This week, I want to talk about the next one on the list. One of the key principles that I heard impacted girls growing up was seeing their dad modeling and living out an authentic faith in God. You are her first and most effective teacher. The launch she gets in life will largely be determined by what she learns in her home classroom. Here is an incomplete list of the things that a daughter can get from a dad who lives out an authentic faith. She learns about giving as her parents give away their time, talent and treasure. As she sees her dad humble himself in prayer, she learns the value of a Big God who is involved. As her dad takes her to church she learns the value of community. As her dad lives out and incorporates scripture into the family, she learns valuable biblical lessons. A Godly life, home and family is the best way to go. As you love and serve your God, you will bring people closer, love more freely, feel more deeply, and live more abundantly. These are all things I want for my daughter. Obtaining these things will help pave the way and set a healthy trajectory for her. YOU must live it out on a consistent basis or your words will be cheap and hollow. Do you want your daughter to live out the characteristics I have described above? It might seem a little odd for me to challenge your spiritual life in a parenting blog. However, it is based on real data I received from high quality young women. They spoke over and over about the huge impact they received by watching and experiencing their dads living out their own authentic faith. Look into your own life and heart. Give some thought to how much space in your heart you have given Jesus. Look for ways to turn over more and more of your life to what God has for you. Your daughter receives a huge benefit by you stepping up in your spiritual life. The topic today was one of the top three!

"My Father's Daughter" is an interesting book by the youngest of Frank's three kids, Tina. Tina was quite a bit younger than her siblings Nancy Jr. and Frank Jr., so she had very little time living in the same household with her father, as Frank had left to marry Ava Gardner while Tina was still a baby.

No one in this world can love a girl more than her father. Ordinary father-daughter love had a charge to it that generally was both permitted and indulged. There was just something so beautiful about the big father complementing the tiny girl. Bigness and tininess together at last—yet the bigness would never hurt the tininess! In a world in which big always crushes tiny, you wanted to cry at the beauty of big being kind of and worshipful of and being humbled by tiny. One of the greatest things about daughters is how they adored you when they were little; how they rushed into your arms with electric delight and demanded that you watch everything they do and listen to everything they say. And yet, you will adore your daughter every day of her life, hoping to be valued again, but realizing how fortunate you were even if you only get what you already got. Having a daughter makes you see things in a different way. This is my only girl. You can call it what you want to call it. Certain is it that there is no kind of affection so purely angelic as of a father to a daughter. In love to our wives there is desire; to our sons, ambition; but to our daughters there is something which there are no words to express. They say that from the instant he lays eyes on her, a father adores his daughter. Whoever she grows up to be, she is always to him that little girl in pigtails. She makes him feel like Christmas. In exchange, he makes a secret promise not to see the awkwardness of her teenage years, the mistakes she makes or the secrets she keeps. Watching your daughter being collected by her date feels like handing over a million-dollar Stradivarius to a gorilla. He opened the jar of pickles when no one else could. He cut himself shaving, but no one kissed it or got excited about it. It was understood when it rained, he got the car and brought it around to the door. When anyone was sick, he went out to get the prescription filled. He took lots of pictures—but he was never in them.

Not because the book was bad - far from it. So, deep breath, here goes. My Fath This is an extremely difficult review to write. Hannah was born in a small village in a remote part of Eritrea but, when her mother died giving birth to her, spent the first few months of her life in an orphanage. She was soon adopted by a white British couple and taken to live in Manchester in the UK via extended stints in Sudan and Norway , always believing that both her parents were dead. One day, though, she receives a letter from her brother in Eritrea and discovers that her father is, in fact still alive. This book describes those experiences. As you can imagine, this all makes for a pretty intense read. I have felt more emotionally involved watching Eastenders"; "Suddenly I am gripped by a Daily Mail-like panic" , which serve to lighten the mood. She successfully explores all kinds of issues which people who have not had her experiences for example, me may not even have thought of as "issues. Nothing is too uncomfortable for her to examine and at the end of the book I was left with an overwhelming admiration for the huge strength of character she shows in laying all this out in the open for anyone to read. And now for the difficult bit. I am not going to give five stars. This is nothing to do with the content of the story, which is gripping. It also has nothing to do with the way the author expresses herself, which is lucid, clean and entertaining or with the emotional content involved I really struggled to look nonchalant when reading on the bus. The only reason I am knocking it down albeit not much is because I felt that towards the middle of the book the pace suffered slightly through a little too much introspection. The self-examination is essential to the book and is one of its great strengths. However I did feel that a short section when Hannah is in a hotel in Asmara, waiting to meet her family, could have been shortened slightly just to keep the "story" moving. That is the only thing I would change in this book. Hannah Pool has written an eye-opening, fascinating and intensely honest and moving account of meeting her birth family for the first time. I admire her courage enormously: I challenge anyone to read this book and remain unmoved.

Such a warm and sweet book in almost every way. Most biographies have a hard time humanizing someone as big as Sinatra. His daughter has no such trouble. At the same time, you find out what an interesting person the daughter is too. Tina Sinatra manages Very sweet tribute from a daughter to her titan of a father. Tina Sinatra manages to write a book that brings out a side of the chairman of the board that most people would never imagine. She does not sugar coat his flaws as a father or a husband, but she clearly forgives them and sees her dad as a whole person while still adoring him. I think I learned more about Sinatra the man from this book than any other book I have ever read that involved him. He was such a different person with his family than he was with anyone else in the world. You see the human, you see the conflict within him from religion, to infidelity, to his career ups and downs and his very sad and twisted final marriage seriously --you want to talk wicked stepmother? That is probably the main "juicy" component to the book. I personally just found it very sad. To think of such a powerful and talented man, becoming dominated by this terrible and honestly incredibly typical gold digger is extremely sad. This is not a "dishy" book; Tina describes her father warts and all, yet preserves his dignity with the respectful eye of a true reporter. I felt sad throughout the book. Frank Sinatra seemed like a haunted man. He certainly enjoyed the high life, but there was a pervasive, underlying sense of depression during his life. His home life as a boy was probably emotionally damaging, and then of course the trappings of fame and unbounded wealth I kept wishing he had stayed with his first wife. They seemed so well-suited and certainly his children would have benefitted. Frank was handsome, gregarious, famous, talented, feted worldwide, admired, wealthy - and unhappy deep down. Tina wrote so vividly and tenderly I could really picture the church, the flowers, the music - aah, the music. It must have been a beautiful send off. RIP, Frank - there will never be another one like you.
