How can you sell books so cheaply? The books we sell are known as bargain books. They are books that either are overstocks from the publishers or ones that went out to a Christian bookstore or major department store and were returned to the publisher when they did not sell. They are not used, though sometimes have cover wear. The publishers sell these at a great discount in bulk. We buy these and sort through them to grade their condition. You will note that many of the books are in new condition, but others have other conditions noted. We try to describe them as accurately as possible. What is a remainder book? A remainder book is a brand new book that the publisher would like to get rid of because of overstock, discontinuing the book, etc. The publisher will sell these books in bulk to bargain book dealers at a low cost, allowing us to sell to you. Some publishers will put a line or dot on the on the bottom outside page edges to indicate that it is a remainder book. This keeps the "new" book prices higher and does not allow retailers to return them to the publisher. Other publishers do not mark them in any way. Some of the books we sell have a remainder mark, but many do not. Please complete the eBay checkout process within 5 days.
