But I was a freshmen in High School, I was playing soccer for my churches club team. One of our guys just blindly kicks the ball out of our end towards their goal. I see the ball is going to bounce between us. It happens almost exactly as I saw it in my head. The ball bounces, I jump. I see the guy I see the ball, I see the look shock and horror in his eye when I head it exactly where I want. See visualized that play, I knew a lot about soccer, I knew about my ability, I knew his position. See the guy was also a linebacker for his high school football team. When he saw me in the air. He just went into a diving shoulder tackle and took me out a the ankle. I landed on my head and shoulder, the result was a concussion and a separated shoulder. Worse to a very competitive teenage male, we lost the game. But the good thing about games is that there is always another one. Fast forward a couple of months. Guess who we play. They were better then us, but maybe not on that day. Bam lower right corner, past the goalie. Now you have to understand what happened next. The arms when up, a yell went out. My team was screaming, it was awesome. We have a word for a moment like that, celebration. I bet you remember. Our lives should be marked by celebrations. Is your life marked by an attitude of celebration? Think of all that you have to celebrate. The God of the universe loves you, and paid the price so that you can live life empowered by Him. Today our key passage is going to look at a celebration that David had. When those who were carrying the ark of the LORD had taken six steps, he sacrificed a bull and a fattened calf. David, wearing a linen ephod, danced before the LORD with all his might, while he and the entire house of Israel brought up the ark of the LORD with shouts and the sound of trumpets. They brought the ark of the LORD and set it in its place inside the tent that David had pitched for it, and David sacrificed burnt offerings and fellowship offerings, he blessed the people in the name of the LORD Almighty. Then he gave a loaf of bread, a cake of dates and a cake of raisins to each person in the whole crowd of Israelites, both men and women. And all the people went to their homes. But by these slave girls you spoke of, I will be held in honor.

There were great gobs of scenes that never made it to the film. There was a whole strange and mystical scene in which Jack Nicholson discovers objects that have been arranged in his working space in the ballroom with arrows and things. He walks down and thinks he hears a voice and a ghost throws a ball back to him. None of that made it to the final film. We scored a lot of those. Her own music was released in its near entirety in as part of her Rediscovering Lost Scores compilation. Post-release edit[edit] After its premiere and a week into the general run with a running time of minutes , Kubrick cut a scene at the end that took place in a hospital. The scene shows Wendy in a bed talking with Mr. This scene was subsequently physically cut out of prints by projectionists and sent back to the studio by order of Warner Bros. As noted by Roger Ebert: If Jack did indeed freeze to death in the labyrinth, of course his body was found "and sooner rather than later, since Dick Hallorann alerted the forest rangers to serious trouble at the hotel. Was it never there? Kubrick was wise to remove that epilogue. It pulled one rug too many out from under the story. At some level, it is necessary for us to believe the three members of the Torrance family are actually residents in the hotel during that winter, whatever happens or whatever they think happens. European version[edit] For its release in Europe, Kubrick cut about 25 minutes from the film. Jackson and Burton are credited in the European print, despite their scenes being excised from the movie. According to Harlan, Kubrick decided to cut some sequences because the film was "not very well received", and after Warner Bros. Two alternative takes were used in a British television commercial. The placard also said that the film was edited for television and warned about the content. On British television, the short version played on Channel 4 once and on Sky Movies numerous times in the mid-nineties. Nevertheless, most DVD releases show the English version, disregarding the dub language. She also provided an audio commentary track about her documentary for its DVD release. It has some candid interviews and very private moments caught on set, such as arguments with cast and director, moments of a no-nonsense Kubrick directing his actors, Scatman Crothers being overwhelmed with emotion during his interview, Shelley Duvall collapsing from exhaustion on the set, and Jack Nicholson enjoying playing up to the behind-the-scenes camera. It opened at first to mixed reviews. Director Martin Scorsese placed *The Shining* on his list of the 11 scariest horror films of all time. Who is the reliable observer? Whose idea of events can we trust? Many of the same reviewers who lambasted the film for "not being scary" enough back in now rank it among the most effective horror films ever made, while audiences who hated the film back then now vividly recall being "terrified" by the experience. *The Shining* has somehow risen from the ashes of its own bad press to redefine itself not only as a seminal work of the genre, but perhaps the most stately, artful horror ever made. The confinement is palpable: The film sets up a complex dynamic between simple domesticity and magnificent grandeur, between the supernatural and the mundane in which the viewer is disoriented by the combination of spaciousness and confinement, and an uncertainty as to just what is real or not. One of the things that horror stories can do is to show us the archetypes of the unconscious; we can see the dark side without having to confront it directly". Parts of the film are chilling, charged with a relentlessly claustrophobic terror, but others fall flat. So he looked, instead, for evil in the characters and made the film into a domestic tragedy with only vaguely supernatural overtones. That was the basic flaw: King, he believes, "feels too much and thinks too little". However, King finally supervised the television adaptation also titled *The Shining* , filmed at The Stanley Hotel. Nonetheless, writing in the afterword of *Doctor Sleep* , King professed continued dissatisfaction with the Kubrick film. He said of it " If you have seen the movie but not read the novel, you
