Determined to break through this glass ceiling, he reunited with Jones to create *Thriller*, the album that shattered every music record on the books. *Thriller* was designed to appeal to every audience and its diversity was evident by its guests: Seven of its nine songs were Top 10 hits, it earned eight Grammy awards, and topped the Billboard charts for 37 weeks, matching its American success internationally to become the biggest-selling album of all time, earning 32 platinum certifications in the US and moving over million albums worldwide. Such a phenomenal triumph pushed Jackson into the stratosphere and *Bad* -- the eagerly-anticipated sequel to *Thriller*, co-produced once again with Quincy Jones -- kept him there, generating five number one singles on the Billboard charts and selling 30 million copies internationally, two thirds of which were outside of the US. *HIStory*, a double-disc set that paired a disc of hits with a new album, produced a couple of international number one singles. *Invincible*, his album, turned out to be his last. Such heights came from modest beginnings. Harboring aspirations of musical stardom, Joe shepherded his sons into a musical act around At that point, it was just the three eldest children -- Tito, Jackie, and Jermaine -- but Michael joined them in and soon dominated the group. Stealing moves from James Brown and Jackie Wilson, Michael became the epicenter of the Jackson 5 as they earned accolades at local talent shows and went on to play soul clubs throughout the Midwest, working their way toward the east coast in where they won an amateur contest at the Apollo Theater. Impressed, Taylor brought them to the attention of Berry Gordy, Jr. All three of these sequels went to number one and, striking while the iron was hot, Motown spun Michael off into a solo act. Later that year, "Ben," the title theme ballad to an exploitation movie about a killer rat, earned Jackson his first Oscar nomination for Best Original Song he would lose. Not long afterward, the careers of both Michael and the Jackson 5 slowed, victims of shifting tastes, adolescence, and creative battles with their label. One last hit for Motown arrived in -- "Dancing Machine," a single that brought the group in line with the disco explosion -- before the group departed Motown for Epic in With the new label came a new name, along with a slight lineup change: Jermaine stayed at Motown to pursue a solo career and younger brother Randy took his place. All this was preamble to *Off the Wall*, the album that definitively established Michael Jackson as a force of his own. Collaborating with producer Jones and songwriter Rod Temperton, Jackson consciously attempted to appeal to multiple audiences with *Off the Wall*, turning the album into a dazzling showcase of all his different sounds and skills. Before he could do that, he had to complete one more Jackson 5 album: *After Triumph*, Jackson reunited with producer Jones and songwriter Temperton to create the sequel to *Off the Wall*, crafting a record that deliberately hit every mark in the musical mainstream. *Pretty Young Thing* " kept *Thriller* at number one and its last single was an extravaganza, with Jackson letting director John Landis turn the song into a short musical horror film. By the time the album wrapped up its two-year run on the charts, it had racked up 37 weeks at number one and sold 29 million copies, becoming the biggest-selling album ever.

3: ROCK ROCK TILL YOU DROP TAB by Def Leppard @ www.enganchecubano.com

Category People & Blogs; Song Rock Rock (Till You Drop) Artist Def Leppard; Writers Robert John "Mutt" Lange, Rick Allen, Joe Elliott, Rick Savage, Steve Clark, Pete Willis.

