About the Series: The Turbocharge Your GMAT Series is carefully designed to be clear, comprehensive, and content-driven. Long regarded as the gold standard in GMAT prep worldwide, Manhattan Review's GMAT prep books offer professional GMAT instruction for dramatic score improvement.

Though we have received much praise over the years, frankly, the achievements and successes of our students speak the loudest about the quality and caliber of our GMAT prep services. Our former students have become accomplished and successful business professionals at top local firms such as Google, Ujjivan Financial Services, SAL Labs India, and the Oberoi Group, just to name a few. All of our GMAT prep services include thorough student-centered instructional methodologies, taught by dedicated and experienced GMAT educators who are located in Hyderabad, throughout the India, and around the world. Our proven methods of GMAT teaching and learning ensure that our students absorb the most essential GMAT content, testing skills, and performance-enhancing strategies for their highest possible scores. Our GMAT syllabi, courses, and individual learning plans have been designed by an expert team of educational researchers, professors, and business school admissions consultants with a concerted focus on accessibility and broad thinking. We firmly believe this gives our Hyderabad students a GMAT learning experience that is as engaging as it is effective. At Manhattan Review, we realize how important the GMAT is to your future, and we are therefore thoroughly committed to giving you the most carefully constructed and precisely implemented GMAT prep that the industry has available. While other test prep firms will make hiring decisions based solely on an instructor's own test scores, at Manhattan Review, we take into account more than just stellar upper-percentile test score performance. As we all know, high-scoring students can often make poor educators, and this is simply because test-taking and teaching test prep require a different skill set. We also look at academic performance at the undergraduate and graduate levels, variety of courses taken, business knowledge and experience, teaching CV, and perhaps most importantly, a genuine passion and zeal for GMAT instruction that excites and inspires students to achieve their academic and business goals. This hiring and training practice gives our students in Hyderabad, Bangalore, Chennai, Mumbai, and New Delhi the informed, reliable, and dedicated GMAT instruction that their goals require. Now in its updated 6th edition, the full series is designed to accommodate GMAT test-takers with thorough guidance for optimally successful outcomes. We delve deeply into the content of every single testing area and zero in on exactly what you need to know to raise your score. The full series is comprised of 16 guides that cover concepts in mathematics and grammar from the most basic through the most advanced levels, making them a great study resource for all stages of GMAT preparation. Students who work through all of our books benefit from a substantial boost to their GMAT knowledge and develop a thorough and strategic approach to taking the GMAT. Manhattan Review History Manhattan Review began in when Joern Meissner, who was then a lecturer and doctoral student at Columbia Business School in New York City, planted the seeds for what was to become a worldwide leader in test prep. Several of these students asked if this method could be implemented to develop better GMAT prep courses than the ineffective and banal content memorization available at the time. Professor Meissner soon devised authentic GMAT lectures that became immediately popular with soon-to-be business students in Hyderabad and around India. Thus, an innovative, cutting-edge test prep company was born. Manhattan Review also provides other important educational services that include application consulting, admissions consulting, and credible, effective practice exams. About our Founder Prof. Upon completion of his doctoral degree, Meissner chose the career track of an academic and has now more than 25 years of experience as a postsecondary educator. While Professor Meissner thoroughly enjoys his research, he believes that grasping an idea is only half of the fun; imparting knowledge to others is even more fulfilling. This philosophy was paramount to the establishment of Manhattan Review, and continues to remain its most treasured principle today.
