Soon the student is able to competently read the target word. Comprehension Following word recognition and vocabulary activities, the teacher switches the student to very different activities in order to teach comprehension. In the Picture Phrase Card activity, a large card with a group of pictures is presented to the student. The student is then given smaller cards with phrases and later, sentences written on them. The student reads the phrase cards and matches them to the pictures. Fluency Fluency is practiced during these activities through guided oral reading. The teacher directs the student to read the sentences, phrases, and stories aloud and gives corrections and guidance as needed. The Edmark Reading Program reinforces previously learned vocabulary by including words from earlier lessons in the subsequent lessons. Therefore, students have multiple opportunities to read familiar words, thus improving the speed and accuracy of their reading.
