

## 1: Government Engineering College, Trivandrum - Wikipedia

*Model Engineering College was established in by the Institute of Human Resource Development to provide quality engineering education in the industrial centre of Kerala. It was established as a self-financing college with a fair degree of autonomy.*

Home States Kerala Kerala: Colleges end engineering programmes for want of students According to Biju Scaria, placement officer, Mar Athanasius College of Engineering, poor enrollment has resulted in colleges discontinuing courses. Share Via Email Published: Introducing programmes just because it was the latest trend has cost many engineering colleges in the state dear. Around 16 undergraduate and 19 postgraduate programmes were shut down by various engineering and polytechnic colleges in Kerala during According to Biju Scaria, placement officer, Mar Athanasius College of Engineering, poor enrollment has resulted in colleges discontinuing courses. To keep up with the trend, many colleges launch programmes that are said to be in vogue during that particular period of time. However, they do so without doing proper research, he said. For the first few batches, they might get enough number of students. But once it becomes clear that the programmes have no standing in the job market, students give them a miss. And once students stop enrolling for the programmes, colleges find it financially unviable to continue with the courses. They are then forced to close such programmes, he said. Some of the programmes that have been shut down are PG in control systems, signal processing, thermal science and bio-processing. Even popular branches like computer science and electronics and electrical engineering have few takers these days. The main reason pointed out is the increase in the number of colleges. Biju added that sometimes some programmes are shut down after the college decides to just conduct the main course. Every programme has branches. Many universities have decided to do away with the branches and offer only the main programme. So, this too might have led to the shutting down of the programmes, he said. Follow the instructions after that.

## 2: Govt. Engg. College, Trichur

*Engineering scholarships for college students in Kerala - Saintgits. Saintgits offers fabulous engineering scholarships for students in [www.enganchecubano.com](http://www.enganchecubano.com) in touch with the college right away if you are also in need of the one. [www.enganchecubano.com](http://www.enganchecubano.com)*

It provides a platform for students to showcase their talents. Ever since its formation, ISTE Students Chapter has helped its members scale heights of technical excellence through the numerous events it has conducted. The ISTE Student Chapter has successfully organised intra-collegiate tech fests such as Prarambh, Exodus, Semfiesta and Persona along with several talks, workshops, quizzes and business events every year. It was revived in the year . The Student Branch has a library. The student branch won many prizes as well as represented the college in many international avenues, including the best website award in the Asia Pacific region in , represented Kerala in the Asia Pacific Student Congress at New Zealand, won prizes in the student poster and paper contest at the Global Humanitarian Technology conference at Seattle etc. The team of student branch officers consists of chair, vice-chair, treasurer and secretary. The student chapter also trains students in CAD. It has over members in the college. The Chapters activities include conducting workshops, seminars and technical competitions. Innovation Challenge is an annual event hosted by the Chapter to ignite the Innovation passion among the engineering Students of Kerala. Unlike most other technical organisations in the college, Innovation centre is government funded by CERD [18]. The Innovation Centre is open 24 x 7, with supervision. The facility also organises talks and training sessions in technical activities and also acts as a think tank where students meet to discuss their ideas on technical advances. It is also a guidance center where students get advice and help for their projects and tech related activities. The club provides a platform for students with ideas to convert them into business reality. The stated aim of EDC is to foster a student start-up culture in the institution. Club activities include seminars by world-renowned firms such as Blackberry, classes on the basics of the Stock Market, sponsorship activities, talks with prominent start up ventures and trips to events all over India like Hackathons and Entrepreneurship Conferences. The Entrepreneurship Development Cell, started in late , already has 3 start-ups registered under it. The youth in all ages has been in the vanguard of progress and social change. NSS is now the most active organisation in the college. NSS cet is now capable of conducting even more than 25 programmes a year in midst of a busy academic schedule. Also from a bunch of students at the time of formation, the number of NSS volunteers is now more than a hundred. Also NSS cet is now an established one with a website and a special room for its activities. As part of the new requirement of A. RoboCET was established in April . The activities of this club include conducting classes, workshops and exhibitions on robotics. RoboCET has organised various robotics competitions inside and outside the college. This club is renowned for the achievements of its members in different robotics competitions conducted annually in various colleges in South India. They are an active club and air programs at 9 PM occasionally. It was a talk series program that was founded in January during the 75th anniversary celebrations of the college. Eminent personalities from various fields of expertise address the college audience under this program. The objective is to improve the quality of research and student projects from the college. It is known for its organisation and activities. It is a four-day-long event held every year and attracts a crowd of 40, students and young people from across the country, making it one of the largest such fests in Kerala. Dhvani events include speaking, dancing, thespian, quizzing and word games, professional shows nicknamed proshows and workshops on music, fashion, art, and dance. It is a three-day-long event held every year and attracts a crowd of 5, students and young people from across the country, making it one of the largest such fests in kerala. Several departments organise department festivals.

