Samuel Cozzens ; rpt. Do you ask me why, if these assertions are true, the Territory of Arizona is so little known? Why her mining wealth is, as yet, undeveloped by the present age? Let me tell you. The mines are mostly situated in the western and northern portions of the Territory, in the midst of the Apache country. It resembled the incarnate shrieks of ten thousand devils holding high carnival over the agony of some lost soul. It is a very palatable article of food, and is undoubtedly a specimen of the unleavened bread mentioned in Scripture. Hundreds of trees lay here, and had been converted by some chemical process into specimens of variegated jasper. One tree that we saw measured ten feet in diameter, and was over a hundred feet in length. Some looked as if they had been charred by fire; their trunks were of a dark brown color, while the smaller branches and twigs were of a reddish hue. Who should divine the cause? Who tell the history of the prostrate forest? How long has it there existed, and how many more centuries will it lie there undisturbed? We brought away some beautiful specimens, although, owing to the depredations of our Apache friends, we were somewhat short of means of transportation. Parker feelingly alluded to the loss of his horse, and the miseries of a pedestrian life through such a rough country, and urged us, in case we should observe any appearance of petrification about him, not to leave him by the road-side, for the purpose of petrifying the traveller who came after us, but to give him Christian burial; and that for a headstone we should use a piece of the rock on which he split, with this inscription thereon: Now "Jim" Davis is a character, even in Arizona. Still, these years were regarded as quiet ones. And thus I was enabled to pursue my explorations in the Territory with but little annoyance during that time, especially as the since renowned Cochise was persuaded to act as my guide through portions of the Apache country rarely pressed by the foot of a white man. The aroya, which but a few hours before was parched and dry, was now filled nearly to the top of its banks with a torrent of dark, muddy water, rushing along at the rate of ten miles an hour, overturning immense rocks, and bearing upon its black and seething bosom trees, bushes, and stumps without number. Parker remarking that "there was little fear of our being salted for looking back, though if there ever was a place closely allied to old Sodom, it was Tucson. Their discipline when on their excursions is splendid, quite equal to that of any army or civilized soldiers, while their ability to endure the hardships and discomforts of a campaign is far superior to that of white men. The houses are situated on a slight eminence, and are about three or four hundred feet apart. They are built of species of concrete, made of mud and gravel, while the timber, or rafters, used in their construction, are of cedar, and well preserved. The largest of these was, undoubtedly, at the time it was built, four stories in height; and there are walls now standing, to the height of fifty feet. In , more than a hundred years later, Father Font describes them. Bartlett describes them as he found them in The writer found them in about the same condition in , with the exception of the south wall, no part of which was then standing; all the remaining walls have upon them the hieroglyphics of ambitious Americans, who have greatly defaced the smooth polished surface by inscribing their names or marks upon them. We were rather desirous of visiting the ruins on the Salinas , about forty miles above those of the "Casas Grandes"; but after repeated assurances from Mr. John and our Pimo guides, that the visit with so small a party would be the height of imprudence, and not caring to risk an encounter with the Apaches, we reluctantly turned our backs upon the ruins, en route once more for the Pimo villages, which we reached on the evening of the next day. In , Aubrey set about organizing an expedition to visit the gold bearing portion of Central Arizona; but, before completing the undertaking, he was killed in a broil at Santa Fe. As we stood beside the body, which, but an hour before, we had seen so full of life and activity, we could but feel that we had tarried at Tucson quite as long as we cared to, and were nothing loath to take our leave. We made no inquiries into the cause of the difficulty. The verdict of the people was, that Colonel Robinson was justified, and no further notice was taken of the affair. We had learned the lesson never to see or hear in Arizona, and it had more than once served us a good turn. To do this, however, they are sometimes obliged to crawl for a mile upon their bellies through the tall grass. After reaching the animal which they desire, they quietly unfasten his picket-pin and stealthily draw themselves up upon his side,

clinging to his neck with their arms, thus effectually interposing his body, so as to act as a shield between them and his owner. While in this position they gradually and surely succeed in getting out of rifle range; then urging their prize into a gallop, they are soon out of sight, leaving the owner to wonder where his animal could have strayed to so suddenly.