We talked how we can work together, but that we are all different and special. Students then chose their own rocks and copied the shape onto a piece of paper, adding their own design to represent them. Harrison Elementary School in Livingston, NJ My principal has chosen to use your book as a basis of a yearlong school initiative at the beginning of this school year. All the teachers read your book to their classes. The staff painted rocks, while the students made paper versions to decorate the halls. The students are now working on their rocks. I will keep you posted as we do more things this year, but I thought you might like to see the photo gallery I created for our website. At our staff meeting in June the Principal, Ms. Hansmann read us your book at then we all got to decorate a fish. They are going to be displayed at the school this fall and the children are going to create their own special fish too. I will send you a picture of the fish the staff created and then toward the end of September I will send you pictures of the fish the plus students design. What educators are saying about Only One You I give my students the opportunity to practice stress reduction techniques as they create and paint personalized rock fish. I incorporate Only One You into my classroom lessons while we discuss diversity and accepting others as unique individuals. Only One You was an inspiration for my classroom bulletin board encouraging self esteem, positive thinking and respecting individuality. Diane Costagliola, Senior Director, NYC Department of Education Only One You was sent to all principals, during the school year, to 6 districts between Brooklyn and Staten Island, approximately schools, and was used as the book of the month. My office, the Office of School and Youth Development, partners with principals in finding ways to improve and foster a positive school community for staff, students, and parents. In working together we build proficiency in the skills to improve the lives of our children and build self-esteem and self-image, teamwork and bonding, goal setting, personal and social responsibility and self resiliency. Character development is extremely important. We work with schools to build strong core values such as respect, honesty, responsibility, compassion, determination etc. These values need to be modeled and school communities need to be accountable to the standards of conduct that these core values portray. Our office prepares individuals to positively change lives and communities by fostering the belief that each one can achieve and become everything they envision and dream of becoming. So this book is the perfect gem with its simple text and vibrant pictures to open avenues of discussion to send our important message. First and most evident was the message of leaving the nest and all that is familiar. Secondly, the parental advice albeit pointed toward a younger audience was well understood by the graduating class. Thirdly, it accentuates the uniqueness of every individual, no matter what the age or origin. So, in a real sense, the book shows the reader a human condition that transcends cultures. As far as a quote, I think the following might be apropos: I was honored to have them ask me to be their guest speaker at their high school graduation. The students requested during my talk I include a book to read aloud to them one last time. After looking for just the right book, I have selected Only One You. When I first read it I immediately fell in love with it and knew that it would be perfect for the occasion. It encompasses so well the message I want to send about being true to one self and letting your life be an example for others; wherever life takes you, you can make a difference! As they embark, we take our final opportunity to pack away as many words of wisdom to see them through the calm and the storm. Only One You was the perfect gift for our graduating class and a book I trust our children can return to throughout their lives.

4: Red Rocks Amphitheatre - Wikipedia

Mix - Def Leppard Rock Rock Till You Drop Live YouTube; All About Steve Clark Pt. 1 - Duration: hlsartistry , views. Heart's rollercoaster ride of a career - Duration:

