On the bright side, English is one of the easiest languages in the world. Learning it takes less time than, for example, Spanish , Finnish, Russian or Chinese. Gupta, the author of the original English learning course, created Rapidex specifically for the Indian population. Special attention should be paid to the time it takes to learn English with Rapidex. Everything depends on the level you start with. If you are trying to learn English from scratch, you have to be ready for at least 6 months of hard daily work. Some people manage to start speaking English earlier, but speaking correctly takes much longer. While the book appears to claim that you can learn English in 30 days or 60 days, you need much more time to hone the skills. If you already have some knowledge of English language and want to improve it, the course can take from a few days to a few months. Many people, who purchased the book when it just came out in , are still going back to it to clarify some moments. You have to remember that Rapidex is not a quick fix for people who want to learn how to speak in English faster than light. Depending on how fast you can learn and memorize English phrases, the course can take from 60 days to a year. The book can be used repeatedly for years to come.
