Or, as he once wrote: He befriended little girls on trains, and beaches, and in the houses of friends. And one particular little girl, Alice Liddell, came to be his muse and great passion. Unfortunately for Dodgson, the 21st century does not look kindly on a single man who is beguiled by seven-year-olds. Feminist critics have darkly suggested that Dodgson was a paedophile. They have condemned the beautiful photographs he took and objected to his objectification of the immature female body, and read all sorts of rapacious nonsense into the Alice books. They have attempted to argue that he was utterly without feelings for little girls. One of his early biographers wrote, "There is no evidence that he felt or inspired any pangs of tender passion", when of course there was an abundance of evidence that he did. His defenders tend to portray him as a shy, stuttering bachelor with a fondness for children that may as well have been a fondness for stamps or porcelain puppies. Is it possible that neither view of him is correct - that he was neither the child molester nor the pure, white-haired reverend? It is possible that our crude categories, our black and white views of romantic feeling, cannot contain someone like Dodgson. It is almost impossible for us to contemplate a man who falls in love with little girls without wanting to put him in prison. The subtleties, for those of us still mired in the paranoid of the 20th century, are hard to grasp. When one thinks of a paedophile, one thinks of a lustful, over-the-top, drooling Nabokovian love, but that is not Lewis Carroll. His love was more delicate and tortured and elusive; his warmth, his strange, terrified passion, more intricate and complicated than anything encompassed by a single word. He wrote to one year-old girl, "Extra thanks and kisses for the lock of hair. I have kissed it several times - for want of having you to kiss, you know, even hair is better than nothing. He converted whatever his feelings were into the whimsical, quasi-romantic banter that eventually made its way into the Alice books. He wrote to one mother of a potential visit with her daughter, "And would it be de rigueur that there should be a third to dinner? This was especially true of his relationship with Alice. There was always a sense that he wanted more of her. If he turned himself inside out, turned the world inside out with his powerful imagination, in order to avoid them? He was not alone in his obsession. The era seemed to breed a certain type of neurasthenic man who had a well-developed and intellectually complicated disdain for overt physicality and who found himself drawn to pre-teens. He also fell under the spell of Alice, among other young girls he encountered. One particular street urchin whom he glimpsed in Italy made a big impression on him. It is one of the paradoxes of Victorian culture that the sentimentality, the frilly, sugar-sweet view of the child often coexisted with darker sexual urges; that they fed each other, and the squeamishness about sex led to a perverse attraction to anything innocent and pure. Children were safe, and in their safety, certain thoughts - dirty, sensual thoughts - were allowed to flourish. It is almost impossible to claim that Dodgson was drawn to little girls on a purely spiritual plane. His deep aesthetic appreciation of their physical presence was too conspicuous. He wrote to Gertrude Thomson, an artist who was sketching girlish fairies and nymphs, "I confess I do not admire naked boys in pictures. But what to make of it? What if he did love children, and in that love was a sexual element? What if he admired the bodies of little girls and never touched one? There is no doubt that he was tormented by what he called "the inclinations of my sinful heart". Even his mathematical writings were marked by his struggle. Strong language for a book about trigonometry. The picture we get of is of a man afraid of his own dreams, struggling for command over himself. His feelings rhymed and punned themselves into expression. He chatted her up with the manic energy of Wonderland. His frustration, his alienation, blossomed into the caterpillar at the hookah and Humpty Dumpty and the Mad Hatter. He channelled his devotion into a wild and lovely literary universe; his imagination so dangerous and inflamed, it fled the real world. He called the Alice books a "love-gift". And because this love is unrequited, because it is impossible, ethereal, because he cannot allow himself to fully feel it, there is a hint of sadness. As he puts it, "a shadow of a sigh" trembles through the story. To me, there is a nobility in a self-restraint so forceful that it spews out stuttering tortoises and talking chess pieces rather than focus on the matter at hand. There is

something touching about a man who fights the hardest fight in the world: You can feel the loneliness on the page. You can feel the longing in the photographs. You can witness the self-contempt in his diaries. How can one not feel sympathy for a man who writes in his diary, "I pray to God to give me a new heart", but is stuck, in spite of his astonishing powers of invention, his brilliance, his immortal wit, with the one he has. He had impure thoughts, yes. What matters, in the end, is what he did with them.

