

1: Green Guide London : Michelin :

London: prepare your stay with the Michelin Green Guide. Useful info, unmissable tourist sites, hotels and restaurants - London Europe's largest city and capital of the United Kingdom is cosmopolitan and surprising in a way which never fails to draw in and seduce its visitors.

Non-restaurant food[edit] In , Michelin introduced a separate listing for gastropubs in Ireland. One fork and spoon represents a "comfortable restaurant" and five signifies a "luxurious restaurant". Forks and spoons coloured red designate a restaurant that is considered "pleasant" as well. Restaurants, independently of their other ratings in the guide, can also receive a number of other symbols next to their listing. Coins indicate restaurants that serve a menu for a certain price or less, depending on the local monetary standard. Interesting view or Magnificent view, designated by a black or red symbol, are given to restaurants offering those features. Grapes, a sake set , or a cocktail glass indicate restaurants that offer, at minimum, a "somewhat interesting" selection of wines, sake , or cocktails , respectively. There is a Green Guide for France as a whole, and a more detailed one for each of ten regions within France. Other Green Guides cover many countries, regions, and cities outside France. Many Green Guides are published in several languages. They include background information and an alphabetical section describing points of interest. Like the Red Guides, they use a three-star system for recommending sites ranging from "worth a trip" to "worth a detour", and "interesting". He maintained that the guide had become lax in its standards. That number, he said, had shrunk to five by the time he was fired in December He alleged that Michelin treated famous and influential chefs, such as Paul Bocuse and Alain Ducasse , as "untouchable" and not subject to the same rigorous standards as lesser-known chefs. He did acknowledge that the restaurant received positive mention for its ambience, and that two other restaurants owned by Meyer received stars. Kurutz also claimed the guide appeared to favour restaurants that "emphasized formality and presentation" rather than a "casual approach to fine dining". He also claimed that over half of the restaurants that received one or two stars "could be considered French". This sparked questioning over whether these high ratings were merited for Japanese restaurants, or whether the Michelin guide was too generous in giving out stars to gain an acceptance with Japanese customers and to enable the parent tyre-selling company to market itself in Japan. Casa Julio Fontanars dels Alforins, Spain: After receiving a star for a perfumed cuisine in , the restaurant chef Julio Biosca felt the award was granted to dishes that he did not like and restricted his creativity, and tried to remove his star and in December , discontinued his tasting menu. The removal took place in the guide. After receiving a star in , founder and chef Skye Gyngell received complaints from customers expecting formal dining, leading to her attempt to remove the star, and subsequent retirement from the restaurant. After receiving a star in , chef Frederick Dhooge said he did not want his Michelin star or his points in the Gault-Millau restaurant guide because some customers were not interested in simple food from a Michelin-starred restaurant.
