*In the early s writer Denny O'Neil and revolutionary artist Neal Adams enjoyed one of the greatest runs in Batman's history, bringing him firmly into the modern age and introducing the character of Ra's al Ghul, who would become an essential part of the Batman legend.*

He arrives in Gotham to rid it of crime and corruption by destroying the entire city. Ryan Scherzer- A scientist kidnapped by the League of Assassins to help in their plot. Plot Edit The film starts in a flashback to five years before the first film in an area surrounding the Himalayas, and a younger Bruce Wayne is shown at a bar, where he spots a beautiful woman from across the bar. He buys her a drink, but she rejects it. He is surprised, and approaches her anyway. He asks for her name, but she tells him that he should stay away from her. Amused, he tells her that many women would kill to be in her position, but she asks him if he has ever met a woman who has killed before. Believing that she is joking, her sarcastically asks her if she has. After a while of playful bantering between the two, she tells him that her name is Talia, and then leaves the bar. He stares at her as she leaves, clearly intrigued by her. Bruce follows Talia to her apartment, and watches her get undressed. He sees several scars on her back, and wonders what kind of things she has been through. She then tells him he can come out, implying that she knew he was following her. He asks how long she knew, and she tells him for the entire time, but that she wanted him to follow her. She kisses him, and then the two make love. The next morning, he wakes up and she is gone. He goes to find her, and follows her once again. He follows her to some type of chamber, where he sees her watching men train in advanced martial arts, a form that is unfamiliar to Bruce. The film then changes to present day, in Gotham. At the police headquarters, the police men and women are celebrating that Jim Gordon has been promoted to police commissioner. However, Gordon is soon alerted that there is a hostage situation across town, and he and a few police squads rush over to the area. The police arrive, but the thugs do not let up with the hostages. One of the thugs is about to shoot one of the hostages, but the lights soon go out. After a brief period of confusion and paranoia, Batman appears and beats all of the thugs, except for one who escapes with a hostage in tow. Batman goes after him, following him to the roof. Before he can do anything, however, both the thug and the hostage are shot by someone behind Batman. He tries to go after him, but the shooter evades him and escapes. Gordon arrives and asks Batman who shot them, and Batman is clearly disturbed by what he saw. Bruce tells Alfred about the shooter, and how he could have sworn that it was Harvey. That night, a man is walking in a dark alley. After a little while, the man is shown to be Harvey Dent. Dent walks up to a large, heavily built man, and tells him that he needs to speak with his boss. The woman walks out of the shadows, and is shown to be Talia. She tells Harvey that her name is Talia al Ghul, and that she admires his work. He asks her how she found him, and she tells him that she has many resources. Harvey asks Talia what she wants with him, and she tells him that she can give him a chance to get revenge on Gotham for taking away his soul, and asks is he is interested. After a brief silence, he flips his coin and then he tells her yes. Janet Van Dorn is shown giving a speech about how the Batman must be tried for the crimes he has committed, as she blames him for the death of the hostage from the other night. Many spectators jeer at her and throw things, but she continues her speech anyway. From afar, a young man named Dick Grayson is watching the speech, when he sees three thugs assaulting a woman. Dick gets the thugs off of the woman and beats all three of them up. One of them begins mocking Dick for his past days as a circus performer, so Dick beats him up even more severely, before finally backing off. Dick then goes back to his tiny apartment, and is shown looking at a picture of his late parents. At Wayne Enterprises, Bruce approaches Lucius and asks him if he would be able to find any evidence of Harvey surviving the explosion by running any sort of tests on the area. Lucius tells Bruce that it would be next to impossible, and asks him why he thinks Harvey is alive. Bruce tells him about the shooter from the other night, and how he could have sworn it was Harvey. Bruce puts his head down and simply walks away. Later, Bruce and Silver attend a fundraiser together. He tells her that everything is alright, but she knows he is lying. After a little while, gunshots are fired and masked thugs bombard the party. The thugs grab Dr. Ryan Scherzer, a scientist who was attending the party, and leave with him. Bruce subtly sneaks out to go after the thugs. As the thugs