Meriwether Lewis by Charles Willson Peale, from life, Independence National Historical Park Diplomat, explorer, scientist, governor, soldier, Virginia gentleman, student, secretary to the president: Born into a prominent Virginia family, Lewis faced the world with opportunity and advantage. Complex and often contradictory, the incarnations of Meriwether Lewis provide insight into the man behind the titles. Upon the death of his stepfather, Lewis, not yet out of his teens, became the head of a household that included his mother and four siblings. During this time, he met and befriended one of his commanding officers, William Clark. Army life suited Lewis and by he had been promoted to captain. Secretary to the President: Shortly after his election, President Jefferson invited Lewis to serve as his personal secretary. In , preparing for his journey to the Pacific Ocean, Lewis spent a month in Philadelphia studying with the eminent scientists of the day. His education included intensive courses in medicine, preservation of plant and animal samples, the use of navigation instruments for determining latitude and longitude, and the study of fossils. Explorer, Diplomat and Scientist: As they traveled, Clark mapped their route and Lewis recorded information about and collected samples of the unfamiliar plants and animals they encountered. The explorers met with the tribes of the Louisiana Purchase to tell them of the changes that would transpire under U. Lewis and Clark also tried to establish peace between tribes. Not understanding complex intertribal relations and tribal structures, few of these peace-making efforts met with enduring success. In , Jefferson appointed Lewis governor of the Louisiana Territory. Taking up his post nearly two years later, Lewis faced challenges almost immediately. Personality conflicts, political differences, and questions about the appropriation of government funds all contributed to his difficulties. Hoping to resolve the financial questions, Lewis set out for Washington D. On October 11, , Meriwether Lewis died in his lodgings in Tennessee. Although questions remain, it is generally believed that he died at his own hand. More information about Meriwether Lewis is available in the following books and web sites.

I think I almost got everything I wanted until the age of 13, yes. Until the age of 14 music was part of my life since it was part of the family circle: It was like a need to me. Matthew managed to play the song and his brother used to make him play it in front of his friends for show off. At the age of 11, after seeing Jimi Hendrix putting his guitar on fire, he decided he wanted to buy a guitar, which he asked from his grandmother. He then became interested in it after the divorce of his parents. I did get quite into that. Something that you might not have known was already there. And I do practice that". Some songs most notably older ones express a more esoteric side in terms of guitar riffs and vocals " Execution Commentary , " Agitated , " Ashamed , " Yes Please , " and " Break It to Me " more recently, among others. He also seems to pronounce clearly the hard consonant sound "n" at the beginnings of some phrases when he sings. This has commonly been interpreted as the word "and". Many of his main ideas are set in a dystopian future, in which totalitarian governments control every aspect of private and public behavior, maintaining their power with political and forceful tactics such as widespread surveillance, state controlled media, etc. Freedom is out of the question, and the idea of terrorism can be placed onto any individual regardless of age, etc. A note that he also hits in Execution Commentary. This was his lowest note he sang until the release Simulation Theory: The highest note he has belted is B4, which has been hit on several occasions live. He hits this note at 2: During Agitated [2] at the Belfast Ulster Hall gig in , at 6: Whilst this is not out of the range of a male singer with due practice, Bellamy managed to reach these highs without the amount practice usually required, and before he developed his breathing technique. Bellamy also stated in said interview that he used to, sometime prior to that interview, attempt to sing lower due to being embarrassed about singing using high ranges. As well as treating nervousness, this helps him in regards to jet lag. In an interview with NME, he has said that once he gets offstage the first thing he drinks is red wine. One of the most prominent is repetitively walking back and forth, though pro-shot videos manage to mask this by changing angle often. Other regularities are song specific, for example in Plug In Baby he spins a few times during the final instrumental section. He has the world record at breaking guitars, [8] he smashed guitars during the Absolution Tour in Trivia Bellamy would rather artists not need the media to reach their audience. We can see him looking at a score in the Making of United States of Eurasia, making a funny face though. His brother held him in front of their television, then held him in front of their piano and made Matthew work it out with one finger. His brother showed this off to his friends. He played guitar her song 90s Music, released in May. The song features Matt Bellamy on guitar. It can be heard here. He was a soldier of the British Army, but the IRA never owned up to his death as they usually did and no conclusion was ever came to. He has an older brother called Paul, who bought Hulk comics during their childhood. Matthew came to like The Incredible Hulk as a result, but he never bought any of the comics - he took them from Paul. Bellamy started dating actress Kate Hudson in Spring Hudson announced she was pregnant in January They plan to co-parent Bing and are said to be continuing to be great Friends. I believe that you only live through the influence that you spread, whether that means having a kid or making music". He said that "all those cloaks and everything" are "not a good look". He said that his dedication to music might serve as a replacement to religion. Bellamy also stated in a interview that one of the weirdest gifts fans have sent him is the Holy Bible. You know what I mean? In an interview with a Rock Music channel in France , Bellamy states, "I believe in the God of the universe, definitely. Miscellany Bellamy watched Road Runner when he was around 4 years of age. He claims that the way the Road Runner tortured the Coyote constantly without self consequence "got" to him. Bellamy moved into a flat with a drug dealer at the age of He described the flat as looking like "a scene from Trainspotting, white powders and mirrors and tin foil everywhere. When asked, Bellamy once gave this advice on orgies: All you need is masks or hats. Soon as people put on silly hats, they loosen up a little bit. Then you need a couple of friends who are very close to each other. Then people start bundling to each other and it just goes from there. Just bundling, tickling and novelty items. Bellamy

