

1: Chase Sapphire Reserve Review: A First-Class Premium Travel Card - NerdWallet

Â§ Administrator review of the reserve program. (a) Administrator review of the Reserve and creation of a subaccount. In the event that an allocation of allowances from the Reserve pursuant to a pending application would bring the total number of allowances allocated to a number greater than.

This card is made for travelers. Better yet, your points can be transferred to Chase airline and hotel partners at a 1: See below for other must-have travel benefits this card offers. You also get 3x points on dining at restaurants. Both are perks useful for those who travel abroad. The luxury Sapphire Reserve card was so popular when it was first released that the manufacturer ran out of the materials to make it. Thankfully, that was temporary and metal cards were soon mailed out to those approved. The Chase Sapphire Reserve has both. Here are reasons to consider this card: What is this worth? When you redeem your points for travel through Chase Ultimate Rewards, they are worth 1. This is more than you would get with the Chase Sapphire Preferred. Sapphire Preferred gives you 1. So your points are always going to be worth at least 1. You can book travel on Ultimate Rewards with any airline, for any dates. This is a nice increase from the 2x points you earn on travel and dining with the Sapphire Preferred. All other purchases earn 1 point per dollar. We love that Chase has made this card rewarding for everyday use. A lot of other high-end travel cards focus on travel perks instead of earning points with purchases. This credit is eligible for any travel purchase such as spending on flights, hotels, and trains. This is huge news. So you kill both birds with one stone or both memberships with one application. The Sapphire Reserve includes airport lounge access via Priority Pass, the largest independent airport lounge access network. Membership gives you access to more than 1, airport lounges worldwide. Many of those lounges offering complimentary food, beverages, work space, and Wi-Fi. Keep in mind though individual lounges may have their own guest rules. Points can be transferred to partner airline and hotel programs at a full 1: We find that transferring your points will often earn the best value and reward redemption rate. No foreign transaction fees: As with any good travel card, the Sapphire Reserve does not charge a foreign transaction fee for purchases made outside of the U. Chase Visa is also accepted almost everywhere worldwide. This feature really comes in handy if you travel a lot internationally. This means that you still have to provide a signature any time you use your card. Luxury benefits Visa Infinite Concierge: A lot of luxury card holders forget this is a service available to them, but it really could be a godsend. Visa Infinite Concierge can help with making reservations at busy or international restaurants, getting entertainment tickets, or planning a trip. When you use your card to book an eligible stay at one of these properties, you and your guest will enjoy a complimentary breakfast, early check-in and late check-out, room upgrades, discounts, and extra gifts and amenities that vary by property. Authorized users get Priority Pass Select membership. But because we always aim to be fair, here are some reasons you might want to skip this card: Generally speaking, you will need excellent credit to qualify for this card. Chase has stricter application rules for their credit cards in general. Keep in mind some of these limitations. This card is for those with excellent credit. Most Chase Sapphire Reserve cardholders have "excellent" scores over , with an average of around This goes for new cards with any bank. You cannot own more than one Sapphire-branded card. In other words, if you opened a Preferred card, got the sign-up bonus, and then closed it all within the past 24 months, you will not be eligible for the Reserve. If you have had a Sapphire Preferred card for over 2 years, you can cancel or downgrade it like to a Freedom first, and then wait 30 days to apply to the Sapphire Reserve. If your Preferred is less than 2 years old, you can call to see if you can upgrade it to a Reserve, but you will not get the sign-up bonus. This can potentially save you money on travel hiccups. Travel Protection Benefits We Like: Do you need to cancel a trip because of sickness or severe weather? Unlike many credit cards with secondary coverage, the Chase Sapphire Reserve offers primary coverage for auto rental collision damage waiver. You also get rental privileges with National, Avis, and Silvercar. Benefits may include discounts and upgrades. Ever had an emergency while driving? Available services include towing, jumpstarting, tire changes, locksmith services, or gas fill-ups. Sick on a trip? Purchase Protection Benefits We Like: This benefit extends the time period of the U. Travel Credit This is one of the biggest benefits of the card. This is one of the most versatile and generous

travel credits offered by premium credit cards. Other cards often require you designate a specific airline or only reimburse airline incidentals. But keep in mind, enrollment is not automatic. Do this early, as it will take time for Priority Pass to mail out your membership card. Unlike some other cards, Chase Sapphire Reserve does not grant complimentary access to certain popular airline lounge networks. Both are popular cards in the high-end travel card category. While the Platinum offers more benefits, for some, the Reserve may offer better value for everyday use. It depends on how and how often you travel. However, the Sapphire Reserve may be better for everyday use. Remember, too, that American Express is not accepted everywhere, while Visa is accepted pretty much worldwide. Here is a side-by-side comparison:

