View and Download MACKIE VLZ3 owner's manual online. 8-Channel Premium Mic/Line Mixer. VLZ3 Music Mixer pdf manual download.

The manual is fun carment with small grains of humor. Even when it is-capable of producing beautiful sounds with the EQ, but the breath Drang. I was looking for a particular console with super pramplis on mono channels for direct pramplification guitars. The aim is also to have a silent hiss level largely infrieur that produced my little console Phonic. And the sad surprise: MODEL I is able to hear the sound of the sea and that of a tropical rain if you push the knobs a bit Except that the price is not the same level it. I use the headphone to attack the speakers 2. I might have to pay a firewire table and so have more 2CH recorded simultaneously but drivers are not alesi available in opensource and mackie onyx firewire is far too expensive. I use the no qualo as given that the amplification is very loyal but I test to see and it is very effective. Berhinger rputes the poorly at the same time, given the difference in price Did you find this review helpful? Output is more than complete: In short, it is very complete. DI Jack Intgr in tracks 1 and 2. Practice to connect a guitar or bass passive. You turn the knobs, and you can hear the changes immediately. And attention, what changes! No section of effects against at the same time, we can not have everything, it is so compact. If you have any doubts about Intgr DIs, or the many outputs the record is very well made, no worries. The sound is ultra clean, great prcis. It is a gross state of happiness. Although sr means no breath, unless you push the main mix to three-quarters of the del. At the same time, the console has to have a t tudie Reserved maximum power and, of course, it is not. This is one of the most compact consoles and most comptes I have ever seen, really excellent. I pay new store, I had the choice, 20 prs, between that and the Yamaha with an effects section, but much less compact. My heart swung to Mackie, and I think I will not regret it. For home, studio, live, it has no default. What you ask for?
