I know the truth about marriage. That the shiny new presents, the grandiose party, and the blissful honeymoon suite with the in-room hot tub does not a happy marriage make. Relationships take on all sorts of different shapes and sizes these days, with couples choosing not to marry yet live together, or to forge non-traditional family units. So just what is the key to a lifelong, lasting union? Is it possible to predict if your love has what it takes to last for a lifetime? You are a better person with your partner than you are without I can honestly say that my relationship with my husband has made me a better person. When we first started dating, I was a miserably moody, unconfident, and insecure person and I took out a lot of my feelings on him. Marriage is a source of happiness no doubt, but marriage alone cannot make you happy. Unlike the concept of effortless love that soul mates can portray, choosing a relationship is an entirely different matter. Personally, I love how blogger Hannah puts it, when she declared to the world in a post gone viral that her husband was not her soulmate: I like it better this way, with the pressure on me and not on fate, cosmos, or divinity. This is my joyous task, my daily decision. You have realistic expectations Glamour Magazine reported that one of the easiest and best ways to tell if a relationship will last is if a couple displays realistic images and portrayals about each other and their relationship â€” meaning, no unrealistic expectations about a life of pure bliss and toilet paper rolls that change themselves. You dream about the future together Not in a way that keeps you from enjoying the present together, of course, but in a way that ensures that you will have a future together. Setting goals together, making plans for the kind of life you want to live with your partner, and checking in along the way helps to keep you connected as you dream together. You can laugh together So much about a relationship changes over the course of time. Even in the six relatively short years that I have been married, we have changed houses, careers, number of children, and of course, waist sizes. But the one thing that needs to stay consistent through thick and thin, sickness and health, and all that stereotypical marriage vow stuff that is absolutely true, is laughter. If you can find a smile from your partner and a reason to laugh even in the darkest of times, there is always hope. Article Posted 5 years Ago Share this article.

Gwen is married to Hank a local shop owner and Lacey is the youngest sister who is a little bit of a rebellious tomboy who has a love hate relationship with the town deputy. Their father died mysteriouslyâ€” was it murder? Lacey is determined to find out! The book is set in the end of the s I believe in Montana. I liked the setting and thought it was funny that some of the people came from the seemingly great land of KS. Montana must really be bleak. They start courting and then his young son shows up. He had loved another girl, gotten her pregnant, and then her family ran him out of town. Beth is surprisingly cool with all of it and the 3 of them become one happy family. There are also side stories including Simon nicks brother and one of the prostitutes. They were planning on getting married and moving away because she ended up pregnant by one of her clients but the bar owner beat her so bad she lost the baby. Beth and her sisters were always moving as kids and all she wants is a stable home. This is Christian fiction and even though I am a Christian I felt like this was overkill at some points. At times it felt very real, authentic and applicable but at other times it felt like it was just convenient to throw in a God reference. They were going to drug everyone at the local bar to get them to pass out and stop drinking?? Let God do the judging ladies. Looking forward to seeing how it concludes.

3: 6 Ways to Tell If Your Love Will Last Forever

These are the people we love the most, so we should show them that. I agree - romantic love can last forever - you must just be as kind as you were to each other when you fell in love! xx.

The weathers of my life start and end with you. At first, everything seems so intense and beautiful. Even when the honeymoon feeling begins to fade, relationships fall into that comfortable place where everything just seems happy. Relationship experts have long been doling out advice on how to keep your relationship strong and your love burning bright. Now, three secrets are going to be revealed that will help your love last forever. Communication is key to any relationship, but what will make a relationship last forever is a very specific kind of communication: All they could think about was getting to your important date on time. Communicating what you need in these kinds of situations will keep both you and your partner happy, but also open the line of communication for compromising in situations. This will keep your love lasting forever. When something feels obvious to you, it may not be obvious to them. When you find yourself becoming upset over something your partner has done, or not done, or said, or not said, take a step back and ask yourself what you expected your partner to do instead. Relationships that work have an open and honest understanding of what is expected in the relationship from both partners. When you start laying out the expectations that you have for the relationship, both you and your partner will be able to love one another better and for longer. Assume the best of each other We humans sometimes make it a habit to assume the worst of people. People often assume the worst possible interpretation instead of asking for clarification. This behavior makes mountains out of molehills and causes friction in marriages. Learning to assume the best out of your partner will both ease a lot of arguments and tension, as well as keep your love flowing endlessly between the both of you. So, take that urge to assume the worst and twist it around so that you can create a positive, loving environment in your relationship. Talk about things that are upsetting you quickly and without assuming what the other party meant until your partner is able to fully articulate their intentions. Final thoughts Loving someone is the easiest thing in the world! In the end, so is keeping your relationship strong and your love going forever. All rights reserved References:

I liked it, or maybe I loved it. The book is amazing, revolves around a man in his twenties and a man in his fifties, sharing their love stories and major issues with their life. After seven years of being in love, they get married. But they fall out of love in just seven days of marriage. He feels a complete change in his lady love-as if she has developed horns and turned into a devil. Ronit leaves in a ship for work and to escape Read the review here: Ronit leaves in a ship for work and to escape from his wife. Unfortunately their ship is hijacked by pirates and they are under the hostility of pirates for eleven months. Is it going to make a difference to Ronit who has already lost hope and belief in love? He feels as if she was after his money and wanted a perfect honeymoon in an expensive, exotic location and that all she wanted to do was shopping with all his hard-earned money. I concluded that the writer was just another chauvinist who vented his feelings through his writing. I was mistaken at the end, though. Easily paced, you can read it in a few hours. There is humour, love and laughter. The author clearly puts forth the message that when ego prevails, love is lost. The language is simple and lucid making it an interesting read. The cover page is attractive as well. These few quotes from the book made me smile. I thought our hands were made for each other too. And why do these feelings never cease, instead flourish with each passing day?