drive away, Bruce gets into his Batman suit from his limousine, and then goes after the thugs. After an intense car chase, the batmobile is hit by a large van. After fighting for a while, he confirms that Two-Face is indeed Harvey Dent. Batman gets the upper hand in the fight, but is obviously hesitant about hurting his old friend, and is soon bombarded by some more thugs. After a while, Batman realizes that the thugs are not just simple street thugs, but rather highly trained professionals. Batman is able to be equally matched with them for a while, but their strength in numbers prove to be a big advantage. From afar, Dick sees the brawl, and soon notices Two-Face. He gets a gun from his apartment and goes for him. He tries shooting him, but misses, so Two-Face shoots at him. Dick is able to evade the bullets, and then continues to chase him. The mercenaries hold off Batman, who sees Dick trying to kill Two-Face. Batman goes after him and stops him from going after him, while Two-Face and the mercenaries escape. Dick gets angry at Batman for stopping him, telling him that Two-Face killed his parents. Batman tells the young man that Two-Face is working with professionals, and they would have killed him. Alfred tells her that he is in the cave, so Silver goes down to see him. When she gets down there, he is going through web files on his computer about areas in the Himalayas and different attacks. She asks what this is about, and Bruce tells her that the thugs from the party were no ordinary street thugs, but rather trained professionals. She asks him what he thinks they want with Dr. Scherzer, but he has no idea. She can see that there is something else that he is not telling her, but he denies it. Scherzer is then shown being dragged by the thugs into a dark hideout. They tie him to a chair, and Talia walks out from the shadows. She tells him that she was very impressed by his work for Kord Industries, where he designed a device that could harness radiation from the sun and emit it onto land, thus immediately killing anyone in its path. Talia then asks him to duplicate the device for them. He refuses, and then Talia nods at Anton Vega, one of the mercenaries, and he begins savagely beating Scherzer. Talia tells Vega to continue torturing him until he agrees to meet their demands, and then leaves the room. Bruce apologizes, and then stares out his window with a worried expression on his face, showing that he all but knows that the League is in Gotham. Later, Gordon waits on the roof of police headquarters by the bat-signal, where he is eventually met by Batman. Batman tells Gordon that Harvey Dent is alive, and is working with the people who kidnapped Dr. Gordon asks Batman what kind of people they are dealing with here, and Batman tells him that they are a group of highly trained and dangerous mercenaries known as the League of Assassins. Talia tells him to be patient, and that everyone has a breaking point. Talia begins taking off his pants, and then holds a knife to his groin, and tells him to build the device or she will remove his body parts one by one. After he cries out in pain, he finally agrees to build them the device. Talia and the League turned against Bruce, so he ran away, and had to sneak into a neighboring country in order to hide from them, but was caught by authorities explaining why he was in a prison at the beginning of the first film. Silver then asks if the League is in Gotham now, and Bruce tells her yes. Next, Two-Face is shown with a bunch of members of the League as they break into Kord Industries to get equipment for Scherzer to duplicate his machine. They kill several guards on their way, and Gordon is shown being told by Bullock about the robbery. The police rush over to building, and surround the building with SWAT. Gordon orders that they surrender immediately. On the inside, Vega is able to retrieve the microchip that is critical in building the device, and Two-Face sets off explosives that they had previously put beneath the ground to get the police out of their way. The explosives render many officers critically injured, some even killed, and pretty much destroy all of their vehicles, so the League is able to get away successfully. Dick watches the news coverage of the incident, and leaves on his motorcycle to go after Two-Face. Two-Face drops more explosives onto the road, and activate them as the batmobile drives over them, destroying the batmobile and injuring Batman. Dick arrives on his motorcycle and sees that Batman is in trouble, so he decides to help him instead of going after Two-Face. After getting him out of the batmobile just before it completely explodes, Dick takes him to his apartment, where he stitches him up, and also sees that he is Bruce Wayne. Talia then goes into a dark room and tells someone that in no time, the device will be ready.