April 30, The Best C. Last year marked the 50th year of his death, and in honor of C. If I missed a great quote, be sure to leave it in a comment! God comes in to rebuild that house. At first, perhaps, you can understand what He is doing. He is getting the drains right and stopping the leaks in the roof and so on; you knew that those jobs needed doing and so you are not surprised. But presently He starts knocking the house about in a way that hurts abominably and does not seem to make any sense. What on earth is He up to? The explanation is that He is building quite a different house from the one you thought of â€” throwing out a new wing here, putting on an extra floor there, running up towers, making courtyards. You thought you were being made into a decent little cottage: He intends to come and live in it Himself. I always knew a bottle of Port would do that. You have never talked to a mere mortal. Nations, cultures, arts, civilizations â€” these are mortal, and their life is to ours as the life of a gnat. But it is immortals whom we joke with, work with, marry, snub and exploit â€” immortal horrors or everlasting splendors. This does not mean that we are to be perpetually solemn. But our merriment must be of that kind and it is, in fact, the merriest kind which exists between people who have, from the outset, taken each other seriously â€” no flippancy, no superiority, no presumption. If each man had been the only man made, He would have done no less. We are half-hearted creatures, fooling about with drink and sex and ambition when infinite joy is offered us, like an ignorant child who wants to go on making mud pies in a slum because he cannot imagine what is meant by the offer of a holiday at the sea. We are far too easily pleased. Without that self-choice there could be no Hell. No soul that seriously and constantly desires joy will ever miss it. Those who seek find. Those who knock it is opened. There would be no sense in saying you trusted a person if you would not take his advice. Thus if you have really handed yourself over to Him, it must follow that you are trying to obey Him. But trying in a new way, a less worried way. Not doing these things in order to be saved, but because He has begun to save you already. Not hoping to get to Heaven as a reward for your actions, but inevitably wanting to act in a certain way because a first faint gleam of Heaven is already inside you. But look for Christ and you will find Him, and with Him everything else thrown in. He invented all the different people that you and I were intended to be. It is when I turn to Christ, when I give up myself to His personality, that I first begin to have a real personality of my own. A proud man is always looking down on thing and people: So quietly submit to be paintedâ€”i. You are in the right way. Otherwise, it is almost like setting up ourselves as a higher tribunal than Him. This is an obvious lie. Only those who try to resist temptation know how strong it isâ€”! A man who gives in to temptation after five minutes simply does not know what it would have been like an hour later. That is why bad people, in one sense, know very little about badness. They have lived a sheltered life by always giving in. Unless we really try, whatever we say there will always be at the back of our minds the idea that if we try harder next time we shall succeed in being completely good. Thus, in one sense, the road back to God is a road of moral effort, of trying harder and harder. But in another sense it is not trying that is ever going to bring us home. But years later it occurred to me that there was one man to whom I had been doing this all my life â€” namely myself. However much I might dislike my own cowardice or conceit or greed, I went on loving myself. There had never been the slightest difficulty about it. In fact the very reason why I hated the things was that I loved the man. Just because I loved myself, I was sorry to find that I was the sort of man who did those things. The world is crowded with Him. He walks everywhere incognito. Everything else is good when it looks to Him and bad when it turns from Him. Unless you know God as that-and, therefore, know yourself as nothing in comparison-you do not know God at all.

