Start now Become a member MathHelp. Unlike a traditional math classroom, we offer the one-on-one learning experience that every student needs to conquer Pre-Algebra. He is in 7th grade, and I was really struggling to teach the pre-algebra and algebra that he had moved on to, so I knew I needed help! It is super user friendly, and it packs a lot into the lessons. My son is flying through the pre-algebra because he self-tests out of sections he knows he is strong on and I expect he will be moving onto algebra part way through the year. He keeps telling me that math is going great! I keep track of what he does on-line with his grades and I score his tests, etc. Comprehensive instruction throughout every lesson Every lesson includes videos, guided practice, self-tests, and more! Background lessons If you are struggling on a particular topic, we offer relevant background lessons to rebuild your math foundation! Grade reporting and progress tracking We offer detailed grade reporting and progress tracking to keep on task while completing your Pre-Algebra curriculum! My daughter had been doing well in math, but all of a sudden fell off a cliff. She was sad and losing confidence in herself. I realized quickly that I needed to find an alternative way to teach her Pre-Algebra. I found your course, and we started Pre-Algebra over from the beginning. Before you know it, she had mastered the entire course and was ready for Algebra 1! I just love your program and I have improved a lot. What a great help! I recommend this website whenever I can. Instruction is precise, concise and no b. You guys really have a great tool. Your Pre-Algebra help has made showing her how to do something so much more enjoyable for the both of us. I must say that the program is terrific so far. It clarifies and reinforces what my son is learning. I should mention that HE is the one who wanted to subscribe! They are both using Glencoe text books and it is a great supplement to those text books. Both girls have enjoyed using your site, and found it particularly helpful when they were preparing for final exams in January. The explanations and examples you give make learning Pre-Algebra so much easier – especially for visual learners. I have recommended your site to so many people. It saves me time not having to do relentless searches for 30 minutes or more on the internet to help my kids with their Pre-Algebra. Needless to say, your program is far more economical and she has benefitted. I also use it for myself to refresh my memory so that I can help them with homework. I plan to renew my subscription. I have also highly recommended the website to friends. Thanks again for the wonderful service you provide. I was also presently surprised that the product was represented honestly. The same day I purchased our membership, my son and I sat for two hours and completed an entire Pre-Algebra lesson with all the supplemental activities. After we finished, my son said that the instructor on the video was better than his teacher and he understood everything. The lessons are easy to locate, and have been very helpful in teaching my middle school child pre-algebra. The videos are clear and concise, the example material is easy to understand, the tests are scored and the practice documents are extremely helpful. I would highly recommend this site for homeschoolers and have written a review on my blog for this site. Thank you to the developers!!!! I used to be in regular Pre-Algebra but I moved up to advanced and the math there seemed pretty difficult. But thanks to you guys I think I can pass this upcoming test and stay in advanced Pre-Algebra. I thought I was doomed, then I found this site. It gives you Pre-Algebra help for everything from subtraction to properties to algebra. I definitely recommend this site, because it is great for reviewing previously learned skills. I wish I could thank you in person! I will definitely use this more during the school year! Start now by clicking on a lesson below!
