

1: Table of Contents: Millennial momentum :

Millennial momentum: how a new generation is remaking America / Argues that the new generation of youth, the Millennials, are transforming areas of American politics and culture, including education, entertainment, labor, and business, and explains how this shift will affect America's international relations.

Go to Brainpop on the right side of the computer. Go to Social Studies. History on the bottom right side. Go to Westward Expansion. Click on the link below, then answer the questions based on the information, which is provided in the film. When did the U. How did the population of the United States change from ? In what way did the Native Americans contribute to the settlement of the United States? What deal did territorial governments offer to settlers regarding land? How did pioneers travel to the West? What happened to the Native Americans as a result of white settlement? How did the Transcontinental Railroad change the pace of settlement? Railroad track had to be laid over 2, miles of rugged terrain, including mountains of solid granite. The alternatives were to travel by sea around the tip of South America, a distance of 18, miles; or to cross the Isthmus of Panama, then travel north by ship to California. Each route took months and was dangerous and expensive. The first spikes were driven in , in the midst of the Civil War. Two companies competed to lay as much track as possible. The Central Pacific built east from Sacramento, Calif. At first, the Union Pacific, which had flat terrain, raced ahead. Working three shifts around the clock, Chinese immigrants hand drilled holes into which they packed black powder and later nitroglycerine. The progress in the tunnels through the mountains was agonizingly slow, an average of a foot a day. Eight Irish tracklayers put down 3, rails, while other workers laid 25, ties and drove 28, spikes in a single day. On May 10, , at Promontory Summit, Utah, a golden spike was hammered into the final tie. The transcontinental railroad was built in six years almost entirely by hand. Workers drove spikes into mountains, filled the holes with black powder, and blasted through the rock inch by inch. Handcarts moved the drift from cuts to fills. Bridges, including one foot long and feet in the air, had to be constructed to ford streams. Thousands of workers, including Irish and German immigrants, former Union and Confederate soldiers, freed slaves, and especially Chinese immigrants played a part in the construction. At one point, 8, of the 10, men toiling for the Central Pacific were Chinese. At one point, Chinese workers were lowered in hand-woven reed baskets to drill blasting holes in the rock. They placed explosives in each hole, lit the fuses, and were, hopefully, pulled up before the powder was detonated. Explosions, freezing temperatures, and avalanches in the High Sierras killed hundreds. When Chinese workers struck for higher pay, a Central Pacific executive withheld their food supplies until they agreed to go back to work. An English-Chinese phrase book from translated the following phrases into Chinese: Can you get me a good boy? Come at 7 every morning. Go home at 8 every night. I want to cut his wages. General William Tecumseh Sherman wrote in The president of the Union Pacific helped found a construction company, called Credit Mobilier, which allowed investors, including several members of Congress, to grant lucrative construction contracts to themselves, while nearly bankrupting the railroad. The railroad had profound effects on American life. In addition, the railroads founded many of the towns on the Great Plains on land grants they were awarded by the federal government, and then sold the land to settlers. The completion of the transcontinental railroad changed the nation. Western agricultural products, coal, and minerals could move freely to the east coast. Passengers and freight could reach the west coast in a matter of days instead of months at one-tenth the cost. Settlers rushed into what was previously considered a desert wasteland. The Census would declare that the American frontier had disappeared. The railroad was a major cause. Equally important, the success of the transcontinental railroad encouraged an American faith that with money, determination, and organization anything can be accomplished. The construction of railroad demonstrated the effectiveness of complex military-like organization and assembly-line processes. Questions What were two difficulties, which were associated with overland travel? List the two companies, which built the railroads and the starting locations. What major challenge did the workers on the Central Pacific face? Where was the Transcontinental Railroad finished? List the racial groups, which constructed the railroad. What danger did the Chinese workers face while constructing the railroad? What was the Credit Mobilier Scandal? Click on the link below and

