Protecting the sexy little seer will challenge his own beliefs and his control. Their lust quickly spins out of control, even as danger lurks behind every corner. Can she accept the legacy handed down to her from the distant past and convince her Lycan to be a part of her future? Or will the ancient evil that threatens to destroy their world keep them from making a new beginning together? August 9, Paranormal , Werewolves Excerpt: She grinned foolishly into her drink. Except, of course, whether or not her overly endowed body was going to stay in this travesty of a dress her aunt had squeezed her into. All she managed to accomplish was a whole lot of jiggling flesh and no new coverage. She was tempted to try again when a heartfelt, decidedly tortured male groan froze her fingers mid motion. Before she got the chance to speak, let alone find the owner of the husky sound that had caught her attention, Sheridan appeared, her partner Kyle in tow. Sheridan nodded in apparent approval and turned back to Meru. He is a Bob. You have a beautiful singing voice, by the way. A sigh of relief escaped when she realized that none of them were Lizards. Oddly, she felt no fear, only fascination. Or maybe it was the sheer sexual pheromones they all seemed to be emitting with each breath. Quite the contrary, in fact. The man called Finn was stunning, in a totally not human way. Tall, lean and elegantly muscled, with aristocratic features, short mahogany-colored hair and unbelievably lovely eyes. He glimmered like starlight. The energy he generated was not an aura around him, but in him, under the skin. The faded logo of a popular heavy metal band stretched across the broad expanse of his black t-shirt, and his snug black jeans clung to thighs the size of small tree trunks. With his shoulder-length dark blond hair and features that made him almost too good-looking, he reminded Meru of that movie star Sheridan was always going on about only bigger. He smiled at her, a surprisingly friendly, open grin, as if inviting her to laugh with him. She looked at the tattoo of a hawk in flight bursting from his left biceps and watched it pulse with a life all its own. He had to be over six and a half feet in height, his shoulders so wide they nearly blocked out the bandstand behind him. This man, dark and sinfully masculine, made her breath catch and other parts of her she was trying desperately to ignore clench and tighten with a sudden, astonishing desire. At least, not while she was awake. He too was dressed all in black from head to toe, making her think a bit giddily that it must be the standard uniform for hot, hunky Others. He was a sight to make a grown woman weep. And he looked oddly familiar. She felt the rush of power, of untamed earthiness pulsing around him, reaching out to wrap around her. They focused on her with unswerving intent. Bob was a Greek god. That was the only possible explanation. And he had to be a jerk, she thought hazily. No one could possibly look this good and be a nice guy to boot. She felt his gaze as a physical caress and realized her body had been unconsciously leaning toward him, drawn by the magnetic pull. His eyes followed the movement and widened in surprise and she knew. Meru turned to glare at her cousin. They are something else entirely. As in Fae folk? Not that I have anything against that name, mind you.

*In this very unique book, Lifting The Veil - David Icke Interviewed by Jon Rappoport, the author undertakes the interesting task interviewing as the book says the "most controversial speaker in the world".*

Lifting the Veil Daniel Construction on a new church building was nearly complete, with the baptistry functional even though changing rooms were not yet available. When the need arose to use the baptismal, sheets were hung temporarily where those being baptized could change. The last person to be baptized made her way down into the water. Terrified of going under, she had been assured there was no reason for concern. But she panicked in those final seconds before being lowered into the water, clawing the air for anything to keep from going down. Having just stepped from the baptistry, there stood a man completely naked. Realizing something dreadful was wrong, he turned around, only to see the entire congregation gaping at him in embarrassed astonishment. Assessing the situation quickly, he did the only sensible thing—he dove into the baptistry—with the preacher and the panic-stricken woman! On rare occasions in the Bible, the curtain is lifted to unveil things normally kept from view. Chapter 2 of 2 Kings exemplifies one such passage. A similar scene is described by our Lord in the story of the rich man and Lazarus. Later in the sixth chapter of 2 Kings, we see yet another lifting of the veil with Israel at war with Aram, a neighboring nation. Every time the king of Aram planned an attack, the prophet Elisha informed the king of Israel what to expect. The Israelites were therefore always prepared, and the king of Aram was never able to win a