## 3: List of engineering colleges in Kerala - Wikipedia

*The following is a list of Government, Govt. sponsored Self-financing and Private self-financing Engineering Colleges in www.enganchecubano.com of these colleges participate in Kerala Engineering Agricultural Medical Entrance Test.*

Civil Engineering[ edit ] Civil engineers are problem solvers, meeting the challenges of pollution, traffic congestion, drinking water and energy needs, urban redevelopment and community planning. The students are selected from the rank list of Kerala Engineering Entrance Examination conducted by the Office of the Commissioner for Entrance Examinations, government of Kerala. Visiting faculty programmes, invited talks by academicians, training programmes and quiz programmes are organised. A Civil Engineering Association enables the students to showcase their talents. The Department has labs such as: Strength of Materials Lab: The machinery of the lab includes universal testing Machine, impact testing machine, Brinell Hardness Tester kgf, Rockwell cum Brinell Hardness tester The survey lab has a collection of transit theodolites, electronic theodolite, dumpy levels, engineering chains, measuring tapes, plane table, prismatic compass, total station, planimeter, and subtense bar 2m. Tests on cement, fine and course aggregates, fresh and hardened concrete etc. The department has a workshop that caters to the need of the entire college. PLC programmer and Hydraulic power pack are the new additions in this lab. Programmable Robotic Arm will soon join the list. The Mechanical Engineering Lab of seventh semester is conducted in the lab. The Thermal Engineering Laboratory has heat transfer, refrigeration and air conditioning experimental setups. Heat transfer experiments include free convection, forced convection, composite wall, and heat exchanger apparatus. Performance study setup on blowers and multistage compressors are also available. The Thermal engineering lab of seventh semester is conducted in the lab. The Strength of Materials Laboratory has a testing machine, spring testing machine, hardness-testing machine and impact test machine. Torsion meter, torsion pendulum and moment of inertia setups are also included. The Civil Engineering lab of third semester is conducted in the lab. To assist in intra disciplinary studies the institution has an Electrical Lab. A Engines lab and Hydraulics lab has been set up [6] New lab with Lathe facilities is constructed Information Technology[ edit ] The Information Technology Dept has lab facilities that gives students opportunity to work on technologies like cluster computing , artificial intelligence , and multimedia processing. Each laboratory room has networked printers over Ethernet LAN. Although the emphasis is on the use of Linux and open source software, other popular proprietary software platforms are also supported. In addition, the department provides technical support for the functioning of the campus-wide network in the college. The department is one of the nodal centers for the facilitation of the Centralized Allotment Process cap for admission to professional courses. Different servers are set apart for managing various activities. Programming Laboratory has 68 dual boot desktops with internet connectivity. Web Application Laboratory has 72 Windows based desktops with internet connectivity. This lab is also used for conducting online examinations of various government and non government organizations. The Internet Laboratory runs on thin-client machines running under Enterprise Linux as well as desktops running under Windows. The Network Laboratory has eight cisco routers, switches, high speed modems and 36 dual-boot desktop machines. Krishnankutty served as the Head of the Department of Information Technology until he succumbed to Leukemia and was instrumental in improving the facilities available to the department. He is remembered by his students and co-workers alike for his commitment toward the welfare of the students of the college. All the students are allotted from among the top-ranked students of Kerala Engineering Entrance Examination The department is planning to start a new M-Tech course in Advanced Power System and Control in the academic year 2011 The first batch of students have already graduated in and more than 75 percent of the students were placed in national and international companies through the campus placement drive of the Career Guidance and Placement Cell of the college. Students from the department got selection for PG programmes in Indian Institute of Technologies and top ranked foreign universities. Electronics and Communication Engineering[ edit ] The Department of Electronics and Communication Engineering was established in the academic year 2008 The Masters program started in 2011 The annual intake is 18 students. The department has linkages with industry and scientific research organisations. Faculty and

