Pages Mini Shopaholic is the sixth book of Shopaholic series. It is a chick-lit novel by Sophie Kinsella, a pen-name of Madeline Wickham. Their young daughter, Minnie, exhibits behavioural problems and seems to be incapable of being controlled by either parent. For example, she has been banned from four different Christmas grottos because of her naughty behaviour. He tells Becky that they are already having trouble controlling Minnie and he is unable to even contemplate having another child. In addition to the difficulties of raising Minnie, Becky is also planning a surprise party for Luke. In her efforts to keep it a secret from Luke, she encounters several obstacles. Becky keeps her encounters with his mother a secret from Luke as they have a hard time getting along. Luke staunchly denies it, admitting he was offended for an insult Elinor made about Annabel before her death and the mistreatment that she gave Becky over the years. Later on, Becky also faces estrangement from her own parents after an argument she has with them. The three go days without talking to each other. In a subplot, Jess and Tom have secretly gotten married in Chile. They are considering adopting their first child, but Janice is against it and insists they get a biological child first before adopting. She attempts to lace their drinks out with drug induced euphoria to get them to conceive a biological grandchild for her. The first attempt is a failure which Jess and Tom both tell Janice to mind her own business. Becky is about ready to give up on the surprise birthday party, which is in shambles. She is stunned that she would help her, but accepts it so Luke can have his birthday party. In a moment of vulnerability, Elinor apologizes for insulting Annabel and realizes she was more of a real mother to Luke than her. After coming home, Becky finds out and is infuriated with him for not consulting her about it. Becky admits she had been talking to Elinor about similar behavioral problems with Minnie and this angers Luke. However, Becky is nervous when Nanny Sue mentions that her parents asked her to confront her as a favor to them. She is the first person to ask Becky if she considered that she may have a shopping addiction. Feeling betrayed by her own daughter, Becky finally admits to Nanny Sue that she does and everything else in the matter. She reveals it was because of her addiction to shopping, inability to take responsibility for herself and fighting with Minnie for an expensive toy pony she wanted, are the real reasons they had been banned from previous Christmas grottos. Becky realizes the woman she had been talking to at the mall had been Nanny Sue with children of her own. Nanny Sue suggests that she and Luke begins Minnie on a strict regime of discipline similar to what Elinor had told Becky. She also suggests that Becky undergo "Shopaholics Boot Camp" and join a support group for shopaholics. Afterwards, Becky asks Luke to reconsider about having a second child and he does. They however must deal with the surprise birthday party along with the two million people who know about it and of which Becky had tried to keep a surprise. Now reformed of her previous behavior, Becky reconciles with Graham and Jane and apologizes. She tells Janice not to interfere in their lives and be more open minded with their choice. She bargains with Janice to ease up on trying to make Jess and Tom have a natural child first if she allows them to adopt their first child. The book ends with Luke asking Becky if she would like to come to L.