victory. Elisha then prayed for the eyes of his servant to be opened, so that he could see the unseen realities of the spiritual realm. The servant saw the heavenly forces, the horses and chariots of fire surrounding Elisha. When Elisha prayed again, the eyes of the enemy forces were blinded, and the prophet was able to lead this enemy army into the city of Samaria. At times, the veil is lifted in the Bible allowing the Christian to see the unseen. At the birth and baptism of our Lord, the veil concealing the glory of our Lord was lifted, and the heavens opened revealing the angelic hosts. Chapter 10 in the Book of Daniel provides another rare passage in which the veil is lifted for the reader to see the unseen. Some things are similar to what is seen elsewhere. But our text also reveals some things which should challenge our preconceived ideas, which fail to conform to our preferences. These are realities we need to see and accept, allowing them to shape our perspective and our practice. May God grant us the ability to see the unseen here and then to live in the light of these realities. An Overview of the Text Chapter 10 does not stand alone. Chapter 12 then provides a final broad overview of the prophecies of this book, restating the big picture, and closing with comforting words spoken to Daniel. Chapter 10 and the first verse of chapter 11 introduce the vision described in detail in chapter 12. Verses provide a brief description of the events leading up to the vision. Verses describe the One whom Daniel sees in his vision. The impact which this vision had on Daniel and those with him at the time is revealed in verses 13-14. Verses disclose the words of the angel who spoke to Daniel, explaining the purpose of his visitation and the reason for his delay. In verses 15-17, an account is given of the debilitating impact this visitation had on Daniel. Verse 18 of chapter 10 through verse 1 of chapter 11 provides a record of the encouragement and strengthening of the angel, along with his account of the part he plays in matters in heaven and on earth. Our text, Daniel From the statement given in the first chapter of Daniel, we learn that his career lasted until the first year of Cyrus. The date must be B.C. The first wave of Jewish captives would thus have already made their way back to Jerusalem. From what we are told in verse 1, we know that unlike the vision of chapter 8 see verse 27, Daniel did understand this vision received in chapter 8. We are not given the answer. It could have been the new temple would not have the same glory as the old see Ezra 3 or the enemies of the Jews were hindering the rebuilding of Jerusalem and the temple Ezra 4. In the final analysis, we only know that Daniel was mourning and that he had set his heart to gain understanding. Along with several others see verse 7, Daniel was standing beside the Tigris river when he received his vision. He was not transported to this place in his vision, as in chapter 8 verses 1-2, but was already there when the vision appeared to him. It was now the twenty-fourth day of the first month after three full weeks of mourning. The reason for the delay will be given shortly, but first Daniel gives us an account of what he saw in the vision. Looking up, Daniel saw a person with human characteristics but with qualities which

seemed to far surpass those of any mere man. Clothed in linen, his waist was girded with a belt of the finest pure gold. Beryl was one of the stones set into the breastpiece of judgment Exodus. Some of the foundation stones of the heavenly city were beryl Revelation. To have a beryl-like body was to have great beauty. The face of this marvelous creature was also striking. His face had the appearance of lightening. It would seem that his face radiated the brightness and brilliance of lightening. His eyes were like flaming torches. The arms and feet were like the gleam of bronze. What a reflection the arms and feet must have given off, due to the radiance of his face and eyes! When he spoke, it was not the sound of one magnificent voice, but more like the combined voices of a large multitude. I have concluded the answer is found by answering this question: Compare this vision in our text with these two other visions, recorded in Ezekiel 1 and Revelation 1: Such was the appearance of the likeness of the glory of the LORD. And when I saw it, I fell on my face and heard a voice speaking Ezekiel 1: And having turned I saw seven golden lampstands; 13 and in the middle of the lampstands one like a son of man, clothed in a robe reaching to the feet, and girded across His breast with a golden girdle. It makes good sense that the final vision of the Book of Daniel would be that of none other than our Lord Himself. God has decreed that all things be summed up in Christ: These are in accordance with the working of the strength of His might 20 which He brought about in Christ, when He raised Him from the dead, and seated Him at His right hand in the heavenly places, 21 far above all rule and