Private is a series of young-adult novels by American author Kate Brian, beginning with 's inaugural entry of the same name. The books chronicle the rise of.

Edit Ariana is the quietest member of the group, possessing light blue eyes, ethereal white-blond hair, and a penetrating stare. Reed observes that Ariana is often the most motherly and caring of the group, and most likely to comfort others in distress. Ariana, like Noelle, is a senior; as such it is clear that she and Noelle share a stronger " and possibly longer " friendship with each other than they do with Kiran and Taylor , who are both juniors. Beneath her exterior, Ariana is eventually revealed to have darker issues as the series progresses. Private Edit The truth surrounding the school murder mystery arrives in the fourth book, Confessions. Frightened and suspicious, Reed demands an explanation and threatens to have the girls arrested. There they changed their voices and taunted him, then went back to Easton when he passed out. Reed, horrified, then accuses the girls of killing Thomas by leaving him in the cold, while Noelle insists that they loosened the ropes binding him to the tree before leaving, so that he could free himself when he woke up. Noelle assures Reed that they never killed Thomas, and had only treated him so because of the way he acted towards her at the party "We did it for you, Reed. Reed agrees at first, but inwardly promises herself to never speak to them again. Unlike Noelle and Kiran, Ariana is unwilling to tell Reed the truth and she initially urges Noelle not to tell Reed anything. Later on Reed, who has had enough, finally decides to call the police and have the girls arrested. She claims that at the start of the year, Thomas had promised to reveal their secret relationship to everyone at the school, but had broken up with her upon meeting Reed. This drove Ariana mad with jealousy, though she claims to have loved Thomas and regretted killing him when she should have killed Reed in the first place. This explains how Reed managed to get into Billings and befriend Ariana and the others. Ariana tells Reed that on the night she and the other girls tied Thomas up in the field, Ariana felt bad about leaving him out in the cold and later went back to free him. Upon reaching the field, a drunk, enraged Thomas started yelling insults at her and abusively calling her names. Then she arranged evidence to frame Josh, so that Josh would be arrested for killing Thomas instead of her. On the rooftop, Ariana uses a cell phone to call the police and frantically claims that her friend Reed has just thrown herself off the roof. She then brings out a knife and uses it to try to push Reed off the roof, before Noelle appears from behind and knocks Ariana down with a lacrosse stick. The police arrive within minutes, and a sobbing Ariana is arrested. Last Christmas Ariana appears in the prequel novel Last Christmas, which is set shortly before the events of the Private series. Upon escaping from a mental institution, the Brenda T. She goes to Atherton-Pryce Hall, a prestigious school near her old school, Easton, starting as a junior. Throughout the series, even though she has the gorgeous student body president Palmer Liriano as a boyfriend, and Lexa Greene, Soomie Ahn, Maria Stanzini, and even heir to the throne Princess Brigit Rhygsted of Norway as fellow queen bee best friends, she finds herself continually troubled by Kaitlynn Nottingham. Ariana even thinks that Kaitlynn is "the girl she hated most in the world. She kills Kaitlynn on the pretense of wanting to save Lexa. She also kills Kiran Hayes on the same night, when Kiran finds her, exceedingly drunk and immediately recognizing her old friend. However, Lexa starts going crazy, screaming when she sees anything that looks like blood and cracking under the guilt Ariana convinced her to hide the fact Kaitlynn was dead. Although not dead, she is unconscious, and while that happens, Ariana breaks up with Palmer when he practically accused her of not stopping Lexa when the students were waiting at the hospital. When Lexa wakes, she asks for Ariana. When she told Ariana that she was finally going to reveal that Kaitlynn was dead, Ariana killed her as another one of her attempts to keep from being revealed. However, she spots Reed Brennan in person when at the hospital to show her support for Lexa, and starts freaking out. She starts planning to kill Reed while still at Atherton-Pryce as the now president of Stone and Grave and having fun times with her archenemy turned close friend Tahira, daughter of the emir of Dubai, Maria, and Soomie when she returns from her spa in Antigua. In the alternate ending, Ariana retains her intelligence. In certain fan-created projects, rather than losing her intelligence and making sudden missteps, Ariana takes different actions. Having escaped the cruel authorities at her old asylum, she

then moves to an overseas mansion with her boyfriend, who is seen massaging her feet as they live happily. It is unknown if Reed or anyone else ever tracks her down.

