Laguardia's Fire Chief by Kathleen Walsh Packard, , available at Book Depository with free delivery worldwide.

Pinterest Danny Cotton giving evidence at the Grenfell Tower inquiry The London fire brigade commissioner, Dany Cotton, has said she would not change anything about the way the brigade responded to the Grenfell Tower disaster, in defensive testimony that angered survivors and the bereaved. Despite weeks of evidence from other firefighters about a lack of breathing apparatus, broken radio communications, a delay in ordering an evacuation and an absence of previous checks on the building, Cotton told the public inquiry into the blaze: They were put in an untenable situation in a building that behaved in a way it should never have done. She told the inquiry it looked like a scene from the film *The Towering Inferno*. Millett suggested the fire was not as unusual as that analogy suggested. He asked Cotton whether she knew about several overseas cladding-related fires that had taken place before Grenfell, and she said she did not. He showed her a slideshow prepared by LFB fire engineers in October , when Cotton was director of safety and assurance. It was titled *Tall Building Facades* and showed photographs of cladding fires. She said she did not know why it had not been distributed to watch managers or seen by her. She said it did not. Cotton said she had never in her year LFB career experienced the kind of widespread compartmentation failure in a high-rise residential block that happened at Grenfell or received training in fire spread through facades. She said she had not read the government operational guidance for fire and rescue authorities about fighting fires in high-rise buildings. She said she had never experienced a fire where fire survival guidance calls were being made to by people inside burning buildings or being evacuated down a single stairwell. Cotton conceded that the brigade knew about the risk of cladding fires nine months before the blaze, but said it was the responsibility of building inspectors, designers and builders to ensure buildings performed to allow firefighters to extinguish fires and rescue people. During the fire Cotton was the monitoring officer, which she said meant she was to provide support, guidance and reassurance to the incident commander. She said she did not take command herself because she was satisfied with the firefighting plan. She could not remember the last time she had received training in operational incident command. Cotton said she had felt she was not fully doing her job as monitoring officer, particularly when, as the night progressed, she found herself comforting firefighters. In a statement she gave to a police investigation into the fire, Cotton said: It would be no good for me to fall apart.

He urged New Yorkers to support a new airport within their city. La Guardia went as far as to offer police escorts to airport limousines in an attempt to get American Airlines to continue operating the trial program. Sign at runway 13 warns pilots to check compass During the Floyd Bennett experiment, La Guardia and American executives began an alternative plan to build a new airport in Queens , where it could take advantage of the new Queensâ€™ Midtown Tunnel to Manhattan. The existing North Beach Airport was an obvious location, but much too small for the sort of airport that was being planned. With backing and assistance from the Works Progress Administration , construction began in The framework below the airport still causes magnetic interference on the compasses of outgoing aircraft: The club took over a large office space that had previously been reserved for the mayor, but he offered it for lease following criticism from the press, and American vice president Red Mosier immediately accepted the offer. Not everyone was as enthusiastic as La Guardia about the project; some[who? But the public was fascinated by the very idea of air travel, and thousands traveled to the airport, paid the dime fee, and watched the airliners take off and land. The airport was soon a financial success. A smaller airport in nearby Jackson Heights , Holmes Airport , was unable to prevent the expansion of the larger airport and closed in Newark Airport began renovations, but could not keep up with the new Queens airport, which TIME called "the most pretentious land and seaplane base in the world". During World War II the airport was used to train aviation technicians and as a logistics field. Transatlantic landplane airline flights started in late ; some continued after Idlewild now John F. Kennedy International opened in July , but the last ones shifted to Idlewild in April Later development[edit] LaGuardia Airport as seen from a taxiway in Note both the new and old control towers. Although LaGuardia was a large airport for the era in which it was built, it soon became too small. Starting in general aviation aircraft were charged heavy fees to operate from LaGuardia during peak hours, driving many GA operators to airports such as Teterboro Airport in Teterboro, New Jersey. The increase in traffic at LaGuardia and safety concerns prompted the closure of nearby Flushing Airport in In Western Airlines hoped to fly s nonstop to Salt Lake City and unsuccessfully challenged the rule in federal court. By , the airport routinely experienced overcrowding delays, many more than an hour long. That year, Congress passed legislation to revoke the federal traffic limits on LaGuardia by The tower began operations on October 9, Delta and US Airways dropped the slot swap deal in early July and both airlines filed a court appeal. The investment was the largest single expansion by any carrier at LaGuardia in decades, with flights increasing by more than 60 percent, and destinations by more than 75 percent. By summer , Delta increased operations to daily flights between LaGuardia and more than 60 cities, more than any other airline at LaGuardia. A foot connector bridge has been built, linking the two terminals. US Airways built a new club, placed next door to their old lounge, which has since become an American Airlines Admirals Club. The project would create a unified, modern, and efficient plan for the airport, currently an amalgam of decades of additions and modifications. The project, expected to cost 2. However, in January , Governor Andrew Cuomo announced a plan for the state to oversee construction of the long-stalled new terminal project instead of the proposed public-private partnership. Airport officials and planners had concluded that the airport essentially had to be torn down and rebuilt. Some 2 miles 3. A proposed high-speed ferry, if introduced, will service the Marine Air Terminal, a national historic landmark, which will remain intact. An onsite tram has also been proposed to move passengers more quickly within the central terminal. By locating the terminals closer to the Grand Central Parkway, additional space for aircraft taxiways and hold areas will be created, reducing ground delays. The runways themselves will not be reconfigured. This is as both the airline and Port Authority have agreed to work together in building the single terminal. The new airport will feature an island gate system, with passengers connecting between the terminal building and the gates via bridges that will be high enough for aircraft to taxi under. By that time, the first new

