I have since come to consider him one of my favorite vocalists. I love the way he handles the lyrics in this tune. Ever since hearing these songs, I have been a fan of Roy. It was a real tragedy that he died so suddenly after such a terrific resurgence in his career. While we Roy fans were reveling in that fact, suddenly the news we were dumbfounded to hear came on, early December 7th morning. Roy gave his fans everything he had, always, and what a great gift the song was, along with the entire Mystery Girl Album. Who were the guitarists shown in the video at the Diamond Career Awards ceremony? They also appeared to be singing background vocals although lip-synched. It felt like a prophetic farewell song. And the above is a little inside joke, eh? It was a strange slow version. This is the cover version by the band Rooney Love it, along with all of his other songs. Rest in peace Roy. It is released on 7-inch and inch. It contained 3 tracks with Jeff co-wrote, produced and played on, namely, You Got It released as the first single from the LP, reaching No. In the lyrics, co-authored by Jeff Lynne and Tom Petty, Roy assumes his customary posture of supplication in front of his beloved. And it was a great thrill to get to write a song with him when he came to do an album that Jeff was producing. And they invited me over and I met Roy Orbison and on that very day we sat down and wrote this song called You Got It. The goal was to do an album that would truly honor Roy and his music and to present him to the world with a heightened integrity and importance. Roy was always me very favorite singer. Can he do it or is it really him? Got a take in the first three goes, and fixed up maybe one line. And that was it, done. And fantastic, and I was so thrilled. Sadly, Orbison passed away at a new peak in his career, with two unbelievable album collaborations. When he came to do an album that Jeff was producing, they invited me over and I met Roy Orbison and on that very day we sat down and wrote this song called You Got It. It was the Christmas holidays and we were just hanging around playing guitars. And Jeff brought in Roy Orbison. The day we met, the three of us sat down and wrote that song,um, You Got It. And Roy was playing an acoustic. And Tom was playing an acoustic on the floor over to the side. Anything you want, you got it. Come out with that bit and he started playing like We got the chorus first and worked our way out. And then he starts singing it, just softly, never And it sounds like a hit. Wow, this is a hit. And Roy thinks so too. I remember recording it. Off we go and he sings and this He sung at about, like, a thousand dB more than when he was practicing. So we put all these pads in and repair all the windows and stuff. And he sings the song, just like And there it is, You Got It. That still sounds like a hit. I think everyone was rooting for him and having so much interest in him. But his voice just suddenly came alive and it was back to the real Roy Orbison with a passion. After thinking up the lyrics we went in the studio to record it. Earlier I thought Roy must have been singing very loud. Soon I had a chance to know that he was doing it a thousand times louder than I thought! Besides the complete vocals were done in a two, three takes. In 30 short seconds, people wake up, get dressed, ride bikes, wash the car and vacuum the living room. This song is, of course, not by the Traveling Wilburys. I need some help. And we wrote You Got It. I had been on the road for two years backing up Bob. So we were all in the same circle and the group just naturally materialized. He was the leader; the whole idea for the band was his idea. I was so thrilled that I got to write it with him, record it, sing background vocals, mix it, and have it be a great big hit. The words of a man who promises the world and can deliver. And his voice was so just so big. So that was a big thrill for him to have a hit. It was just beautiful, soaring up into the sky. I did some songs with him and we wrote them together, You Got It which was a big hit. It was a big hit. His first hit in over twenty years. He was happy as a [unintelligible]. It was like everything was great. It was still in the charts when he died. Traditionally this would be two separate parts-- with a call lead and answer backup parts-- but Jeff molded Roy into doing

both parts. This took a couple of tries in the studio, but was well worth the effort. And we wrote You Got It on the very first day that he came over. Everything we did was pretty casual. I mean, that was really the best way to get the best music. That was, like, fantastic. It sounded like a hit. There were like dogs, cats, geese and ducks. Just go straight into making a record. That was how I liked to do it. And then put the drummer on second, after the guitars are got down. It was very simple and very, all very much fun. I remember working really hard on the single, on You Got It. Jeff had lots of different ideas that he wanted to put on. I remember pulling up there one day and they had kettle drums and timpani in the garage. It was just such a treat to meet him [and] hear some stories about him, the real stories about how he got going and how he got started and how he ended up like such the best singer in the world. Jeff worked out the song on a small Casio keyboard, while Roy and Tom added acoustic guitars. They wrote the chorus first, and the verses followed quickly after that. The vocals were completed in only three takes, but Jeff told another amusing story about the first take. As they had never recorded with Roy before, they set up the microphone levels while he was practising his performance. When Roy began to record his first take, they had underestimated just how powerfully he would sing the song, and his first take maxed out the equipment. A little reduction in levels was in order, and the basic song was completed within two more takes. All three of them finished the job with backing vocals from Jeff, Tom, and Phil Jones shortly afterwards. In December, having had a heart bypass operation some years previously, he died of a massive heart attack, aged fifty-two. It peaked at No. Even more gratifyingly, You Got It rose to No.