2: Private Book Review

Kate Brian is the author of the SHADOWLANDS TRILOGY (SHADOWLANDS, HEREAFTER & ENDLESS), as well as the New York Times bestselling PRIVATE and PRIVILEGE series, and the wildly popular MEGAN MEADE'S GUIDE TO THE MCGOWAN BOYS.

This book made me want to claw my eyes out within the first three pages. All she cares about is what other people think of her and what she can do to fit in. Reed basically copies everything everyone does and spends her time reassuring herself that she belongs at Easton. They are her ONLY chance of becoming popular and likable in her school. She spends her time wishing she could be a part of Billings and lets that distract her from her work. You only went to that school to get away from your mother and your old life and to get a fresh start! The way she described the girls in the book is just plain wrong! I questioned her sexuality more than a few times while I was reading the book. I had to be. How can you be that desperate to fit in??!! When the Billings Girls tell her to jump all she can say is how high? She seems to think she will be instantly liked and all her problems will be solved once she becomes one of them. After what they did to Kiran, one of their own, she still wanted to be like them. So they can make derogatory comments at her and make her feel even more insecure? I think she love it. Them ordering her around and throwing acerbic comments in her direction. Reed was so obsequious in this book it made me sick to my stomach! What because Kiran was sooooooother worldly, she was the only one that could stand up to Noelle? After what she saw Noelle do to Kiran she wanted to be apart of Billings!!!! She reached new levels of desperation in that part of the book. The plot was mediocre, the characters were detestable. I wanted to die just to escape from reading the book!

Overview[edit] The Private continuity is divided into three sets of novels: The original series, which covers present events; the spin-off *Privilege*, which takes place 12 years in the future; and the prequel collection, which is set during various points of the past. The original series begins with the introduction of Reed Brennan, a savvy and ambitious honors student who enters the prestigious Easton Academy private school. Coming from a shaken family and a mundane everyday life, she is eager to explore the brand new setting that awaits her in Connecticut. Unexpectedly, the center of her fascination soon becomes a famed dorm known as Billings House and the posh girls who reside there—Noelle, Ariana, Kiran, and Taylor. In time, Reed pines to become a Billings Girl herself, and is faced with many tests and compromises along the way. As the series progresses, several additional characters and their histories are introduced and focused upon. So that was basically where that all began. What does she want? Where are we going to get the mystery from? So that was basically it. It was pretty natural. Graphic designer Julian Peploe—who previously [5] worked on CD covers for the Pussycat Dolls , The Veronicas , and Brandy —is largely credited for the signature cover image depicting supposed antipathy between one girl and three others. Series photographer Roger Moenks had worked with Joss Stone prior to his being chosen to photograph the Private models. So it creates kind of a luxe, but young, youthful look. Of the original covers, the models appearing on the first book—who grace the next three installments as well—portray the following characters according to Kate Brian: Noelle center , Ariana left , Taylor right , and Kiran back cover. Characters[edit] Private has an expansive cast and a regularly changing hierarchy. As conflicts ensue, the series is marked by exits, arrivals, and social ascensions. Consequently, characters who are on supporting status reach new heights, and characters who hold prominent positions are faced with a variety of descents, ranging from quiet to scandalous. Reed Brennan The collected, curious protagonist, Reed is a brown-haired girl from Pennsylvania who enters Easton Academy for her sophomore year on a scholarship at the beginning of the first book. Her troubled family background and otherwise placid past makes her overly ambitious and docile when presented with exciting opportunities. Though gifted both academically and athletically, her first major aspiration at Easton is to get into Billings House, which holds the allure of great social privileges and respect. She manages to get the attention of the Billings Girls, and a series of initiations to test her credibility follows. She initially dates a rebellious boy named Thomas Pearson, who disappears in the first novel and is revealed to have died in the second. Later, she begins a longer romantic relationship with a fellow student named Josh Hollis. As the series progresses, she experiences several physical perils, emotional challenges, and personal surprises, leading her to realize that appearances can be deceiving. Fiercely loyal to her friends, she is the implied counterpart to Reed, being similarly skilled in lacrosse and soccer, and apparently coming from a shaken family of her own. However, her privileged upbringing tends to make her blunt and sometimes insensitive, as she enjoys intimidating other students as well as the Easton staff. She is shown to be overly self-confident to the point of arrogance, but very intelligent. According to some of her peers, she cannot live without drama in her life. Noelle possesses a long, red scar along her stomach, just above her hipbone from a childhood horseback riding accident. She has an unstable longtime romantic relationship with another senior named Dash McCafferty. Beneath her exterior, Ariana is eventually revealed to have darker issues as the series progresses. She becomes the lead character of the first prequel, *Last Christmas*, and the spin-off, *Privilege*. However, Josh often shows his distaste towards the Billings Girls, and sometimes quarrels with Reed about her ties to Billings House. In *Legacy* Josh breaks up with Reed when he finds her with Dash. Then he starts to date Ivy Slade. By the end of *Scandal*, he and Reed are a couple again. However, halfway through *Vanished* Reed is forced to break up with Josh, because someone is holding Noelle hostage and is giving Reed tasks to win her life back. Josh is appalled at first, but then later realizes that it was the kidnappers doing and gets back together with Reed. She has extremely good sense in fashion, and is capable of turning people into superstar lookalikes. Beneath the surface, Kiran is troubled by alcoholism, which can lead to repercussions for herself and the others. In the third book, Taylor