gates were set to open in American consolidated in Terminal B. Delta Shuttle operates from Terminal C. Signage throughout the terminals was designed by Paul Mijksenaar. When a Clipper landed in Long Island Sound, it taxied to a dock where passengers could disembark into the terminal. During World War II new four-engine land planes were developed, and flying boats stopped carrying scheduled passengers out of New York after The last Pan American flight left the terminal in February , bound for Bermuda. During the s, many WPA artists were thought to be in collusion with Communists. Several works of art that had been created for post offices and other public facilities were therefore destroyed. In the late s, Geoffrey Arend, an aviation historian and author of *Great Airports: LaGuardia*, mounted a campaign to restore the mural to its original splendor. In , the MAT was designated as a historic landmark. It is six blocks long, consisting of a four-story central section, two three-story wings and four concourses A, B, C, and D with 40 aircraft gates. The original tenant was intended to be Eastern Air Lines , but when Eastern was forcibly bankrupt in an effort by parent Texas Air Corporation to merge its assets with that of sister airline Continental , Continental assumed the leases. Gates on the east side of the lower level do not have jet bridges and are used to transport passengers via buses to and from Delta Connection flights parked at remote stands on the east side of the airport. Frontier and Spirit also use Terminal C for their departures, however, their arriving flights use Terminal D. Terminal D also houses the arriving flights for Frontier and Spirit. General Aviation Terminal and services[edit] Although there is no separate terminal building for general aviation aircraft a pseudo-terminal is operated within the Marine Air Terminal Terminal A which is currently run by Sheltair Aviation [53] providing full FBO services to private and charter aircraft owners-pilots including LL and Jet A fueling, computerized weather and flight planning as well as pilot and passenger lounges. To access the General Aviation terminal an on-airport tenant must possess a SIDA Security Identification Display Area badge for unescorted access, transient aircraft owners-pilots and passengers must be escorted at all times into and out of the GA Terminal and to the ramp and hangar areas by the FBO staff. Following the events of the terrorist attacks on September 11, the Federal Aviation Administration changed the rules for the landing and departure of general aviation aircraft at LaGuardia. Reservations for unscheduled IFR flights are not required all day on Saturdays. Aircraft without a reservation will be redirected to either Teterboro Airport or Linden Airport. Airlines and destinations[edit].