The customer service is absolutely phenomenal! Your customer service is amazing! Love the software, it has everything I need!! There are a few things that we wish could be possible that are not, but the majority of the product makes our jobs SO MUCH easier! Thank you for all your hard work! Jaymee Bohannon, On Jackson More Reviews Nothing Better Than Chat Support The videos and documents are a huge help, but nothing is better than your online chat support to get quick solutions to issues or questions that arise. Jennifer Koen, Woodbine Entertainment Group More Reviews Modern User Interface The interface is great and modern - the system works perfectly with our other systems and creates a unique and easy way to organize events. Reserve Cloud is useful, powerful, and easily customize-able. Handles as much or as little as you need it to. Everyone, myself included, just kind of fumbled around and tried our best. ReserveU was an awesome resource for this, but I knew there was functionality we were missing. So I asked for some training and in under 2 hours, the representative was able to show me myriads of ways to capitalize on the fantastic functionality in Reserve. It is a powerful tool once you know how to get around it. It did take some time trying to figure out what information works best as you have to be willing to play around with customizing all the sections. One con of the site is that many of the sections are not collapsible which means lots of scrolling on long pages. For ex, on the event details page, you are not able to collapse the sections event details, billing details, functions, etc which makes for a long page to scroll through. It would be nice that when you click on that page, all of the sections were collapsed and you could expand the section you needed to look at. This especially gets over whelming when you have information in multiple sections. It would make the page more attractive to the eye as it can be a bit overwhelming. The new cloud software is so friendly and productivity for me is great. I enjoy the customer service and they have always been informative and so cordial. The customer service reps are awesome. I would highly recommend Reserve to others. Thank you Angela for all you do for us. Angela has been wonderful to work with, her attention to detail and follow up has exceptional. Thank you for all you do. We have signed on many accounts with ReServe and will continue because of the service we receive. Maria Skubal, Lodgeworks More Reviews Professional and Accurate Since getting reserve we have had many compliments on how professional our contracts now look. It has really helped streamline our event planning and making sure the information gets from point A to Z quickly and clearly. Park Grill has been able to track and secure more business with this platform. Always so helpful, courteous, patient and immediately available to their clients. Its been very helpful with keeping all events organized. Katie Williams, Makoy Center More Reviews Woodbine Entertainment Group Reserve Interactive Our experience with sourcing, negotiating and implementing Reserve at our venues has been extremely positive at every level of the project. In October , we decided that we needed to update our existing systems. Through our review and initial planning process we invited 4 companies to bid on our RFP. Of the four we invited, three submitted quotes which ranged by thousands of dollars. Reserve was priced in middle of the three slightly higher than lowest quote based on our initial ask but once we worked through our wants the final cost was substantially higher then we initially anticipated. Reserve was very understanding of our budgetary constraints in the initial year of our project and worked with us on a multi-year agreement that worked for both organizations. Throughout the demo and review phase of our process, Account Specialist Suzanne was very accommodating in making our times work for us, which included a very early west coast morning to accommodate an east coast group. Suzanne remained in the loop from the initial call right through the implantation phase at which time Melanie and the implementation team took over. The implementation team at Reserve were equally as accommodating and very helpful in leading and assisting us with getting all three properties and eight sites ready for use. Their process included weekly calls to keep the project on track and address any ongoing challenges and concerns. Since going live with our first property 3 months , Reserve has had 2 system updates, including some

