

1: Step By Step Kali Linux and Wireless Hacking Basics Installation Part 2 | WirelesSHack

Hello Friends, Learn white hat hacking in Hindi, Learn Kali Linux Ethical Hacking's Tutorials in Hindi. Please Like & Share Videos Subscribe TechChip.

Kali linux kaam kaise karta hai. Itna samjhne ke baad next tutorials me sikhege ki kali linux ko computer me install kaise karte hai, kali linux ko android phone me install kaise karte hai, Kali linux ko download kaise kare, Kali linux se hacking kaise kare, How to use kali linux in hindi, Busybox kya hai etc. Kali linux is a one type of operating system. Jaise most of computers me windows operating system hai ussi tarah kali linux bhi ek operating system hai. Aapko yeh toh pata hi hoga ki windows ke alag alag versions hote hai jaise ki windows 10, windows 8, windows XP etc. Issi tarah linux ke bhi alag-alag operating system hai jaise ki kali linux, Back Track Linux etc. Ab linux ne 2 operating system ko specialy Security testing ke liye banaya hai. Dono operating systems ka maksad ek hi hota hai ki kisi bhi chiz me security se related kamiya nikale or usse thik kare. Kali linux me kuch in built tools and aapki khud ki coding ki madad se kisi bhi software ya website me kamiya nikal kar usme enter kiya ja sakte hai. Jise hacking kehte hai. For example Agar kisi ne apne hotspot network me open wifi security rakha hai. Toh koi bhi banda apna wifi ON kar ke us open hotspot se join ho jayega or uska data use kar payega. Issi tarah low security website, online accounts, softwares ko aasani se hack kiya ja sakta hai. Par hame yeh samajh nahi aata ki kaise check kare kaha low security hai or usse crack kiya ja sakta hai. Bas issi problem ke solution ke liye kali linux ko banaya gaya hai. Kali linux ko sabse zyada hackers use karte hai. Kyuki agar hackers windows ya kisi or operating system ko use kare. To aap jante honge ki hacking ke liye kaafi saare codes ko istmal kiya jata hai or un codes ko type karna hard hota hai. Kabhi kabhi to hackers ka mind bhi ghoom jata hai. Isi liye hackers kali linux ko istmal me lete hai kyuki isme pre built tools mil jata hai. Jo bahut saara kam to khud hi kar deta hai. Isiliye isko sabse zyada kam me liye jata hai. Isko zyadatar white hat hackers kaam me lete hai. Jo hackers ka kaam aasan bana dete hai. Jise har koi aasani se use kar sakta hai. Isme deep security testing karna mushkil hai. Inshort windows normal users ke liye perfect hai. Jab ki kali linux ka interface kuch aisa hai ki normal users ko samajh nahi aata. Woh confuse ho jate hai ki kya karna hai. Windows paid operating system hai or kali linux totally free operating system hai. Kali linux ki khaas baat yeh hai ki isme koi bhi malware ya virus nahi aa sakta, Kisi bhi tarah ka virus kali linux ko nuksaan nahi pahucha sakta. Dooosri tarah windows me viruses ya malware file aasani se aa jati hai jis wajah se computer hack ho sakta hai. Windows me kisi bhi tarah ka security testing ya hacking tool available nahi hai. Matlab ki aap fully experiment kar sakte hai. Windows hamehsa updated rehta hai jis wajah se windows ko aap kisi bhi purane comuter me nahi chala sakte hai. Jab ki kali linux ko aap kisi bhi old ya new computer me chala sakte hai. Dono hi operating system best hai! Dekhna yeh hai ki aap kis kaam ke liye operating system ko use karte hai. Agar aap ek normal user hai toh aapke liye windows perfect hai. Security ke liye aap usme koi acha sa antivirus software install kar sakte hai Or agar aap hacking me interested hai and security experiments karna chahte hai toh aapke liye kali linux better option hai. Isse koi bhi user use kar sakta hai. But agar aap kali linux ka use kar ke koi galat kaam ya online fraud karte hai toh aapko nuksaan bhugtna pad sakta hai. Kyu ki yeh black hat hacker ki illegal activity list me aa jata hai. So meri advice toh yahi hai ki Agar hacking field me interest hai toh white hat hacker bane ya security expert bane! Dosto, I hope ke aapko kali linux ke bare me jankari mil gayi hogi. Post me kuch samajh na aaya ho ya mind me koi question ho toh aap comment se puch sakta hai. Ya phir jyada kuch jana chahte hai toh aap hame facebook par bhi contact kar sakte hai. Milte hai apni next post mein tab tak Take Care!