The Commissioner is appointed by the Mayor, and serves at the Mayors pleasure, the Commissioner is responsible for the day-to-day operation of the department as well as the appointment of deputies and subordinate officers. Commissioners are civilian administrators, and they and their deputies are civilians under an oath of office. There is a position of Chief of Department, the holder of which serves as the senior sworn uniformed member of the force. The current Police Commissioner is James P. Kelly who served for 13 years in two separate appointments, under Mayors David Dinkins and Michael Bloomberg, respectively. The superintendent title was changed to Chief of Police in 1990, Devery was the Police Departments last superintendent, and first chief. Theodore Roosevelt

â€” Theodore Roosevelt Jr. As a leader of the Republican Party during this time, he became a force for the Progressive Era in the United States in the early 20th century. Born a sickly child with debilitating asthma, Roosevelt successfully overcame his health problems by embracing a strenuous lifestyle and he integrated his exuberant personality, vast range of interests, and world-famous achievements into a cowboy persona defined by robust masculinity. Home-schooled, he began a lifelong naturalist avocation before attending Harvard College and his first of many books, *The Naval War of 1812*, established his reputation as both a learned historian and as a popular writer. Upon entering politics, he became the leader of the faction of Republicans in New Yorks state legislature. Returning a war hero, he was elected governor of New York in 1892, the state party leadership distrusted him, so they took the lead in moving him to the prestigious but powerless role of vice presidential candidate as McKinleys running mate in the election of 1896. Roosevelt campaigned vigorously across the country, helping McKinleys re-election in a victory based on a platform of peace, prosperity. Following the assassination of President McKinley in September 1901, Roosevelt succeeded to the office at age 42, making conservation a top priority, he established a myriad of new national parks, forests, and monuments intended to preserve the nations natural resources. In foreign policy, he focused on Central America, where he began construction of the Panama Canal and he greatly expanded the United States Navy and sent the Great White Fleet on a world tour to project the United States naval power around the globe. His successful efforts to end the Russo-Japanese War won him the Nobel Peace Prize, elected in to a full term, Roosevelt continued to promote progressive policies, but many of his efforts and much of his legislative agenda were eventually blocked in Congress. Roosevelt successfully groomed his close friend, William Howard Taft, to succeed him in the presidency, after leaving office, Roosevelt went on safari in Africa and toured Europe. Returning to the United States, he became frustrated with Tafts approach, failing to win the Republican presidential nomination in 1912, Roosevelt founded his own party, the Progressive, so-called Bull Moose Party, and called for wide-ranging progressive reforms. The split among Republicans enabled the Democrats to win both the White House and a majority in the Congress in 1913, Republicans aligned with Taft nationally would control the Republican Party for decades. Frustrated at home, Roosevelt led an expedition to the Amazon basin. During World War I, he opposed President Woodrow Wilson for keeping the country out of the war, and offered his military services, although planning to run again for president in 1920, Roosevelt suffered deteriorating health and died in early 1919. Roosevelt has consistently ranked by scholars as one of the greatest American presidents. Historians admire Roosevelt for rooting out corruption in his administration, but are critical of his libel lawsuits against the World and his face was carved into Mount Rushmore, alongside those of George Washington, Thomas Jefferson, and Abraham Lincoln. Raymond Kelly

â€” Raymond Walter Ray Kelly was the longest serving Commissioner in the history of the New York City Police Department and the first person to hold the post for two non-consecutive tenures. According to its website, Kellyâ€” a lifelong New Yorkerâ€”had spent 47 years in the NYPD, serving in 25 different commands and as Police Commissioner from 1967 to 1977 and again from 1983 until 1990. After his handling of the World Trade Center bombing in 1993, after Kelly turned down the position, Louis Freeh was appointed. He also holds a J. Kelly,