authority and power and dominion, and every name that is named, not only in this age, but also in the one to come. Daniel was accompanied by others beside the Tigris river as the vision of the Lord was revealed to him. The others did not see the vision. There may well have been some unusual manifestations these men witnessed, like those who were with Paul on the road to Damascus: The one thing the men with Daniel certainly observed was his response to the vision. He fell into a deep sleep, which may have made him appear to be unconscious or in a coma. Those with him felt a deep sense of dread. Wanting no part of this, they ran, leaving Daniel alone to see the vision. An Angelic Explanation An angelic hand reached out and touched Daniel, lifting him from the ground so that he was now on his hands and knees. Daniel was highly regarded on earth and in heaven as well. He is granted the ability to understand the words which will be spoken to him. When commanded to do so, Daniel stood, wobbling on his feet it would seem, like a new-born calf. The angel now seeks to encourage Daniel, telling him not to be afraid. Nevertheless, there was a delay from the time the angel was commissioned to the time he arrived. With the help of Michael, this angel was finally able to complete his mission and visit Daniel. Michael is the second angel to be named in the Bible. The inference suggests that this angel would never have made it apart from help from such a powerful ally. It would appear that the princes of Persia verse 13 and Greece verse 20 are fallen angels, whose dominion is restricted to a particular geographical and political nation. He is on the one hand a human ruler and on the other a personification of Satan. I believe that as these human kings rose to power and prominence, they, like Satan, became puffed up with pride and became more and more influenced and finally dominated by Satan himself, so that the character traits of these kings became those of Satan. Their personalities became so merged, it was difficult to distinguish one from the other, much as the demonized Legion was dominated by the demons. I believe both requests were made, and they were very much related. The demons are given a certain geographical or political sphere of activity and influence. They would no longer have the opportunity to carry out their rebellion against God and opposition to men. Not only do fallen angels have political and geographical spheres of activity, but the holy angels likewise appear to have their own boundaries. The angel who speaks with Daniel has been given Darius as his ministry: Just as Christians can expect opposition from those who are the enemies of Christ see John In verse 14, the angel explains to Daniel his purpose in coming to him. As for me, there remains just now no strength in me, nor has any breath been left in me. Mortal man, marred by sin, is terror-stricken in the face of holiness. Daniel could now speak, and he did. He explained that the vision had left him in anguish and exhausted, feeling utterly unworthy to speak. His strength vanished, and he seems to have gasped for breath.

Lifting the Veil Book Review: Lifting the Veil Book author: Priscilla Griffin Reviewed by: It is an interesting disorder to treat and to write about as there is a certain degree of disbelief surrounding it “ despite that it is found in roughly 1. But then, midway through, the book takes a bit of a turn. From angel readings, the book dives into past lives, hypnosis, clairvoyance, and energies, blending the therapeutic with the spiritual. If you are a skeptic, Griffin is unlikely to shift your thinking. However, if you are interested in exploring the crossroads between psychology and spirituality through the individual, you might enjoy her book. We learn about the clairvoyance that was denied by the adults around her, and then about early and recurrent sexual abuse. We are introduced to her cast of internal characters: Each has a purpose and personality. And we watch as the personalities struggle with what it would mean to unite. No one wants that. Griffin reveals her own changing spirituality. Having been a devout Roman Catholic all her life, Griffin writes that her angel reading acts as a catalyst to spark a change in her beliefs. As she sees the effects of this in her life, she begins to incorporate alternative practices into her therapy. It is a complex internal web that, depending on your own personal belief system, will either seem fascinating or ridiculous. Griffin herself recognizes that the events push the envelope of plausibility, at times questioning her own story as it unfolds. This approach makes the book more palatable for the skeptic in all of us. Through describing her time with Francine, Griffin also brings out important themes in the therapeutic process, particularly that of treading the line between the personal and professional. Griffin gives us an inside view of her journey treating a complicated patient, yes, but it proves unusually intimate and thought-provoking.