Biography[ edit ] “Lennon twice chose his father, but as his mother walked away, he began to cry and followed her. But I cannot be what I am not The parents instinctively recognised I was a troublemaker, meaning I did not conform and I would influence their children, which I did. There were five women that were my family. Five strong, intelligent, beautiful women, five sisters. One happened to be my mother. Now those women were fantastic And that was my first feminist education I would infiltrate the other boys minds. Parkes recalled, "John, cousin Leila and I were very close. In August that year, the Beatles engaged for a night residency in Hamburg , Germany, and desperately in need of a drummer, asked Pete Best to join them. Like the other band members, Lennon was introduced to Preludin while in Hamburg, [42] and regularly took the drug, as well as amphetamines , as a stimulant during their long, overnight performances. They recorded their debut album, Please Please Me , in under 10 hours on 11 February , [46] a day when Lennon was suffering the effects of a cold, [47] which is evident in the vocal on the last song to be recorded that day, " Twist and Shout ". Early years[ edit ] Harris is from a career military family. Her father, Walter Harris , [2] was a Marine Corps officer, and her mother, Eugenia , [3] was a wartime military wife. Her father was reported missing in action in Korea in and spent ten months as a prisoner of war. She dropped out of college to pursue her musical aspirations, and moved to New York City, working as a waitress to support herself while performing folk songs in Greenwich Village coffeehouses during the s folk music boom. Harris and Slocum soon divorced, and Harris and her newborn daughter Hallie moved in with her parents in Clarksville, Maryland , a suburb near Washington, D. Please help by adding reliable sources. In , members of the country rock group the Flying Burrito Brothers saw her perform; former Byrds member Chris Hillman had taken over the band after the departure of founder Gram Parsons , was impressed by Harris, and briefly considered asking her to join the Flying Burrito Brothers. Instead, Hillman recommended her to Parsons, who was looking for a female vocalist to collaborate with on his first solo album, GP. Later that year, Parsons and Harris worked on a studio album, Grievous Angel. Parsons died in his motel room near what is now Joshua Tree National Park on September 19, , from an accidental overdose of drugs and alcohol. One more album of recorded material from that period was packaged as Live , but was not released until It also featured "Bluebird Wine", a composition by a young Texas songwriter, Rodney Crowell , who was the first in a long line of songwriters whose talents Harris has championed. Two singles were released: Executives of Warner Bros. Harris did so, enlisting guitarist James Burton and pianist Glen Hardin , both of whom had played with Elvis Presley as well as Parsons. Singer-songwriter Crowell was enlisted as a rhythm guitarist and duet partner. The Hot Band lived up to its name, with most of the members moving on with fresh talent replacing them as they went on to solo careers of their own. Elite Hotel , released in December , established that the buzz created by Pieces of the Sky was well-founded. Elite Hotel was a No. Even so, many fans expected more original tunes, so she became known as a cover artist. At the end of , Crowell left the Hot Band to pursue a solo career; his replacement was bluegrass multi-instrumentalist and singer Ricky Skaggs. Rather than mixing classic and contemporary, the album is made up largely of recently written songs, though from a wide variety of writers. During this period, Harris recorded and released three studio albums that reflected a shift toward traditional country at a time when the public was beginning to embrace a more polished Urban Cowboy sound. Harris, Parton and Ronstadt began working on a trio album during this time, though it remained unfinished for nearly a decade; a few of the tracks recorded for the project were released on their respective solo albums in the interim. She also released her follow-up album Cimarron within the same year. Harris moved to Nashville in The album was semi-autobiographical, based loosely on her relationship with Parsons. Harris described it as a "country opera", and a "huge commercial disaster". Kennerley also produced her next album, Thirteen. They married in and divorced in In a snippet of studio chatter included on one of the tracks, she talked during the recording session about her beginnings and how music had changed: And I decided then that was what I was going to do with my life was play music, do music. The living room has gone out of the music, but today I feel like we got it back. It was her last album with Reprise Records. She has been a member of the Grand Ole Opry since The album received virtually no country airplay, but it brought Harris to the attention of alternative rock listeners, many of whom had never listened to her music before. Harris then took her Wrecking Ball material on the road, releasing the live Spyboy in , backed with a power trio consisting of Nashville producer, songwriter and

guitarist Buddy Miller and two New Orleans musicians, drummer Brady Blade and bassist-vocalist-percussionist Daryl Johnson. Much of the album had actually been recorded in but remained unreleased for nearly five years because of record label and personnel disputes, conflicting schedules, and career priorities of the three artists. Trio 2 was much more contemporary-sounding than its predecessor and was certified Gold. Harris and Ronstadt then released a duet album, *Western Wall: The Tucson Sessions*, later the same year. The two superstars toured together that fall in support of the disc. Also in , Harris paid tribute to her former singing partner Gram Parsons by serving as co-executive producer of *Return of the Grievous Angel: A Tribute to Gram Parsons*, an album that brought together more than a dozen artists. Nevertheless, it reached No. Harris and many of the same artists took their show on the road for the *Down from the Mountain Tour* in . In , Harris supplied the finishing touches in harmonizing with the Dixie Chicks on a song they were recording in the studio, "Godspeed". Like its predecessor, it contained mostly self-penned material. They performed singly and together and swapped instruments. On September 9, , Harris participated in "Shelter from the Storm: A Concert for the Gulf Coast", a series of concerts simulcast by most American television stations to raise money for victims of Hurricane Katrina and Hurricane Rita. She also lent her voice to the soundtrack of the critically acclaimed film, *Brokeback Mountain*, on the song "A Love That Will Never Grow Old", which was controversially omitted from Oscar consideration because of the insubstantial amount of time the song played during the film. In July, she joined Elvis Costello on several dates of his U. She also appeared in the Jonathan Demme documentary concert film *Neil Young: Heart of Gold*, released in .