a milkman, and Elizabeth Kelly, a fitness buff since his teens, Kelly still regularly lifts weights and does aerobic exercises. He is also a dresser, favoring custom-made shirts that he takes to Geneva. He also favors silk ties by Charvet, a tie is the only true way men can make some sort of statement, Kelly has stated, citing Barack Obama as another fan of the high-end French label. I can tell when someones wearing Charvet from a distance " even dark colors stand out, Kelly met his future wife Veronica on the beach at Island Park, New York where his family had a summer residence. As a First Lieutenant in Vietnam, Kelly led Marines in battle for most of his 12 months in country, upon returning to the U. Raymond Kelly joined the Reserves and retired after 30 years of service with the rank of Colonel from the Marine Corps Reserves. This meteoric ascent combined with relative inexperience as a cop has prompted some criticisms from colleagues 4. Bratton instead was offered a role to the British government. Bratton returned to Boston in to start a career in the Boston Police Department. He was promoted to sergeant in July and to lieutenant in March and he was dismissed as executive superintendent after he told a journalist that his goal was to be the Police Commissioner. He was reassigned to the position of Inspector of Bureaus, a sinecure which was responsible for liaison with minority and he was later brought back into police headquarters to handle labor relations and related issues. In , Bratton was appointed the 38th Commissioner of the New York City Police Department by Mayor Rudy Giuliani and he cooperated with Giuliani in putting the controversial broken windows theory into practice. He introduced the CompStat system of tracking crimes in New York City and these offenses were generally considered minor. Under Brattons tenure, crime within the city dropped for six consecutive years, on June 19,, the L. Police Commission reappointed Bratton to a second term, the first reappointment of an LAPD chief in almost twenty years. Bratton has been criticized for his travel, in In March , Councilman Herb Wesson proposed an amendment to the City Charter, on 12 August , Bratton said he was in talks with the British government to become an adviser on controlling the violence that had affected London the prior week. He said he received a call from U. From to he was a member of the New York State Transit Commission, in he became prominent in the development of commercial aviation as a partner in Pan American Airways, later becoming President of Colonial Airlines. When LaGuardia won, ORyan accepted appointment as his Police Commissioner, ORyan served for most of before resigning over disagreement with LaGuardias non-intervention stance on labor-management disputes. In ORyan led a group in Japan and occupied China. He received the following decorations, British Order of St. Frank Libutti " Libuttis military career included time spent in Vietnam, Japan, Korea, Kenya and Somalia among assignments within the United States during which he oversaw more than 80, Marines. He was assigned to 1st Battalion, 9th Marines as a commander in Vietnam. The following month, he was reassigned to the Office of the Chairman of the Joint Chiefs of Staff, while serving in this capacity, he was selected in December for promotion to brigadier general and was promoted to that grade in March Libutti retired from the Corps in , in his role, Libutti was responsible for counterterrorism training, prevention and investigations and served as a liaison to state and federal agencies. Libutti was nominated by President George W. Bush in to serve as the Undersecretary for information analysis and he was the first person nominated for the new position in the then two-month-old Homeland Security Department. This article incorporates public domain material from websites or documents of the United States Marine Corps 7. In , the police were merged into the NYPD. In September he became police commissioner, with more than 31 years of experience within the Department he has proven himself to be a respected leader. A true public servant, Chief James P. Acton " He and Commissioner John G. Bergen took control of the police force during the New York Draft Riots with Action directing police and military forced against rioters in Manhattan. A noted political and social activist, he held several important government positions throughout his career including superintendent of the New York Assay Office. Treasurer and, most notably, the founder and president of the Bank of New Amsterdam and it was also largely due to his efforts that the modern New York City Fire Department was established replacing the outdated colonial-era volunteer firefighter system. He was born in New York City in , near Washington Square Park, although from largely a poor background, he was educated in public schools and found employment as a deputy clerk under Clerk Bradford. He eventually held a position as a Deputy Register for nearly six years and he was appointed police commissioner of the old Metropolitan police district by Governor Edwin D. Morgan in May along with John G. Bergen and Superintendent John

