*The Jazz Piano Book [Mark Levine] on [www.enganchecubano.com](http://www.enganchecubano.com) \*FREE\* shipping on qualifying offers. Endorsed by Kenny Barron, Jamey Aebersold, Richie Beirach, and more, this book presents all the information a student of jazz piano needs in an easy-to-understand.*

This is the penultimate jazz theory book. There is an in depth discussion on this book here on LJP: When you get this book, go through it from first page to last as fast as you can. Keep track of what you need to work on and then go back and focus on those areas. I mean it, this book can consume you so use it as a great resource and tool to help you get to the next level in your playing, but concentrate on the playing part. Description book jacket or other publisher notes: The most comprehensive Jazz Theory book ever published! Over pages of text and over musical examples. Written in the language of the working jazz musician, this book is easy to read and user-friendly. At the same time, it is the most comprehensive study of jazz harmony and theory ever published. An invaluable resource for all improvising musicians regardless of instrument. The Jazz Theory Book has the clarity that most pedagogical books strive for. This book seems to have left no stone unturned in what one should know about the inner sanctum of jazz theory. The most fruitful information is generally derived from the source and that is the essence of this book. This book is connected to the music of our Jazz Masters. Even the mature musician will find information here. Truly a magnificent accomplishment. This book will help move the understanding of jazz theory and harmony into the 21st century. It is really user-friendly and is written in a clear and comfortable style. Again, a great job! Insightful and very well thought out. I think this is the book every musician should own. The Jazz Theory Book covers a wide range of very useful material. It is quite thorough and complete. Mark never loses sight of the fact that you use theory in order to play and compose music. Simply a great book. The conversational tone of all the text gives the student the feeling of learning from a friend rather than an authoritarian figure. Specific examples using familiar tunes make it easy to understand the subject being discussed. Applying the information in practice is, of course, the challenge, but all you need to know is here. A must for all keen jazz musicians "Excellent Tutor" For those who want to teach themselves Jazz Theory this book is excellent. If it is followed and all the exercises done, it gives a really good grounding in jazz theory. Contact us for submission guidelines. Jazz Piano Notebook Series.
