A May queen is selected from a group of 13 upward girls by the young dancers. She returns the next year to crown the new May Queen and stays in the procession. The largest event in this tradition in modern Britain is the Beltane Fire Festival in Edinburgh, Scotland.

You see who they were and what they did and why it was important to them. You can follow the process. Not so with Fawnthorpe. Fawnthorpe was a student of St. This college was a school dedicated to training of female teachers. Hmm, a guy trained to teach boys is a head of school training girls. Ok, what else is Fawnthorpe known for? A little book called Household Science: So the guy who trained women to be teachers also wanted them to be domestic goddesses? It all started with Ruskin. Among many great things that he was, Ruskin was weird. He held very bizarre view concerning feminine purity and innocence. I suspect that the world still suffers because of these ideas. Faunthorpe was Ruskins friend and admirer and following these strange perceptions, he organized the May Queen Festival, where a girl would be crowned as a May Queen. It was a celebration consisting of pageants, dances, processions, fun and games. An enormous amount of preparations go into these. This festival is celebrated to this day, even that since it is allowed to choose a King instead of a Queen. It all looks pretty and fun, a venerable tradition if I ever seen one. So, what was with you Faunthorpe? How did Ruskin roped you into it all? So how do you interpret Fawnthorpe? An enlightened educator or a relic of outmoded thinking? A co-conspirator to other man fantasies or just a guy that wanted to use the occasion to do something nice for young women under his care?

Its significance in the wheel of the year is not that it is the first of the month the same day was celebrated when calendars were different. In the Faith of Our Mother God, it falls exactly in the middle of the month of Maia , and is the day of the Exaltation of the Queen of Heaven sometimes called the Coronation. Despite long millennia of patriarchal religion, traditional May Day celebrations reflect this true meaning of May Day. The most notable of these are the crowning of the May Queen and the Maypole Dance. The significance of the crowning of the May Queen is obvious as a re-enactment of the coronation of the Queen of Heaven. It is also clear why the May Queen must be a virgin. To understand the meaning of the beautiful May Day Maypole tradition, we have to go a little deeper into the spiritual meaning of this beautiful festival. God the Daughter traditionally has three titles. And they may also be understood in terms of the World Axis, which passes through the Three Worlds of Heaven, Earth and the Netherworld. As sacrificial Priestess, Our Lady descends into the Netherworld in the Eastre Event and is slain and hanged, as the Scriptures quite specifically state "upon the pillar of the world". Thus the first of her Sacred functions takes place at the lowest point of the World Axis. After Her resurrection, she returns to the Middle World where she first came at her earthly birthtime of Nativity and takes up her full royalty as Princess of the World. Here she stands at the center of the Middle World upon the Axis as its ruler. When we understand this, we can also understand the ancient May Day Maypole Dance. The pole, of course, represents the world axis itself. It is often crowned with flowers, because the place of Our Lady is now at the summit of the World-Axis, from whence She reigns over earth and heaven. May Day has been an important festival throughout history. Her rulership is depicted in the colored ribbons that extend from the crowned summit of the World-Axis to the plane of Middle World. The different colors of the ribbons depict the different "qualities" of material existence. These qualities, as they emanate from their Divine Source are perfect Archetypes pure colors. It also gives us "maid" â€” the feminine name for humanity as a whole. The Maypole Dance is a dance in celebration of Her enthronement, and also of its effect on ourselves maid. Each of us is connected to Her. Each of us is the terminal point of a stream that has its source in Her; a thread that leads back to the absolute Center of all being. If each individual fulfills her part in the Celestial Dance, never forgetting her essential attachment to the Center, then the Golden Order of Heaven is reflected on the Middle World below. The title Queen of Heaven is of great antiquity. Not only was it used by the ancient Hebrews who refused to convert to the new masculine cult Jeremiah 7: The re-adoption of this title by the Catholic Church was simply the acceptance of an Archetypal Reality that was too strong to resist: Let us rejoice in the words of the Scripture: Wheel of the Year In terms of the Wheel of the Year , the Exaltation of the Queen of Heaven represents the final and culminating festival of the quarter-year Eastre Cycle. It is also the final High Feast of the Daughter Half of the year. The parallel early winter festivals that come at the end of the Mother Half, while centering on the Mother, are concerned with the coming of the Daughter. Mythology[change change source] The May Queen is also known as The Maiden, the goddess of spring , flower bride, queen of the faeries , and the lady of the flowers. The May Queen is a symbol of the stillness of nature around which everything revolves. She stands for purity , strength and the potential for growth, as the plants grow in May. She is one of many personifications of the energy of the earth. She was once also known as Maid Marian in the medieval plays of Robin Hood and of the May Games - she is the young village girl, crowned with blossom , attended by children with garlands and white dresses. Some folklorists have drawn parallels between her and Maia , the Roman Goddess of Springtime , of Growth and Increase whose very name may be the root of "May". The May Queen is a girl usually a teenage girl from a specific school year who is selected to ride or walk at the front of a parade for May Day celebrations. She wears a white gown to symbolise purity and usually a tiara or crown. Her duty is to begin the May Day celebrations. She is generally crowned by flowers and makes a speech before the dancing begins. Certain age groups dance round a May pole celebrating youth and the spring time. According to popular British folklore, the tradition once had a sinister twist, in that the May Queen was put to death once the festivities were over. The veracity of this belief is difficult to establish, but while in truth it might just be an example of anti-pagan propaganda, frequent associations between May Day rituals, the occult and human sacrifice are still to be found in popular culture today. The Wicker Man , a cult horror film starring Christopher Lee , is a prominent example of this. An Elizabethan account[change change source] In , a diarist called Henry Machyn wrote: On the 30th May was a jolly May-game in Fenchurch Street London with drums and guns and pikes , The Nine Worthies did ride; and they all had speeches, and the morris dance and sultan and a elephant with a castle saddle in the shape of a castle and the sultan and young moors with shields and arrows, and the lord and lady of the May". A May queen is selected from a group of 13 upwards girls by the young dancers. She returns the next year to crown the new May Queen and stays in the procession. This May Day celebration began in and is approaching one hundred and forty years of age. May Queen is the name of a ketch-rigged trading vessel built in at Franklin, Tasmania. She had a year working life and is the oldest boat of her type afloat in the world. She is on the International Register of Significant Ships. May Queen is a Richard Thompson song on the Still album.