The screenplay was written by James Vanderbilt, with the score being provided by David Julyan. Before the performance begins, a gangster named Tony Zucco arrives to obtain protection money from the ringmaster Haley. Haley is unable to pay up, however, so Zucco saws through a trapeze rope. During the act, the rope snaps and sends the Graysons plummeting to their deaths; Dick, who has not performing at that moment, is the only survivor. Bruce learns from Commissioner James Gordon that he is worried for Dick, as he is now a material witness having witnessed Zucco. Bruce takes pity on the boy, as he knows what he is going through, and decides to adopt him himself. Meanwhile, Gordon learns about a number of deaths in the criminal underworld and realises that a number of crime bosses have been murdered. Enter Black Mask; a new crime lord who is planning to take control of the entire city by murdering his rivals. Only the bosses who remain loyal to him, such as Zucco, are allowed to live. Gordon also makes a connection between all of the killings; burn marks were found on all of the bodies. It is revealed that this is because they were killed by hired mercenary Firefly. Bruce then decides to train Dick to become his partner. At the same time, Batman begins his own investigation into the Firefly killings, and realises that his next target is Sal Valestra. However, Batman pursues him and they fight, but Firefly ultimately gets away. Unknown to him, Batman has retrieved a DNA sample. Batman and Gordon analyze the sample and learn that Firefly was once a pyrotechnics expert who fell in love with a singer named Cassidy and became the pyrotechnic coordinator for her American tour. However, one fateful night he botched the job in the middle of a performance, causing Cassidy to catch fire. Lynns tried to save her, resulting in his own face being badly scared. However, his efforts were not enough and Cassidy died. Lynns then faked his own death, apparently committing suicide by setting his house on fire, and then created the mantle of Firefly and became an arsonist for hire and assassin. At the same time, Batman and Gordon learn about a large drugs shipment which Black Mask is overseeing and intercept it. A firefight breaks out between the police and the mobsters with Batman in the middle, during which the ship catches fire. Batman and Gordon manage to jump onto the ship, where Gordon confronts Zucco. Held at gunpoint, Zucco feigns surrender but then tries to pull his own gun on Gordon, forcing him to shoot Zucco, and the gangster falls overboard. Batman, meanwhile, encounters Firefly and throws a batarang at his jetpack, causing him to smack into a wall and knock himself out. Batman and Gordon jump from the ship as it sinks. Elsewhere, Firefly resurfaces and slinks away. Firefly returns to Black Mask, who is enraged by what happened to his shipment, and declares that he wants revenge on those responsible. Firefly begins to stalk Gordon, eventually targeting Barbara. On the night of the fall formal, Dick and Barbara dance together and then quietly slip away. Outside, the two share a kiss before he offers to welcome her home. Suddenly, Firefly swoops down and snatches her. Black Mask leaves a message for Gordon, informing him that he will meet with him, alone, at a burnt out building. Dick returns to Bruce and informs him of the situation; Bruce tells him that it is time to complete his training, and Dick dons his uniform for the first time, becoming Robin. Batman and Robin discreetly follow Gordon to the meeting place, where Black Mask is waiting with Barbara. However, they are spotted by Firefly, who attacks them. A fight breaks down and a showdown ensues. While Firefly battles Batman, Robin rescues Barbara, who recognizes and kisses him. Robin then rejoins Batman as they fight Firefly, all three falling through the roof. However, Firefly gains the upper hand and knocks a wall down on top of Batman and sending Robin crashing through another. In a panic, he tumbles threw a wall and falls to his death. Gordon is shown activating the Bat Signal, and both Batman and Robin arrive to meet with him. Gordon informs them of a new criminal who leaves uses a type of gas that causes hallucinations. The duo then dive into the night to continue their mission to protect the innocent.

### 5: The Untold Legend of the Batman - Wikipedia

*Welcome to episode 27 of Legends of the Batman, the show covering everything Batman "from the beginning! The show's premise is a simple one. Each episode, we cover a month (or so) of Batman, be it comic books, television, movies, whatever, starting with his first appearance in*