leaves Easton to go back to public school. Ivy Slade A prominent antiheroine , Ivy Slade is a sassy and intelligent girl introduced in the fifth novel. She is described as a match for the Billings Girls in terms of beauty and glamour. However, she is the only character known to have declined an invitation to join the dorm. Halls of residence[edit] Easton Academy is unofficially distinguished by a caste -like environment, socially divided by lower-, middle-, and upper-class dormitories. Acceptance into Billings is granted by invitation only. The building carries a mixed reputation throughout the books; members are typically depicted as being socially and academically privileged, but several of the Billings Girls are also shown to engage in varying illicit and snobbish practices. Most are known for their beautiful physical appearances and their reckless partying. Furthermore, some are not above resorting to methods such as bribery, blackmail, and treachery. Bradwell Hall Bradwell is a dorm for freshmen and sophomore girls. In the first book, it is where Reed Brennan lives before being admitted into Billings Hall. Ketlar House Ketlar is a dorm said to house several coveted boys throughout the series. Drake House Drake is a dormitory for upperclassmen boys, nicknamed "Dreck" because it is supposedly where all the unsavory boys at Easton live. Kiran Hayes at one point has a fling with a boy from Drake House and Reed is forced to publicly break up with him for Kiran on instruction of the other Billings girls. Marc Alberro, whom Reed becomes friends with in *Ambition*, lives here. When Reed is kicked out of Billings in *Revelation*, she gets a single in Pemberly, right next to her former nemesis Ivy Slade. Parker Dormitory for upperclassmen girls, where some former Billings House girls reside after the destruction of their old home. Hull Hall Hull Hall is where members of staff reside. It is nicknamed "Hell Hall" by the students. Gwendolyn Hall Gwendolyn Hall was the original class building at Easton. It is now a condemned building mainly used for hook-ups. In *Private*, Reed and Thomas often meet there. It is burned down at the end of *Legacy* by the Billings Girls and other students who used a tunnel in its basement to sneak out to the *Legacy* party. Themes[edit] The central themes in the *Private* series revolve around sociological matters such as conformity and elitism – particularly as they pertain to an outsider during the coming of age period. Book releases[edit] With the exception of the first *Private* novel, which debuted in Canada on June 27, , releases of the US and Canadian editions have been simultaneous, generally followed by releases in the United Kingdom. Five novels were also announced for In addition to release dates, the tables below account for New York Times Best Seller list peak numbers.
