

1: Mandela's Way: Lessons on Life, Love and Courage – The Executive Perspective

In this book, there are 15 lessons on life, love, and courage, Mandela's way. Each chapter is a lesson in itself captivating the reader, through practical illustrations. As a prominent figure worldwide, many authors have written about his life.

Perseverance and Resilience This lesson examines the apartheid policy in South Africa and the resistance movement against it. What do you think of this change in strategy and do you feel the ANC had no choice? Why, or why not? **Collaboration and Alliance** This lesson explores how Nelson Mandela and members of the ANC collaborated with other groups to end apartheid. The contributions of other figures in the anti-apartheid movement are also examined. Which is better, collaboration or going it alone, and why? Discuss how Mandela was able to collaborate with then-president F. How did it help South African blacks and whites come to terms with their history and find ways to get along? **Qualities of Effective Leadership** In this lesson students will examine the leadership qualities of Nelson Mandela. They will identify ways Mandela displayed leadership in his efforts to end apartheid. Explain why these qualities are important. Describe how the actions he took were effective at the time, later on, or not at all. The additional description of the U. S civil rights movement is located in the Student Discussion Printable along with discussion questions for Lesson 4. **Critical-Thinking Questions for Lessons 1-4:** How did apartheid in South Africa and racial segregation in the United States negatively affect the educational, social, and political development of blacks in these countries? Both policies took away basic human rights. Both policies were set up to make the targeted people feel different and less worthy. Collaboration brings more people to the process to contribute their ideas and talents. Finding the areas where you and your adversaries have common interests can open up opportunities to collaborate to resolve issues and make the negotiation or resolution of more challenging topics less difficult. Which is your favorite and why? **Paired-Writing Activities for Lessons 1-4:** Then return the answered questions. After students review their answered questions, ask for a sampling of questions and answers in a full group discussion. Organize them into pairs and have each student take one or the other view. Have them trade back their essay paragraphs and discuss. **Extension Activities for Lessons 1-4:** Students should research major events that occurred during this time period. They can use examples from timelines they find online or at the library. They can also include images and videos in their production. Students can present these as blog posts or podcasts. In their analyses, they should: Students may choose to give their presentation on a poster, PowerPoint slide show, or in digital media. The Nelson Mandela Foundation – www. These questions also appear on the Madiba Family Viewing Guide printable that students can refer to at home. Nelson Mandela had many values that helped him succeed, including perseverance, resilience, loyalty, and conviction. Cite examples from the series where these were displayed. Have you ever faced a situation in your own life where you kept fighting to overcome an obstacle despite drawbacks? Explain how you fought the obstacle and the result of your efforts. In what ways were they different? We have not yet taken that final step of our journey, but the first step in a longer, more difficult road.

Mandela's Way takes us into the inner life of one of the most important heroes of the century. There are lessons here that could radically change the way you live your life."â€”Deepak Chopra, author of *The Ultimate Happiness Prescription*.

Throughout the book Richard Stengel considers Nelson Mandela â€” anti-apartheid activist, Nobel Peace Prize winner and the man who led South Africa to democracy â€” to be an inspiring role model for everyone. He was immersed in African historic customs. I think that helped shape him as a young man. Initially a supporter of non-violent resistance, Mandela eventually established the military wing of the African National Congress, and led a campaign of bombing attacks against military and government targets. He was arrested and convicted of sabotage and other crimes against the state. The man who emerged from prison at age 71, Stengel says, was a very different man than the one who went in. And the man who emerged was a model of self-control and maturity. Prison taught him that in a way, because the only thing you could control in prison was yourself. That made him stronger rather than weakened him. In his tiny prison cell, Nelson Mandela also discovered what courage means. Nelson Mandela says prison was his greatest teacher. Courage is triumphing over the fear that you have. What he would say is that courage comes not from not being afraid, but from figuring out a way to suppress it, to overcome it, to tamp it down. Mandela learned to look for the good in others and to put himself in the shoes of those who disagreed with him. That perspective helped him recognize that life is not simply black and white, but shades of gray. But the lesson is larger than that. He basically says you have to sort of look and pretend to be the thing we want to be. If you want to be a leader, you have to act like a leader. If you want to be an artist, you have to look and act like an artist. But leading from the back is a different idea. We used to take these early morning walks in the countryside near where he grew up. He once asked me if I ever herded cattle before. You find the most able and smartest cattle and have them lead the way. You basically have to kind of share the wealth. You have to find people who can execute your vision and ideas.