*"In the same way a Christian is not a man who never goes wrong, but a man is enabled to repent and pick himself up and begin over again after each stumble--because the Christ-life is inside him, repairing him all the time, enabling him to repeat (in some degree) the kind of voluntary death which Christ Himself carried out."*

Origins[ edit ] Muse reading a scroll, perhaps Clio Attic red-figure lekythos , Boeotia c. Some ancient authorities thought that the Nine Muses were of Thracian origin. Diodorus Siculus quotes Hesiod to the contrary, observing: Writers similarly disagree also concerning the number of the Muses; for some say that there are three, and others that there are nine, but the number nine has prevailed since it rests upon the authority of the most distinguished men, such as Homer and Hesiod and others like them. The Nine Muses, the personification of knowledge and the arts, especially literature, dance and music, are the nine daughters of Zeus and Mnemosyne memory personified. It was not until Roman times that the following functions were assigned to them, and even then there was some variation in both their names and their attributes: Calliope epic poetry , Clio history , Euterpe flutes and lyric poetry , Thalia comedy and pastoral poetry , Melpomene tragedy , Terpsichore dance , Erato love poetry , Polyhymnia sacred poetry , Urania astronomy. In one myth, King Pierus , king of Macedon , had nine daughters he named after the nine Muses, believing that their skills were a great match to the Muses. He thus challenged the Muses to a match, resulting in his daughters, the Pierides, being turned into chattering magpies [9] for their presumption. Sometimes they are referred to as water nymphs , associated with the springs of Helicon and with Pieris. It was said that the winged horse Pegasus touched his hooves to the ground on Helicon, causing four sacred springs to burst forth, from which the muses were born. For Alcman and Mimnermus , they were even more primordial , springing from the early deities, Uranus and Gaia. Gaia is Mother Earth , an early mother goddess who was worshipped at Delphi from prehistoric times, long before the site was rededicated to Apollo, possibly indicating a transfer to association with him after that time. Pausanias records a tradition of two generations of Muses; the first are the daughters of Uranus and Gaia , the second of Zeus and Mnemosyne. Another, rarer genealogy is that they are daughters of Harmonia the daughter of Aphrodite and Ares , which contradicts the myth in which they were dancing at the wedding of Harmonia and Cadmus. In myth[ edit ] Polyhymnia , the Muse of sacred poetry , sacred hymn and eloquence as well as agriculture and pantomime. Together, these three form the complete picture of the preconditions of poetic art in cult practice. In Delphi three Muses were worshiped as well, but with other names: In later tradition, four Muses were recognized: One of the people frequently associated with the Muses was Pierus. By some he was called the father by a Pimpleian nymph: They also gathered the pieces of the dead body of Orpheus , son of Calliope , and buried them. In a later myth, Thamyris challenged them to a singing contest. They won and punished Thamyris by blinding him and robbing him of his singing ability. Though the Muses, when taken together, form a complete picture of the subjects proper to poetic art, the association of specific Muses with specific art forms is a later innovation. The Muses were not assigned standardized divisions of poetry with which they are now identified until late Hellenistic times. Chariot clock by Carlo Franzoni , , depicting Clio.

As soon as we do this we find one of the great secrets. When you are behaving as if you loved someone you will presently come to love him. I thought I was the only one. It has no survival value; rather it is one of those things which give value to survival. But, for a Christian, there are, strictly speaking no chances. A secret master of ceremonies has been at work. It is the instrument by which God reveals to each of us the beauties of others. That is the one thing we must not say. A man who was merely a man and said the sort of things Jesus said would not be a great moral teacher. He would either be a lunatic " on the level with the man who says he is a poached egg " or else he would be the Devil of Hell. You must make your choice. Either this man was, and is, the Son of God, or else a madman or something worse. You can shut him up for a fool, you can spit at him and kill him as a demon or you can fall at his feet and call him Lord and God, but let us not come with any patronizing nonsense about his being a great human teacher. He has not left that open to us. He did not intend to. He knew it already. In this trial He makes us occupy the dock, the witness box, and the bench all at once. He always knew that my temple was a house of cards. His only way of making me realize the fact was to knock it down. There would be no sense in saying you trusted a person if you would not take his advice. Thus if you have really handed yourself over to Him, it must follow that you are trying to obey Him. But trying in a new way, a less worried way. Not doing these things in order to be saved, but because He has begun to save you already. Not hoping to get to Heaven as a reward for your actions, but inevitably wanting to act in a certain way because a first faint gleam of Heaven is already inside you.
