A great way to show some puppy love is to bake homemade dog treats. This is one of our favorite recipes from [www](#). A basic cut out dough, there are heart cookie cutters aplenty in your local grocery store. **Homemade Dog Biscuit Recipe:** Preheat the oven to F degrees. In a medium bowl, stir together the flour, oats and flaxseed. Mix well, adding additional beef broth if necessary to bring the mixture together to form a thick dough. Form a ball and turn out onto a lightly floured surface. Bake for 20 minutes or until golden brown, flipping halfway. Can be kept in an airtight container for about a week. Makes approximately 1 dozen. You will find this is a very forgiving recipe for even the most challenged baker. Feel free to play around with the ingredients. You can add a handful of parsley for breath improvement, garlic for heart health, or an egg for additional protein. Here is a 3-ingredient recipe brought to you by [www](#). Preheat oven to F degrees. Pulse undrained salmon in a food processor, or chop as small as possible. In a medium bowl or stand mixer, combine salmon, the beaten egg and two cups of whole wheat flour. Add water if too thick or additional flour if the dough is too sticky. Cut out shapes with cookie cutters we like a small fish one. Place treats on a parchment-lined baking sheet and bake at for about 20 minutes. When edges are brown, they are done. May be stored in an airtight container for up to 2 weeks. A Wonderful Valentines Day to you and all of your Valentines!
