Rated 5 out of 5 by Attack from the yak from Only reels i use for my kayak fishing charter!!!! I purchased 12 penn battle 2 reels for my kayak fishing charter business. These reels are the only reels i trust. These reels are made of high quality parts, precision and unmatched quality. The penn battle 2 has the sleek design and comfortable grip that we as fisherman expect from such a fine company. The drag system on these reels are of the highest quality. I have had clients drop the reels in 15 feet of water for atleast an hour, after retrieving the reel it continued to function as of it were taken out of the box. If your looking for a reel that has high quality design as well as functionality then go with the penn battle 2 for all your fishing needs. Took it out for a big test offshore out of Venice Louisiana. The performance was impeccable. Light smooth and perfectly balanced. After that trip I went out and bought the battle II for inshore trout and redfish and black drum. Been fishing 40 years now and these are by far my favorites. Hitting Venice with them again this July for big Tuna. I have the size and it is spooled with Spiderwire and it has caught a variety of species in both fresh and saltwater. All in all, this reel is probably one of my most favorite light spinning reels. Its incredibly lightweight and comfortable handle and is probably one of my favorite things about this reel. I will most likely be buying more Battles in a variety of different sizes soon as well. For a Tarpon trip I got the I just got the to put on my 8ft slip bobber rods for walleye. The reels are just plain tough. A sturdy Bail arm and Bail spring snap over crisply and smoothly. The drag is smooth and very adjustable. The reels I bought 4 years ago are just as smooth as the first day I put line on them. I am a professional guide and these quite simply are the best spinning reels I have ever owened. The spinning ratio and retrieval rate equal a fast and smooth landing, which this reel definitely provides. Paired with my Alliance I have the perfect balance of weight and power. The maximum drag is only 16lbs, but is good enough for most fish in both fresh an saltwater. Landed a 10lb Crevalle Jack with no problem and a 7lb Bowfin while doing so freshwater fishing and more see photos. Casting is a dream, really smooth and you can achieve good distance with no problem. Would recommend to all anglers of all ages. Perfect for largemouth bass, snook, redfish, small shark and even caught my first tarpon on it. I love Penn reels and will continue to exclusively use their products. I wanted something rugged and tough, but smooth and precise. I wanted high quality, with the attention to detail all of my hand wrapped rods get. But I also wanted something I could abuse and feel confident handing a fighting fish over to any angler with any level of fishing experience. And Ive fished them all from the shimano stradic, diawa ballistic and saltist etc

And compare advantages and disadvantages The best thing about the time of year is that you can have a relaxed trip on a sunny day studying or hearing songs. For relaxing in summer season, outside lounge chairs supply the perfect comfort and ease. It is one of the best garden furniture to invest in. These seats supply rest by allowing the individual to lie down, sit with prolonged legs or lie down completely. Using the reclined back again, these chairs provide perfect support towards the back again. Some seats also provide an adjustable reduce component. Read more Plastic Hose Reel Cart Also known as chaise living room chairs, these seats come in different variety of materials for example plastic material, wood or metal. This is among the least expensive choices for living room sitting arrangement. If these seats are made with heavy and strong plastic material then they are going to keep going for a long time. You have to steer clear of opting for slim plastic material that may easily break or divided. Also by choosing white-colored furnishings, you can save them from staining from the sunlight. Plastic chairs are also really light in weight and therefore easy to transfer. This is an additional extremely popular option for patio furniture. Metal outside chairs come in a number of colors with coordinating soft cushions. Although large in fat, these chairs often include connected wheels which make their shifting simpler. These are typically produced from woods like teak or red-colored cedar plank that are weather resistant. The wood outside patio chairs are an expensive option. Usually for any high quality wooden chair you need to spend at least two times or thrice the amount you would purchase a plastic or perhaps a steel chair. Nevertheless, they are the most long lasting types of the lot. Read more Plastic Hose Reel Cart..
