As you listen, note specific difficulties with sounds or patterns and use these as areas of focus for further lessons. The goal is not to eliminate accents, but to help students to make themselves readily understood. Model clear speaking and use repetition. Demonstrate the mechanics of how each individual sound is produced placement of lips, tongue, teeth. Clap or count syllables and stress. Even correctly pronounced words and sentences can be misunderstood if the inflection is not consistent with standard English. Encourage students to slow the pace of their speech so that they will be more understandable. There are many useful pronunciation guides on the web, such as English Club. What is the best way to approach English grammar? We recommend you address grammar using real-life, content-based material such as the ESL newspapers, recorded television programs, student writing, role-playing conversations, etc. Have the students identify idioms or grammar forms that are confusing to them, then use those forms to model other examples and construct exercises. Limit your focus to one or two points per session, give ample opportunity for practice and review often. Create a comfortable atmosphere for students to take the initiative in asking for clarification. Leave time for questions and wait longer than usual for responses to questions you ask. For each lesson make your aim, structure, main points and transitions clear. Let students know when something is very important. Take the last two minutes of class and ask students to write what they learned and what they are still unsure of, collect them and use their questions as a starting point for the next class. How can I help? Exposure and practice are the keys to learning a new language. Use your creativity to devise tasks, role-plays, or field trips that require more English practice. It is often taught by both native English speakers and local experts, although native English speakers are generally considered preferable. Teaching English as a Second Language The teaching of English in an environment where English is the predominant language, to someone whose first language is not English. English as a Foreign Language The study or learning of English in an environment where English is not already the predominant language, such as in a non English speaking country, by someone whose first language is not English. English as a Second Language The study or learning of English in an environment where English is the predominant language, by someone whose first language is not English.

Check out this helpful teacher tip! Teachers can reinforce the role conjunctions play in sentences by showing students how the conjunction dictates the answer in certain questions. For example, check out the questions in the diagram below. Look how the conjunction dictates the answer in each question. Notice that when the conjunction is and the correct answer is love. This is because the connotation of the first clause is continued. However, when the conjunction is but the correct answer is hate. This is because the connotation of the first clause is not continued in the second clause; it gets inverted due to the role played by the conjunction, but.
