The H and h meet while on a plane to Waco TX, the h is pretty drugged out and terrified of getting off the plane. The aunt had taken the h into the big city to get her to sign over power of attorney for control of her fortune and forgot the POA in the hotel room, so she double drugged the h, put her on a plane and expected her husband to pick the h up at the other end. The aunt is an interesting character. She has been tormented all her life by a big portwine birthmark on her face. Then she met her husband. Back on the plane, the H likes the looks of the h and is concerned about the drugging, so he tells her he will do her a favor - she just needs to smile and look charming. The aunt starts acting like a decent person after she and the H have some words and the H also arranges for the ranch to be set to rights. Then the H tells the h he needs her to act as his wife for the weekend. The h is dubious but he explains his dying grandmother wanted the H to marry her goddaughter. But the goddaughter ran off years earlier and no one has seen her since. The grandmother is very happy and relieved and eventually sinks into a coma with the h holding her hand. The H takes her back to her ranch and the h thinks she will never see him again and is sad about it cause she is in love. Then the sheriff comes out to the ranch to auction it off for non-payment of taxes. The h calls the H after the aunt mentions he left his card and the H comes rushing to save the day. The h spends a lot of time in this book trying to figure out what the H does. He says he has some horses, owns a building and manages some things. She does notice that he seems to have a lot ways of getting things done and so when the H goes this time, he tells the h that as repayment for him sorting things out for her, he wants to "rent" her for his wife when he needs her. The h is getting fonder of him by the minute and so she agrees but is a bit dubious still. She starts sorting out her life, but when the H calls for her to come back to his home to help when his grandmother dies, she drops everything and goes. He also takes her on big late night shopping spree, the manager opened the store for him. The h gets through the funeral ok, and is falling more in love when the big conflict occurs. The grandmother wrote in her will that the H has to find the god daughter and they will split her large estate only after they live in the family house together for three months. The h is wildly jealous but the H feels it is his duty to track the GD down and fulfill the terms of the will. The h steals a jeep and then gets pulled over for going too slow and having no license. The H rescues her again, but the h is mad and throws her rings back at him. While he is gone, the h decides to take charge of her life - she wants the H to see her as an adult, not a needy kid. She gets her GED, she learns to drive, gets accepted to college, and learns to fly small planes and helicopters. When the H returns with the GD in tow, he tells the h she has to move back to his house as he needs her as his wife to save him from the now alcoholic GDOW. While the h is running his house, the H is moving all his stuff over to hers. The GDOW is very nasty to the h, but she handles her, and we find out that the H owns all these different companies that have doing things for the h. The OW decides to take the h out after the H lies and tells her the h is preggers. The evil son the h was originally supposed to marry shows up and the OW and he drugs her with valium and then he kidnaps her and makes her fly the helicopter. It was far fetched but funny the h is flying a helicopter drugged out of her mind and making the evil son ill in the process, most of the book is a bunch of very funny exchanges between the h and various people but especially the H. The h manages to run the gas tanks out, holding off the evil son OM and then crash lands the chopper. She avows love back and they decide to sneak out and fly off to quietly find a Justice of the Peace to really get married -- after they spend a day or so in bed and another HEA for HPlandia strikes again. Overall this one was funny, even though the h was truly in dire circumstances and several very bad things happened. The story was full of black humor and the h worked really hard to make something of herself on her own after the H kicks the bad guys out. The H was bossy but funny and it was pretty touching how he obviously went out of his way to give her the world. Nice book, cute read and worth a few laughs if you run into it.