Kennedy. Acton held this post until the outbreak of the American Civil War a year later, while Bergen oversaw actions in Staten Island and Brooklyn, Acton took charge of police forces in Manhattan. His organizational skills, working in coordination with the military, were responsible in bringing an end to the rioting. He received and answered over 4, telegrams and directed police and military forces, army officers keeping in contact with the commissioner. While assuming the position of the Superintendents office, Acton reportedly did not sleep once during the period or did he leave police headquarters with exception to brief inspection tours. The strain on his health during the riots forced him to take a leave of absence from the force for the five years. Assay Office in New York and he spent four years at the U. Treasury before resigning his position to establish the Bank of New Amsterdam. He held numerous government positions during his political career as well as becoming a noted social activist. Action was a member of the Society for the Prevention of Cruelty to Animals and Children as well as a member of the Geographical. Despite years of opposition, Acton was instrumental in the founding of the modern New York City Fire Department which replaced the old volunteer firefighter service. A strong supporter of President Abraham Lincoln and abolitionist movement, Acton was also one of the most important political activists in the city during the post-Civil War era. He was an member of the Union League Club since Blake and Fred A. Conkling, brother of U. S, in , he was nominated to run as the Republican candidate for the Mayor of New York but refused to accept due to his own business dealings at the time 9. Devery and Frank J. In , at age 24, he was hired as a patrolman, on September 16,, he was made a roundsman, and on May 28,, he was promoted to a sergeant. On December 30,, after 13 years on the force, as a police captain he once told his men, They tell me theres a lot of grafting going on in this precinct. They tell me that you fellows are the fiercest ever on graft, if theres any grafting to be done, Ill do it. On February 5,, he was arrested and charged with bribery, after conviction, he was dismissed from the force. He appealed his conviction in the New York Court of Appeals and it was overturned and he was reinstated to the force and promoted to inspector on January 7,, and Deputy Chief on February 14, He was then appointed Chief of Police on June 30,, in , Theodore Roosevelt and Republican state legislators established a committee, headed by Robert Mazet, to investigate Tammany Hall corruption under the leadership of Richard Croker. The first Commissioner Michael C. Later, with Frank J. Farrell, he bought the Baltimore, Maryland American League baseball team and moved it to New York, the team almost won the American League pennant in , but otherwise had poor records during the Farrell-Devery ownership era. 4: LaGuardia Airport - Wikipedia

The Port Authority of New York and New Jersey Police Department (PAPD) provides law enforcement and fire-rescue services to the airport, its LaGuardia Airport Command is located in Building Emergency medical services are provided by North Shore University Hospital under contract to the Port Authority.

His father, Achille La Guardia, was a lapsed Catholic from Cerignola , Italy, and his mother, Irene Coen, was a Jewish woman from Trieste , then part of the Austro-Hungarian Empire ; his maternal grandmother Fiorina Luzzatto Coen was a Luzzatto , a member of the prestigious Italian-Jewish family of scholars, kabbalists, and poets and had among her ancestors the famous rabbi Samuel David Luzzatto. His middle name "Enrico" was anglicized to "Henry" when he was a child. He moved to Arizona with his family, where his father had a bandmaster position at Fort Whipple in the U. La Guardia attended public schools and high school in Prescott, Arizona. La Guardia joined the State Department and served in U. From to , he worked as an interpreter for the U. Bureau of Immigration at the Ellis Island immigration station. His first wife was Thea Almerigotti, an Istrian immigrant, whom he married on March 8, In June they had a daughter, Fioretta Thea, who died May 9, , of spinal meningitis. His first wife died of tuberculosis on November 29, , at the age of House of Representatives , where he had a reputation as a fiery and devoted reformer. He resigned his seat in Congress on December 31, He served as senior advisor to President Herbert Hoover from 1929 to 1933. His Democratic opponent was Robert L. Moran , an alderman from the Bronx who had succeeded to the Board presidency in 1925 when Alfred E. Smith , who had been elected board president in 1923, became governor. He wanted a change for the immigrants, especially with the immigrant medical examinations that took place on Ellis Island. His passion for justice among immigrants, and his ability to speak Italian, Yiddish, and Croatian helped him in his endeavor for justice amongst immigrant factory workers and set him on his path in public service. It circumvented Supreme Court limitations on the activities of labor unions, especially as those limitations were imposed between the enactment of the Clayton Antitrust Act in 1914 and the end of the 1920s. Based on the theory that the lower courts are creations not of the Constitution but of Congress, and that Congress therefore has wide power in defining and restricting their jurisdiction, the act forbids issuance of injunctions to sustain anti-union contracts of employment, to prevent ceasing or refusing to perform any work or remain in any relation of employment, or to restrain acts generally constituting component parts of strikes, boycotts, and picketing. It also said courts could no longer enforce yellow-dog contracts , which are labor contracts prohibiting a worker from joining a union. Thus he supported the Irish independence movement and the anti-czarist Russian Revolution of 1917, but did not approve of Vladimir Lenin. Unlike most progressive colleagues, such as Norris, La Guardia consistently backed internationalism , speaking in favor of the League of Nations and the Inter-Parliamentary Union as well as peace and disarmament conferences. In domestic policies he tended toward socialism and wanted to nationalize and regulate; however he was never close to the Socialist Party and never bothered to read Karl Marx. He fought for progressive income taxes , greater government oversight of Wall Street , and national employment insurance for workers idled by the Great Depression. This was breaking a taboo, given the fact that both parties "avoided taking a stand on prohibition issues" at the time. First he had to win the nomination of both the Republican party and also the "Fusion" group of independents. He was not the first choice of either, for they distrusted Italians. On the other hand, La Guardia had enormous determination, high visibility, the support of reformer Samuel Seabury and the ability to ruin the prospects of any rival by a divisive primary contest. He secured the nominations and expected an easy win against hapless incumbent Mayor John P. However, at the last minute Joseph V. McKee entered the race as the nominee of the new "Recovery party". Flynn and apparently was opposed by President Franklin Roosevelt. La Guardia made corruption his main issue. The Italians had been loyal to Tammany; their switch proved decisive. Roosevelt La Guardia came to office in January with five main goals: La Guardia then collaborated closely with Robert Moses , with support from the governor, Democrat Herbert Lehman , to upgrade the decaying infrastructure. The city was favored by the New Deal in terms of funding for public works projects. He also ran as the nominee of the American Labor Party , a union-dominated anti- Tammany left wing group that supported

