Backed up by a guarantee of translation accuracy. An excellent service, and one I would use again if the need arose. Their online interface is easy to use. Customer service is good and delivery is usually very fast. I want to recommend this translation company. I was impressed with quality and speed of delivery. We plan on ordering from GTS again soon. I got all information I needed very quickly and the person who gave me those information was very cooperative and professional. I am sure they have the same service for translations. I would love to join a translation agency like GTS. Thank you again for your help! They respond to queries very quickly as with the translation turnaround time. I have had no problems with the quality of the translations. I think the pricing is reasonable. I will continue to use them because of the quality, efficiency and speed of service. Always professional, very prompt on responding to our needs and very reasonably priced. Would highly recommend them! David Grunwald and his team are extremely polite, professional, and they deliver high quality work quickly at a very reasonable price. I highly recommend this company to anyone who needs translation services. We were impressed with the quality of the work. Would highly recommend this company for all of your translation needs. I especially enjoyed the simple and hassle-free online ordering system. GTS is our go-to translation company. The translation was also excellent - also a key factor! I received a professional good quality translation of a one and a half page legal document within 2 hours. The translation was spotless despite some technical vocabulary and the formatting was well respected. I would recommend against alternative options. Having worked with GTS Translation for years, we found them to be a very reliable and cost effective translation agency, Pnina Berkovitz We were impressed at the high quality of the translation, especially at how they handled the medical terminology which was quite technical. We recommend working with GTS and will turn to them for our future translation needs. I really appreciate it. Your flexibility saved me a lot of time. I used the chat to get answers to all my questions quickly and efficiently. I was very pleased with the translations, their accuracy and the manner in which they were presented. All in all an extremely satisfactory experience. They translated a long and complex legal agreement from Hebrew to English, and not only did they translate it properly and quickly-but they left footnotes pointing out some legally unclear provisions to follow up on with my lawyer! I got legal advice for free: GTS Translation service offers a fast, accurate and customer service friendly experience. They are definitely my goto translation service from now on. The quality of the translation was great, and the documents were delivered promptly. Overall very happy, and will be using their services again in the future. Totally professional with online history. Very simple and easy to get done. I use them for more technical projects. They are very efficient and reliable. My translations are consistent and accurate. They always do a great job!

### 2: The Key to Technical Translation : Michael Hann :

*This handbook for German/English/German technical translators at all levels from student to professional covers the root terminologies of the spectrum of scientific and engineering fields.*

Translation Project Management Efficient project management is the first step towards creating really effective technical translations. Managing ordering and version control can stretch many translation companies, creating service and delivery problems. Translation terminology building One of our keys to quality is our ability to build accurate translation terminologies pertinent to your business sector. Therefore an obvious imperative is to qualify existing terms and create and verify new terms. This often means calling in experts from academia as well as your business sector. WorldLingo have the expertise and experience to manage and deliver this vital precursor to any successful technical translation project. Translation Quality WorldLingo delivers quality as a result of thorough planning and observation of defined quality processes. The quality process starts from the moment we start discussing your translation requirement with you and our proposals will always reflect your individual needs, by prescribing a quality process that is built on experience, but is tailored to you. We then add translation and subject expertise to the mix, calling upon our extensive translator bank, building teams that will be dedicated to you. Our quality program extends into how and when we report to you, how we deliver and even how we bill you at the end of the project. Translation Accuracy Our highly skilled professional translators are qualified, bilingual native speakers. They are selected based on their experience and special areas of expertise. Our thorough selection process ensures we deliver a service that meets with your expectations. This enables us to provide you with the highest possible linguistic quality in a current cultural context. Every completed WorldLingo translation is double checked for quality by a proofreader and editor before we deliver the finished document to you. Additionally, we support most commercial authoring and design applications on both PC and Macintosh platforms: And our unique understanding of advanced automated translation technologies puts every client on a fast track towards a near future where technical and day-to-day business translation is immediate and accessible from any desktop. Confidentiality and trust All WorldLingo translators are bound by a commercial confidentiality and corporate nondisclosure agreement. All translations remain confidential. The future of multilingual technical information publishing In time, and with your help, we would like to expand our automated translation solution to encompass most of your language translation needs. The first step on this exiting road is to understand exactly what this might mean to you. If you are involved in the creation or procurement of translated technical documentation and would like to participate in this development program, we will mail you our White Paper. Fast, accurate document translations available worldwide - 24 hours a day, 7 days a week, 52 weeks of the year! Experienced, native-speaking translators for over languages Translation progress reports available, and accessible on-line Translation memory to save you time and money in the future Translation Asset Management solutions to reduce costs and achieve faster turnaround times Order your translation online now You can get an instant quote, submit your document for translation or request more information by using the Online Order form above right.
