Revelation was extended beyond Mystery's original Mystery Method (MM) for picking up women to ensure that it was more comprehensive. The original Mystery Method (MM) included: The M3 structured model, Group theory, Gambits and a Methodology for practicing in field (actually just a few principles).

His first book, The Mystery Method published late completely changed my world view of seduction, girls and pickup. Looking back, it had a slight negative effect as well because we tend to give a lot of mental influence to the first things we read about a subject. As such, my game was extremely structure-based and routine based and I never realized how important inner game, confidence and personal uniqueness was until years later. Revelations takes the old Mystery Method concepts and launches them into the stratosphere. Those of you who are familiar with MM will find, in this e-book the materials you needed to execute The M3 model as well as details on how to pair up your inner game development with structured game calibrations. The contents of the book include: Structure of Game Unlike the previous MM, the authors break down structure of game quite well. They acknowledge that there are different levels of communication happening all at once over time in a pickup: Revelations does an excellent job in explaining what it means to carry on a normal conversation like a real person, not a machine. In doing so, you can still keep track on calibrations such as IOIs. To this end, it explains why negs and disqualification can spark certain emotions in different girls. Evolutionary Backdrop Evolutionary biologists research and test scientific theories of why we behave the way we do via evolution. PUAs, MM students in particular, come up with specific tactics to leverage these rules of biology in field. I always loved the scientific approach MM takes in explaining the evolutionary theory behind certain behaviors, and how those behaviors can be encouraged or discouraged via social interactions. I think the new Revelations covers the bases previously missed by The Mystery Method: The new revelations is insightful and full of detailed explanations and pictures of Mystery, Matador and Lovedrop in the field. One of the drawbacks is that it seems like Lovedrop did most of the writing, although 3 authors are listed, it would have been nice to get longer pieces from Mystery and Matador. The DVDs The videos are worth watching. You see in-field footage of Mystery and Matador. You also get a simulated one on one coaching on video. For example, in one scene Matador demos micro-calibration with a model looking brunette wearing nothing but his dress shirt. However, the DVD prices are relatively high, and this made it less affordable for those of us looking for something more within budget. More from my site.

It has more comprehensive content which includes infield videos with demonstrations. Make Women Want You to get your dating skills started. For background check out the complete evolution of Mystery Method courses in this summary Evolution of The Mystery Method and read our review of the former edition of Mystery Method. This book was a surprise to me. I expected simply an upgraded version of The Mystery Method: The original Mystery Method MM included: The M3 structured model, Group theory, Gambits and a Methodology for practicing in field actually just a few principles. Revelation adds to this the following: The most fluid and easily understood explanation of how good inner game comes across that I have ever read. Lots of subtleties pointed out that held people back from implementing the original Mystery Method. Same as above, lots of subtleties described well to help people to understand their importance and how to make this pick up approach really work. Adding Some Good "Seduction Community" Advice to Upgrade Mystery Method Revelation integrates many essential concepts that have grown up out of the community over time into Mystery Method, thereby making something much much more effective. Some of these include: It will be very useful for anyone from beginners to advanced. My fear is that the wealth of information may be overwhelming for beginners. This is not through fault of good explanation, but more through the sheer overwhelming amount of content that is contained within this product. Some of the concepts may be difficult for newbies and beginners to understand. It is extremely comprehensive. And some of the concepts get less attention from others. Explanations should have been improved on some of the discussion of plausible deniability, serendipity and baiting with more examples for instance. For beginners or those who have studied less, these concepts will be difficult to implement due to lack of understanding. Other weaknesses include are the price and customer service. Customer service also tends to be challenging. Mehow trained initially with Mystery and later on went into a lot more detail with his system. In the second version of his system, he has again gone into more comprehensive detail, so that it is more practical than former Mystery Method systems including Revelation and Magic Bullets. A key aspect of this is that he explains and describes the conversation pieces and elements you use in far more detail. In addition he includes real infield footage in the course, to show you what it looks like when executed. The price is also more reasonable compared to Revelation - especially given the much larger range of books, audio and videos you get with this most recent course. As a result it is currently the best Mystery Method based course available. See our complete review here. Magic Bullets Magic Bullets is the competing product from Love Systems which is very similar in its base content. Where the two differ, is that Revelation has attempted to include more content from the softer side e. Inner game into its method. This product has a slight edge over Magic Bullets in content quality, thanks to integrating a wider range of perspectives on the art of pick up e. On the other hand, Magic Bullets, thanks to the detail it goes into tends to be easier to implement than Revelation. This is the main reason it has a higher rating than Revelation. So you get a lot of content for that money. The more recent and comprehensive course, 3 Second Sexual Attraction 2. Nonetheless we recommend Mystery Method courses only for the intermediate to advanced students of dating advice i. If you are new to dating knowledge, instead check out a practical and more easily implemented course like Make Women Want You.
