*Survival Guide. Fans of The Kane Chronicles series will adore this gorgeous primer on the people, places, gods, and creatures found in Rick Riordan's #1 New York Times bestselling series.*

From this series I got many sources of knowledge about Ancient Egypt mythology such as their civilization, magic, symbols, hieroglyphs Egypt writing system, and statues. I never get bored with his writing though. Meeting with gods, do the quest, battle with ancient monsters and saving the world. The Kane chronicles is one of the series I found interesting. In this series, Riordan tells the story of Egypt myth. It is different because this story is focus on the magician, using spells and avatar to battle with the enemies and the plot is quite different from the previous series although there is a slight similarity. The Kane Chronicles in the first book: Carter is a boy who always listen to his father, always follow the order while his sister is rebel, sarcastic and in some ways, annoying. Since the death of their mother, they lived separately. Carter follows his father, Dr. Julius Kane to travel around the world and homeschooled by his father while his sister Sadie, lives in London and together with Gramps and Gran and live a normal life. Sadie and Carter rarely meet each other. And one day, Dr. Julius Kane decided to go back to London to meet his daughter, Sadie and also for important business at the museum. Julius Kane works as an archeologist. When in the museum, Dr. Julius Kane tried to summon Gods of Egypt using the Rosetta stone but it did not work out because one of the freed gods, Set, God of evil put him in the sarcophagus. The Journey and Kane siblings started. In the first book, Carter and Sadie journey to find Set and save their father. They are accompanied by cat goddess, Bast and their uncle, Amos. Sadie and Carter have blood of Pharaoh and make them the strongest magician at the time. Hosting with Gods can make them stronger but also can burn them up if they cannot control the power. In the end of the first book, the siblings successfully defeat Set by using his secret name and banished him in Duat, the magical realm that coexisted with mortal world but Sadie realized that Set is not their biggest threat. The biggest threat is God of Chaos, Apophis. The Throne of Fire opens with Sadie, Carter and their young initiates, Waltz and Jaz went to the Brooklyn museum to find the section of Book of Ra in order to revive Ra because the siblings realized that to defeat Apophis, the serpent and also God of Chaos, they need Ra, God of the Sun and king of gods in their side. By this time, Sadie and Carter already make Brooklyn house as their headquarters to train the young magicians who flow blood of Pharaoh in their veins. In the end of the story, the siblings successfully revive Ra but it is not like what they expected. Ra become old, weak, senile and powerless and Doomsday is getting near. But they failed and Apophis successfully burned the book. The siblings realized that the only way to defeat Apophis is to capture his shadow. This is a dangerous risk that the siblings have to take. There is no other choice. The only way to know the whereabouts of the shadow is to cooperate with the psychotic murderous villain magician, Setne. At first their father disagree with the siblings decision. Now Dr. Setne wants to control the serpent so that he can destroy the world as he wants. Thankfully, Sadie came in time to save Carter and Zia. Setne successfully escape from Land of Demon. Bes took them to the mortal world, Egypt. The situation in the mortal world is in chaos. Finally, Carter convinced the magicians and the gods to work together if they want to destroy Apophis for good. Gods and magicians fight together side by side. Even though gods and magicians join forces and Ra has back to his old self, Apophis still cannot be defeated easily. Overall, this series is really good, full of humor I find amusing and the action is not boring. Even though in the middle of the final book, it turns out that Waltz hosting Anubis. In the end, Waltz and Anubis shared one body so Sadie does not confused anymore to choose which guy she wants to date because she love both of them. Carter and Zia are also dating. Eventually, the world be at peace.

*RICK RIORDAN is the author of all the books in the New York Times #1 best-selling Percy Jackson and the Olympians series: The Lightning Thief, The Sea of Monsters, The Titan's Curse, The Battle of the Labyrinth, and The Last Olympian.*

Julius, who is secretly a magician, but posing as a simple Egyptologist, takes the siblings to the British Museum, where he tries to bring Osiris the Egyptian god of the Underworld back into the mortal world. His magic also has the unintended side effect of summoning the gods Horus, Isis, Nephthys, and Set, as well as alerting the magicians Zia Rashid and Michel Desjardins to his actions, which are illegal in the magic community. Set, a god of chaos, captures Julius and destroys the museum. Unbeknownst to Carter and Sadie, each of the gods chooses a mortal host from the humans in the room. Carter and Sadie are taken to Brooklyn by their uncle Amos, who tells them they are descended from a long line of magicians, beginning with the Egyptian pharaohs Ramesses the Great and Narmer. He also explains the grave danger Set poses to the world, and goes to find him. Once there, Carter and Sadie discover they are hosts to the gods Horus and Isis, respectively. The siblings escape and formulate a plan to defeat Set, hoping to rescue their father and clear their names within the magic community. Desjardins summons Sekhmet who destroys everything in her path until they stop her by tricking her in eating excessive salsa. Bast sacrifices herself while defending Carter and Sadie from Sobek; they encounter Amos and then Zia. Carter, Sadie, Horus, and Isis use the spell to subdue Set, although they stop short of completely destroying him because they realize his actions were dictated by a far worse enemy—Apophis, a much more powerful god of chaos. Desjardins reluctantly allows Carter and Sadie to go free after they part with Horus and Isis. After a tearful goodbye with Zia, who turns out to have been a magical copy of the real young magician, Carter and Sadie return to Brooklyn. They visit their father, now in the underworld with their ghostly mother. As a gift, Osiris hosted by the deceased Julius helps Bast return to the mortal world. Carter and Sadie describe their plans to recruit other magicians to illegally study the path of the gods, while the former also resolves to seek out the real Zia Rashid. After the death of his mother, he spent six years traveling with his father and, as he put it, "living out of a suitcase. As a descendant of Narmer and Ramses the Great through both sides of his family, he bears the "blood of the pharaohs," and hosts the war god, Horus. His specialty is combat magic and his preferred weapon is a khopesh, an ancient Egyptian sword. She was six when her mother died, and afterward lived in England with her grandparents. She is lighter-skinned than Carter, with blue eyes and "caramel-colored" hair. The bolder, more reckless, of the Kane siblings, teases her brother all the time, though she actually cares for him. She hosts Isis, the goddess of magic. Zia Rashid—An Egyptian magician who is a host of Nephthys. Set—The Egyptian god of evil, and the main antagonist of the novel. Horus—The Egyptian god of war and a god of the sky, possesses Carter in the story until they part. Isis—The Egyptian goddess of magic who was hosted by Sadie until they part. Composition and marketing[ edit ] According to Riordan, the idea for The Kane Chronicles series came from his realization that the only ancient history subject more popular than Ancient Greece was that of Ancient Egypt. The idea of having two multiracial siblings narrate the book also came from his experience as a teacher. Carter and Sadie Kane, the titular characters, were inspired by two siblings he taught, as well as the fact that Ancient Egypt was a multicultural society. Free, who later read all the audiobooks in the series, was published worldwide by Brilliance Audio. He praised the introduction of dual narrators, who "add a welcome level of complexity" and both Kevin Free and Katherine Kellgren.