answer the questions based on the information, which is provided below. What economic and social factors led the Central Pacific Railroad to recruit a labor force from China? What were the grievances that led the Chinese laborers to strike? The Changing Nation from Directions: Click on the link above, click launch in the middle of the map and click on the different years in the timeline at the bottom and the different features. Answer the questions based on the facts provided in the map. What coast had most of the major cities in ? According to the map, where were most of the territories in ? Where were most of the Native American Lands in ? By which cities grew to one million people? Where were most railroads located in ? Where did the railroads extend to in ? In what way did the railroads create the growth of cities? In collaboration with your team, you will select one state from the list above and answer the questions in the graphic organizer. Location Name In what year did Americans start to settle this state? What motivated people to go to this state? How did settlers travel to this location? What challenges did the settlers face? What state would you choose to settle and why? Originally vetoed turned down by President Chester Arthur, the president eventually signed the law after some minor alterations changes. The Chinese had been entering the country in record numbers for several years previously, particularly in California, and were typically forced to work for extremely low wages and live in conditions of poverty. Many of them lived as near slaves while employed building railroad lines across the West. They were also frequently victims of attacks by workingmen and other immigrant groups, who believed the Chinese were taking jobs away from them. That the master of any vessel ship who shall knowingly bring within the United States on such vessel, and land or permit to be landed, any Chinese laborer, from any foreign port or place, shall be deemed guilty of a misdemeanor minor crime , and on conviction thereof shall be punished by a fine of not more than five hundred dollars for each and every such Chinese laborer so brought, and may be also imprisoned for a term not exceeding going on for more than one year. That for the purpose of properly identifying Chinese laborers who were in the United States on the seventeenth day of November, eighteen hundred and eighty, or who shall have come into the same before the expiration of ninety days next after the passage of this act, and in order to furnish them with the proper evidence of their right to go from and come to the United States of their free will and accord, as provided by the treaty between the United States and China dated November seventeenth, eighteen hundred and eighty, the collector of customs of the district from which any such Chinese laborer shall depart leave from the United States shall, in person shall, go on board each vessel boat having on board any such Chinese laborer and cleared or about to sail from his district for a foreign port. That any person who shall knowingly and falsely alter change or substitute any name for the name written in such certificate or forge any such certificate, or knowingly utter any forged or fraudulent certificate, or falsely personate any person named in any such certificate, shall be deemed guilty of a misdemeanor small crime ; and upon conviction thereof shall be fined in a sum not exceeding one thousand dollars, and imprisoned in a penitentiary for a term of not more than five years. That the words "Chinese laborers," whenever used in this act, shall be construed to mean both skilled and unskilled laborers and Chinese employed in mining. Questions What would happen to a Chinese immigrant that arrived in ? What privilege would be impossible for him to gain? What jobs do you think these Chinese workers had? What do you think happened to the rate of Chinese immigration after ? What foreign country or Native American tribe or tribes were represented? Where did the people affected actually live? What was its main purpose? What did the U. What did they give up? What did the foreign country or tribes gain? Westward Expansion Simulation Directions: You will be appointed a role by your teacher. You will research the motivations for heading to the American West and you will decide if your character is for or against Westward Expansion. You will need to debate this topic in class. About one third of the class will be appointed as Native Americans.

Gabrielle Smith will change the name of her band Eskimeaux after a discussion with Inuit throat singer Tanya Tagaq. The word "eskimo" is considered a slur by the Inuit people, and Tagaq was.

Staff Report June 3, Note: Prior to that, She spent 16 years in banking and accounting. What sections and chapters are up and running now? The Leadership team has been meeting at least monthly via teleconference, and have meetings scheduled at the Bead and Button Show in Milwaukee. The Sewing Section is in the "formation" stage. There is a Sewing section meeting in Vegas, which will be the next formal meeting. This one is very interesting. So we will kick off the formation of that Section at C-n-C in Vegas. It is intended for those who work for CHA member companies who are primarily responsible for "social media. They will be having their first meeting at the Vegas show. This is our longest standing section. They are led by a "Designer Council," and is open to Designer Members. It will also meet in Vegas. Regarding chapters, the Utah chapter was formed in March; first chapter luncheon is being held on June While its comprised primarily of paper crafting manufacturers, the leadership team, however, is strongly committed to including all crafting businesses in Utah. The Southern California chapter has an interim leadership team that is meeting to discuss future plans. The Canadian chapter re-formed in December and is up and running. What areas would you like to see start up? Two years ago would we have ever dreamed that there would be an interest in a Social Media Section? The most important thing is that there be a strong voice or two, the commitment of time by a few key volunteers, and a willingness to be inclusive of all parties who fit in the section. However, like with Utah, if there is a group of people in a geographic area who want to form a chapter, we will go where the interest is. How will the sections work; what is the structure? For the chapters and sections -- when starting up-- the initial group of "interested people" are loosely formed into a steering committee. The steering committee then selects the first "Leadership Team" which is a group of 4 to 12 people who work together to make sure that the needs of its constituents are met. The Bead team, for example, is focusing on "retailer education" this year; Canada is focusing on "communication and consumer awareness"; and Utah is interested in doing everything it can to strengthen the trade show and provide networking opportunities. We are also working hard to make sure that all the leadership of the Sections and Chapters know each other so that they can share ideas, concerns, etc. Once established, what will they do? Some may decide to have a networking meeting with a speaker or a panel discussion once a quarter; others will be taking on major initiatives to strengthen their parts of the business. I envision many meetings where our members are going to be at our own shows, of course, but also at other related events like the Tucson Bead Shows, Quilt Market, and even some of the large scrapbooking consumer events. What meetings will be held at the show in Vegas? And of course they can contact me: Why should someone get involved? From my perspective, there are a lot of reasons that someone should get involved. A chapter or a section, as one voice, will be very effective in communicating to the CHA board of directors and staff, as well as others in the industry, their needs, wants, desires and opinions. If you know how things can be done better -- this is your chance! There are only 20 people who work for CHA, but we are great at facilitating and helping provide our members with the tools to create change and make great things happen.