History[edit] In the first decade of the twentieth century, John Brisben Walker had a vision of artists performing on a stage nestled in the perfect acoustic surroundings of Red Rocks, which likely were used by the Ute tribe in earlier times. Walker produced a number of concerts between and on a temporary platform; and from his dream, the history of Red Rocks as an entertainment venue began. Originally the place was known as the "Garden of the Angels" s , and then as "Garden of the Titans" during the Walker years â€” The park, however, had always been known by the folk name of "Red Rocks", which became its formal name when Denver acquired it in The walls of the amphitheatre contain records dating back to the Jurassic period of million years ago as nearby dinosaur tracks have been discovered as well as fossil fragments of the foot sea serpent Plesiosaur. Construction of the amphitheatre began in and was opened to the public in June The earliest documented performance at the amphitheater was the Grand Opening of the Garden of the Titans, put on by famed editor John Brisben Walker on May 31, Featuring Pietro Satriano and his piece brass band, it was the formal opening of the natural amphitheater for use by the general public after Walker purchased it with the proceeds of his sale of Cosmopolitan Magazine. Commemorating the opening of the scenic road up nearby Mt. Falcon, it was patterned after the festival of Nagasaki, Japan , and featured four military bands and fireworks off Mt. Morrison and two intermediate hills. Renowned opera singer Mary Garden put Red Rocks on the world musical map with her performance on May 10, Having performed at many opera halls around the world, she pronounced Red Rocks the finest venue at which she had ever performed. Upon the full construction of the amphitheatre to its present form by the Civilian Conservation Corps , the venue was formally dedicated on June 15, It has held regular concert seasons every year since The first performance of each season is the Easter Sunrise Service, a non-denominational service on Easter Sunday of each year. The earliest notable rock-and-roll performance at Red Rocks was by The Beatles on August 26, , the only concert not sold out during their US-tour. When Ringo Starr returned to Red Rocks with his All-Starr Band on June 28, , he asked if anyone in the crowd had been at the Beatles concert thirty-six years earlier. On August 26, , the East-Coast-based Beatles-tribute band, "" was flown to Denver to re-enact the Beatles concert held at the site exactly forty-years earlier to the date. The beautiful and unique setting has led to the venue becoming a favorite for many performers. The Blues Brothers performed at the amphitheatre on July 15, An incident during a performance by Jethro Tull on June 10, , led to a five-year ban of rock concerts at Red Rocks. Denver police directed the overflow, non-paying crowd to an area behind the theater, where they could hear the music but not see the band. The situation seemed satisfactory until some of the people without tickets attempted to enter the amphitheatre by charging at, and breaking through, the police line. Some of those without tickets began lobbing rocks at the police, and the police responded by discharging tear gas at the gate-crashers. The wind carried the tear gas over the hill, into the paying crowd and onto the stage. The ban on rock and roll was finally lifted through legal action taken by Denver concert promoter Barry Fey , who tried to book the band America at the venue in After being denied a permit by the city, Fey took the city to court, and the court ruled that the city had acted "arbitrarily and capricious" in banning rock concerts at Red Rocks. Starting in the summer of , the rock bands were once again welcomed at the venue. U2 performed at the amphitheatre on June 5, during their War Tour , in front of a crowd of 9, people. Under a Blood Red Sky. Depeche Mode performed at the amphitheatre four times: The second and third were on July 11 and 12, during their World Violation Tour. The fourth was on August 27, during their Tour of the Universe , in front of a crowd of 8, people. Red Rocks was one of the favored venues for The Grateful Dead and the venue has become a traditional stop for many subsequent jam bands. Widespread Panic holds the record for the most sold out performances at Red Rocks with 57 as June Blues Traveler has played the venue every Fourth of July since , except when lead singer and harmonica player John Popper was unable to play due to heart surgery. One of the most beautiful concert venues in America Notable recordings[edit] Aerial view of Red Rocks

Amphitheatre, January Red Rocks has been a popular venue for live recordings, particularly videos due to the visual uniqueness of the setting. During the 1960s and 1970s, local folk-rocker John Denver recorded several world-televised concerts at Red Rocks. Local Colorado band Big Head Todd and the Monsters released a DVD and live album of a notable performance in 2003, capturing what has become a local annual early season tradition. A two-volume album, *Carved in Stone*, features live performances by various artists at Red Rocks, including R. Depeche Mode recorded their show at the amphitheatre on August 29, 2003, for their live albums project *Recording the Universe*. The recording has a segment with audience participation singing the chorus "You and Tequila make me crazy, run like poison in my blood, one more night could kill me baby, one is one too many, one more is never enough". Featuring Stone and Echo box set on August 2, 2003. Also included in the box set is a CD of the audio from the show. While performing the song "I Lived" they recorded the band, the audience, and one of their fans Bryan Warnecke for the "I Lived" music video. The video also featured several aerial views of the venue during the day as well as during the concert itself. The music video was released on September 25th, 2003. Opening sequences feature the fictional rock band "Black Plague" playing at Red Rocks Amphitheatre where lead singer Bobby Black played by Vince Neil makes a grand entrance hanging from the rock face of the landmark red rocks above the crowd swooping on stage via zipline. The Red Rocks formations were featured in an episode of *Dr. Quinn, Medicine Woman* entitled, "Last Dance", where the character of Sully, in 1860, determined to work toward convincing the government to designate the entire area as a protected national park. The music video was released on YouTube on November 17, 2003.
