme this Season and have her pick of every single eligible bachelor in town. She did have that pick. They all adored her. But to what purpose, when her parents had let the Marquis of Birmingdale woo them with his blasted title? She hated old Neville Thackeray for thinking of her. Why did he have to pick her for his grandson, just because her mother had once lived near him and thus he felt he knew her personally? Everyone from Yorkshire had likely heard the story at one time or another, though it was an old scandal and probably forgotten by most.