Franklin D. Roosevelt for president beginning in 1936. He was a Republican Episcopalian who had grown up in Arizona and had a Trieste Jewish mother [5] and a lapsed Catholic father. He spoke several languages; when working at Ellis Island, he was certified as an interpreter for Italian, German, Yiddish, and Croatian. When Henry Frank, a Jewish opponent, accused him of anti-Semitism, La Guardia rejected the suggestion that he publicly disclose that his mother was Jewish as "self-serving". Instead, La Guardia dictated an open letter in Yiddish that was also printed in Yiddish. In 1935, La Guardia appeared at The Bronx Terminal Market to institute a citywide ban on the sale, display, and possession of artichokes, whose prices were inflated by mobs. When prices went down, the ban was lifted. Dewey, a future Republican presidential candidate, singled out Lucky Luciano for prosecution. The case was made into the movie *Marked Woman*, starring Bette Davis. La Guardia proved successful in shutting down the burlesque theaters, whose shows offended his puritanical sensibilities. He is given credit for many massive public works programs administered by his powerful Parks Commissioner Robert Moses, which employed thousands of voters. He and Moses built highways, bridges and tunnels, transforming the physical landscape of New York City. Germany[edit] He was an outspoken and early critic of Adolf Hitler and the Nazi regime. She and Herman Gluck were deported to Mauthausen concentration camp in Austria, where he died, as Gemma learned from reading a newspaper account a year after her own release. Gemma and her family did not speak German, and had no identity papers, money, or means of documenting where they had been. Gemma finally managed to get word to the Americans who contacted La Guardia, who had no idea where they were. She returned to New York in May, where she was reunited with her brother only four months before he died. As he had made no provision for her, she lived in very reduced circumstances, in a public housing project in Queens, New York, until her death in 1945. The government knew that such air raids were impossible, but the goal was to psychologically mobilize many thousands of middle class volunteers to make them feel part of the war effort. On top of this, he still performed other gestures, such as arranging police protection with his personal assurances for local artists Joe Simon and Jack Kirby, when they were threatened by Nazi supporters for their new patriotic comic book superhero, Captain America. New York was not a center of heavy industry and did not see a wartime boom, as defense plants were built elsewhere. According to Thomas Kessner, trends since his tenure mean that "people would be afraid of allowing anybody to take that kind of power". He was also the subject of the hit Broadway musical *Fiorello!*
