## 1: Deere G Tractor Loader Backhoe Service Manual Â» Farm & Construction Manuals

*John Deere E Tractor Loader Backhoe Service Repair Manual John Deere SG, SG Tractor Loader Backhoe Service Repair Manual Reviews There are no reviews yet.*

Do functions move when the control lever is activated? Go to next check. Inspect control valve lift check. Go to repair manual. Do cylinder leakage test, go to group Run engine at approximately rpm. Remove hand from control lever. Does loader control lever remain in the boom float detent position? If it jumps out of detent, check detent spring and detent balls. Does the loader control lever disengage from the bucket rollback detent when the bucket is level. When the bucket is at ground level, bucket must be level and the bucket indicator pointer must be aligned with mark on the boom pivot. When return-to-dig is used with loader boom in full up position, the bucket leveling linkage will move the bucket control valve out of return-to-dig position before bucket is actually level. Adjust switch until it is activated in cam. The loader bucket leveling feature functions during the boom raise cycle only. When bucket is lowered, the operator can manually level the bucket or use the return-to-dig. Put loader bucket in the rollback position with the boom near ground level. Raise the loader and at the same time hold the control lever in the bucket rollback position. Observe bucket and loader control lever as the loader raises. Does loader control lever move into the bucket dump position and the bucket dump function slowly activate? When the loader control lever moves to activate the bucket dump function, does the bucket position remain stationary the remainder of the loader boom raise cycle? Push front light rocker switch to middle position. Are two front lights, two red tail lights and gauge lights ON? Push front light rocker switch in completely. Are four front lights if equipped , two red tail lights and gauge lights ON? Check fuse and bulbs. Push side console rear light rocker switch in. Are rear lights ON? Push right side of turn signal rocker switch down. Are right front and rear amber lights flashing? Does right indicator light on top of steering column flash? Push left side of turn signal rocker switch down. Are left front and rear amber lights flashing? Does left indicator light on top of steering column flash? Check fuses and wiring. Depress and hold left brake pedal, then right brake pedal. Rear brake light must come ON when either pedal is depressed with key switch in ON position. Push bottom of warning light rocker switch in. Are both front and rear amber lights ON? Are both turn signal indicators and light in warning light rocker switch flashing?