Synopsis[ edit ] Issue 1: In The Beginning[ edit ] Batman opens a package to find the shredded remains of a bat costume once worn by his father. He investigates to find the costume missing from its display case in the Batcave, with a threatening note left in its place: Batman reminisces about the time when his father, Dr. Thomas Wayne, wore the costume to a charity costume party and was taken hostage by a group of thugs looking for a doctor. He was taken to see their boss, bank robber Lew Moxon, who had been shot and needed the doctor to remove the bullet. Wayne attacked the thugs and defeated them. He turned them over to the police, including then-Lieutenant James Gordon. Wayne testified against Moxon, who was convicted. Years later he was released and threatened to have his revenge against Wayne. Several weeks later, Dr. Wayne and his wife Martha were shot dead in front of their son Bruce Batman by an apparent mugger named Joe Chill. Unbeknownst to him, but known to his butler, Alfred, Mrs. He studied and trained hard, and followed the career of a police detective named Harvey Harris. Bruce created a costume that of the original Robin to hide his identity and set out to meet Harris. Bruce happened upon a criminal waiting to attack Harris, and managed to thwart the would-be attacker. To repay him, Harris taught Bruce everything about the art of detecting, and gave him the name "Robin". Bruce continued training and went on to college to study criminology. A lesson learned in a law class "that the law and justice are not one and the same" dissuaded Bruce from becoming a police officer as he had intended, feeling that he would be too hampered by the law. While trying to decide what kind of symbol to become in order to strike terror into the hearts of criminals, a bat flew through his window of his study, inspiring him to become Batman. He confronted Chill with his story, and revealed his identity to him. Batman let Chill run scared; he ran for help to his henchmen at his garage and told them what had happened. He learned from the journal that Chill had not been a mugger, but was working for Lew Moxon. Moxon had been in a car accident and suffered from amnesia. He did not remember Thomas Wayne or what he had done. He recalls the night in Newtown where his parents, the Flying Graysons, performed their trapeze act for the final time, as the ropes snapped, sending them plummeting to the ground. Later that night, Dick Grayson Robin learned that the trapeze had been rigged by mobsters looking to extort protection money from the owner of the circus. Dick was prepared to go to the police when Batman approached him and told him of "Boss" Zucco, a mobster who controlled the whole town. Bruce Wayne took legal guardianship of Dick, and taught him the arts of crimefighting. He gave Grayson his old Robin costume, and the name to go with it. He found it hard to deal with the taunts of his classmates, but eventually graduated and left Wayne Manor to attend Hudson University. Robin has returned to Gotham City now at the call of Alfred, worried about Batman. He remembers in the closing days of World War II when he helped refugees escape the Nazis, and regrets needing to kill enemy soldiers. After the war, he turned to the London theatre as an actor. But as his father lay dying, he swore that he would carry on the family tradition of being a butler. Alfred got on a boat to America and sought out Bruce Wayne, whose father, Thomas Wayne, had employed his own father. Alfred tended to Bruce and Dick, unaware of their alter egos, until one night when they returned from crimefighting, and Bruce had been injured. Meanwhile, sorting through headshots of his rogues gallery, Batman points out that many of his enemies hate him enough to do this to him. To escape Batman, he dove into a basin of chemical waste and swam through a drainage pipe to the river. The special oxygen system in his helmet helped him survive, but the chemicals disfigured him and transformed him into the Joker. During the trial of "Boss" Maroni, who was being charged with the murder of "Bookie" Benson, Batman was testifying. Robin suggests that they go see Commissioner Gordon for help, but as he starts the Batmobile, an alarm sounds, indicating that the ignition has been tampered with. Everyone dives safely for cover as a bomb goes off, destroying the car. Another threatening note is discovered in the wreckage: The Man Behind The Mask! Meanwhile, Robin calls Jack Edison, a stunt driver who has built the latest Batmobile for the dynamic

duo, and commissions him to build another one at his usual fee with a bonus for the inconvenience. He does so because once Batman saved his life by pulling him from a flaming wreck. Batman searches the city, asking every informant he has about the case, but with no luck. Batman suddenly leaves Gordon to reminisce about the first time he met Batman; how Batman initially only left scrawled notes on the criminals he tied up and left for the police, until one day he caught a man about to attack Gordon with a knife. Gordon grudgingly accepted Batman. Gordon recalled how Batman had influenced his daughter, Barbara. She fell madly in love with him at first sight of him and she began studying martial arts alongside her library science Ph. She promptly attacked the men and freed Bruce, helping to bring Killer Moth to justice. The next morning, Bruce cancels all his appointments. Bruce continues to try to figure out who is behind the attacks, until he comes to a realization. He hurries back to Wayne Manor as Batman. He sees visions of himself and his parents when he was a child. He enters the Batcave at Wayne Manor and realizes that the person behind everything is himself: Bruce Wayne has attempted to destroy Batman because of how it has ruined his life as Wayne. As the walls of the Batcave begin to close in on him, he sees his father in the original bat costume. He explains that a warehouse explosion Batman had recently been caught in has temporarily affected his mind. Once they are safe, his father removes his mask to reveal that he is in fact Robin. Batman reveals that he knew all along, but that the important part is that he has come to his senses. Batman says that he needs to be alone, and heads for a rooftop to look over Gotham City.