The protagonist of the novel is an orphan boy called Tip. For as long as he can remember, Tip has been under the guardianship of a cruel Wicked Witch named Mombi who is the main antagonist and lives in the northern quadrant of Oz called Gillikin Country. Mombi has always been extremely mean and abusive to Tip. Mombi tells Tip that she intends to transform him into a marble statue to punish him for his mischievous ways. In order to avoid being turned into a marble statue, Tip runs away with Jack that very same night and steals the Powder of Life. He uses it to animate the wooden Sawhorse for Jack to ride. The Sawhorse runs so quickly that Tip is left behind. Jinjur and her crew invade the Emerald City, terrorize the citizens, and loot the city, causing great havoc and chaos. On their way back, they are diverted by the magic of Mombi whom Jinjur recruited to help her apprehend them. The Queen of the field mice allows the Scarecrow to take twelve mice concealed in his straw. When the party reaches the Emerald City, Jinjur and her soldiers imprison the group and lock them away. However, they still occupy the grounds of the city, and the palace is surrounded. The travelers are imprisoned in the palace. Tip uses the powder of life to animate this machine, which is assembled from the palace furniture, and they fly off, with no control over their direction, out of Oz. The nest contains a large amount of paper money, with which the Scarecrow can be re-stuffed. She also informs them that Ozma is the rightful ruler of the Emerald City and all of Oz in general, not the Scarecrow who did not really want the job anyway. The crooked woman tries to deceive them by disguising a chambermaid named Jellia Jamb as herself which fails, but manages to elude them as they search for her in the Emerald City. Just as their time runs out, the Tin Woodman plucks a rose to wear in his lapel, unaware that this is the transformed Mombi. Glinda discovers the deception right away and leads the pursuit of Mombi, who is finally caught as she tries to cross the Deadly Desert in the form of a fast and long-running griffin. Under pressure from Glinda, Mombi confesses that the Wizard brought her the infant Ozma, whom she transformed into. At first, Tip is utterly shocked and appalled to learn this, but Glinda and his friends help him to accept his destiny, and Mombi performs her last spell to undo the curse, turning him back into the fairy princess Ozma. The restored Ozma is established on the throne after defeating Jinjur and her army. The forgotten prophecy is finally fulfilled and Oz is politically whole once more, with Ozma in her rightful position as the child Queen of Oz. Stage Elements[ edit ] The Wonderful Wizard of Oz had been transformed into a stage play, and several elements of the sequel book were clearly incorporated with an eye to it also being adapted for the stage. Baum wrote a stage adaptation called The Woggle-Bug that was produced in Chicago the summer of Baum had wanted Fred Stone and David Montgomery to reprise their roles as the Scarecrow and Tin Woodman for the second show, but the two refused, fearing typecasting, and the characters were omitted completely from the play. The play was not successful. The film was recently recovered, but the soundtrack of the second reel is missing. The Wonderful Land of Oz was a studio-bound production from independent filmmaker Barry Mahon, which starred his son, Channy, as Tip. Mahon had previously produced nudie films; however, those films were made in New York, while Oz was made in Florida, and neither Caroline Berner as Jinjur nor the rest of her army were drawn from his former casts. Elements from this novel and the following one, Ozma of Oz, were incorporated into the film Return to Oz featuring Fairuza Balk as Dorothy. Although the adaptation was faithful overall, much of the plot had to be sacrificed to fit the story into a one-hour time slot, and Dr. Nikidik was added to the storyline and refashioned into a lord played by Jonathan Winters. This play stayed close to the novel, eliminating some stage-difficult moments and expanding the role of Jellia Jamb. The professional and community theatre rights to the play are currently available. The Woggle-Bug script has not been published, though it has been preserved on microfilm. Its songs were published, and a collected volume was published by Hungry Tiger Press in . The book was out of print for a while, but is now available again. In , the Windham Classics text adventure game The Wizard of Oz adapted much of the plot of this book, however it did not include the bespelled Ozma. The Land of Oz is an upcoming independent film based on this book. Unlike the original book, however, Dorothy is the protagonist rather than Tippetarius.