students engage themselves in technical conferences and have presented papers in journals and at conferences. Admission to the course is through entrance test conducted at the college. The entrance test covers theory as well as practice. All the students need to pay the fees only at the Government rate. In , the admissions to the college started at rank number in the Common Entrance Examination. Faculty[ edit ] The faculty members are drawn from the pool of Professors, Assistant Professors and Lecturers under the Department of Technical Education. It is the same pool which provides the faculty to all the nine Government Engineering Colleges in the state. The strong faculty team of the college consists of 7 PhD holders and 28 PG degree holders. Campus[ edit ] The campus, situated centrally in the city of Thiruvananthapuram , is less than a kilometre from Palayam , and is located beside the Government Law College , Trivandrum. A hostel is provided for ladies. The campus area is about 6 acres. Building construction[ edit ] The college is housed in the old seven-storey buildings. The construction of the new eight-storey main block is continuing and construction of the Mechanical Lab Complex is complete. Library[ edit ] The central library of the college houses books and periodicals including international journals and magazines. The process of fully computerizing the library, undertaken as a joint venture by the library and the IT department of the college using only free software has been completed. Students and faculty are provided access to the Internet through a protected WiFi network. Student activities[ edit ] The democratically elected college union spearheads academic, cultural and sports activities of the students in the campus. Aagneya the intercollegiate Techno-cultural festival of the college started in There is a college arts festival and an annual college magazine. Apart from the college union, all the departments have a students association which organizes academic events pertaining to their branch. There is a student chapter of the IEEE in the college, which organizes technical seminars and related activities. The college has a team of students working to promote the use of free software among academia. The college is a member of the Technology Incubation Centre of the government of Kerala , which conducts Entrepreneurship Development Programmes and assists the students in starting their own enterprises. The college has clubs and forums for promoting student interaction which includes a quiz club and a unit of the National Service Scheme NSS. The quiz team has represented the college in and outside the state. The Physical Education Department students can use the facilities of the Department of Physical Education , University of Kerala and their stadium which is a kilometer from the campus. Arrangements have been made to practice athletics , football , volleyball and weight training equipments there. Students can practice basketball and handball at the Central stadium and ball badminton , and shuttle badminton and table tennis at Jimmy George stadium, which is about two kilometers from the campus. The construction of two badminton courts is progressing on the campus. The basketball, football and cricket teams of the college have taken part in numerous competitions across the state and in inter-collegiate events organised by the university and won prizes. Aagneya Aagneya[ edit ] Aagneya [13] is an annual three-day festival held by the students of the college. It began in , when the batch began a festival that would allow people of talents from all over the country to meet and partake in competition. Aagneya consists of cultural activities involving dance, music, art, literary and quizzing activities, as well as performances from professional artists. It celebrated its 10th edition on Alumni[ edit ] The college has a dynamic alumni association which involves actively on development and welfare of the college. First women from Kerala to achieve this. The PTA provides amenities to the students including the canteen and internet connectivity, and training programs to develop the soft skills of the students. The PTA gives scholarships to financially deprived students and awards to proficient students. A recent contribution of the PTA to the college is a new building with two classrooms.