improvements we requested for our operational needs. They have been very receptive to adding additional system change requests for future development, which is very encouraging and reinforces the decision to go with Reserve. Reserve Interactive is overall a really really good software. I find it quite easy to navigate. It has everything that I need. Their help desk and developing department have been amazing! It just seems that they really listen and care about their clients and software. I would highly recommend this software! Reserve Interactive listens to their clients and develops and upgrades their software accordingly. How awesome is that! There are a lot of features in this software that I really like such as; Love the way contracts, banquet event orders etc. Extremely nicely laid out, easy to read and very professional looking. I actually had clients comment on it. I love love love the "internal note" feature! Batch emailing feature is coming soon and I am super excited about that. I wanted our guests to be able to go to tavernbowl. Sure, but try finding a platform which integrates with your event management system to prevent double bookings, and does both equally well. The struggle is real. Enter ReServe Cloud the solution to that problem. In using our previous event management platform, we processed events extremely well. However, ReServe Cloud not only met but exceeded our expectations. We now process events quicker in a more user friendly environment than our previous platform. Not to mention enhanced features such as digital signature of contracts, deposit e-payment processing, web based event leads. It is so easy to use and planning events takes minutes! The calendar view to quickly look at what is coming up event wise. I also like that the software breaks items into category so each department knows exactly where to look to get the information they are seeking. Love that it has a spell check feature.

3: Chase Sapphire Reserve Review: Annual Fee Worth It?

The process for the Conservation Reserve Enhancement Program is a two-faced process; one is a sign-up for the Conservation Reserve Program, which can take somewhere between 2 to 4 weeks, another part of it is the Reinvest in Minnesota State program, which can take several months because of the easement process.

Services may not be reflective of the most recent changes in services. Completed annually, the PHA consists of the following components for the Service member: A self-reported health status. Measurement and documentation of vitals height, weight, BP Vision screening Review of current medical conditions with healthcare provider. Focused exam of identified conditions as required. Cardiovascular Screening Program Services as required. Recommendations for improvement of identified health conditions. Immunizations are offered in-clinic or through group events. Provide the space for group events in a temperature controlled environment with access to tables and chairs Enter the data into the appropriate medical databases after the event Dental Services The dental examination is a screening tool used to evaluate the individual dental readiness of their Service members. Completed annually, the dental examination consists of the following components: All Service members without a current dental exam within the past 9 months will usually receive a new dental exam. Service member completes health history. Taken with every dental exam. Will be recorded for every dental exam. No time requirement, to be taken if no pano is in the dental record, if significant change has occurred since the last one, or if deploying. Each Service member will be seen by a licensed dentist. Review of Health History and appropriate x-ray s. Charting of all dental disease. Dental exams and ancillary documents are shipped to RHRP and reviewed. All copies of records are digitized and stored at the vendor location Service Delivery: All dental services available individually or as a group event. For a group event: Minimum requirement is 50 dental exams per Group Event The RHRP provides all staffing, equipment, and supplies needed to perform all dental services. Your unit is responsible for providing space for group events to include: Povidone through the toll-free call center or on-site at a group event. Physical exams are only offered in-clinic. The exam consists of the following: A self-reported health history Measurement and documentation of vitals height, weight, BP, vision, etc. Review of current medical conditions with healthcare provider Identification and examination of potential health risks Collection and analysis of lab specimens as required Recommendations for improvement of identified health conditions and to minimize potential health risks Mental Health Assessments The Mental Health Assessments DHA4 and DHA5 are a series of deployment health screenings designed to identify mental health concerns, including post-traumatic stress disorder PTSD and other behavioral health conditions that may require referral for additional care and treatment. These screenings are done in order to ensure individual and unit readiness. The DHA 4 and 5 are required by all Service members deploying for 30 days or more in support of any contingency operation. The DHA 4 is designed to be completed between days and 18 months days after return from deployment, and the DHA 5 between 18 months days and 30 months days after return from deployment. The DHA 4 and 5 assessments are the final screenings of the 5 part DHA assessment cycle that includes the pre-deployment health assessment, post-deployment health assessment, and post-deployment health reassessment. Labs RHRP will draw blood samples from Service members to meet readiness and pre-deployment requirements. The Air Force Reserve Command is responsible for processing, labeling, and shipment of all labs. Minimum for Group Events in 30 per day.
