

1: ROBIN COOK | Casa del Libro

Pandemic. Original publication date: When an unidentified, seemingly healthy young woman collapses suddenly on the New York City subway and dies upon reaching the hospital, her case is an eerie reminder for veteran medical examiner Jack Stapleton of the flu pandemic.

Chromosome 6 Original publication date: Suspicions are fueled when the body disappears from the city morgue before it can be autopsied. A few days later, the mutilated body arrives, missing its liver. Invasion Original publication date: Contagion Original publication date: Fatal Cure Original publication date: Acceptable Risk Original publication date: Terminal Original publication date: By the time they uncover the truth about seemingly ground-breaking cures, the pair run afoul of the law, their medical colleagues, and the powerful, enigmatic director of the Forbes Center. Blindsight Original publication date: Vital Signs Original publication date: Harmful Intent Original publication date: Mutation Original publication date: Mortal Fear Original publication date: Outbreak Original publication date: Mankind may be facing its gravest medical crisis since the Black Death. Mindbend Original publication date: Godplayer Original publication date: Cassandra Kingsley is about to discover that neither her marriage nor her job is what she thought. And when she sets out to find the truth, it may just kill her. Fever Original publication date: Brain Original publication date: Sphinx Original publication date: Coma Original publication date: They never woke up Year of the Intern Original publication date: But when her otherwise healthy boyfriend, Carl, enters the hospital for routine surgery, her neatly ordered life is thrown into total chaos. Carl fails to return to consciousness after the procedure, and an MRI confirms brain death. Read more Now in paperback! Newly minted chief resident at Boston Memorial Hospital Noah Rothaus is swamped in his new position, from managing the surgical schedules to dealing with the fallouts from patient deaths. Title Year Rating Fever Series: Cathryn Martel is a wife and mother who must choose whether to believe her distraught husband, or take the word of the medical establishment that his "insane" ideas will murder their daughter. Show more add to favoritesadd In favorites Marker Series: Show more add to favoritesadd In favorites Vital Signs Series: Show more add to favoritesadd In favorites Coma Series: The patients are then shipped off to an institute that looks after them. The young doctor suspects there is more to this than meets the eye. Show more add to favoritesadd In favorites Fatal Cure Series: Now Robin Cook, the bestselling master of medical suspense, confronts this controversial subject with an all-too-possible scenario as powerful and terrifying as his groundbreaking blockbuster, Coma With its state-of-the-art facility and peaceful Vermont setting, the Bartlet Community Hospital seemed like a dream come true. It offered doctors David and Angela Wilson new career opportunities, a chance to work within an enlightened system of "Managed care" and a perfect place to raise their daughter, who suffered from cystic fibrosis. But then, one by one, their dreams turned to nightmares. And day by day, their patients began to die Show more add to favoritesadd In favorites Godplayer Series: Cassandra Kingsley is about to discover that neither her marriage nor her job is what she thought. And when she sets out to find the truth, it may just kill her. Show more add to favoritesadd In favorites Critical Series: But her climb to the top was rough, marked by a troubled childhood, a failed marriage, and the devastating blow of bankruptcy as a primary-care internist. Painfully aware of the role of economics in modern life, particularly in the health-care field, Angela returned to school to earn an MBA. Armed with a shiny new degree and blessed with determination, intelligence, and impeccable timing, Angela founded a start-up company, Angels Healthcare, then took it public. Show more add to favoritesadd In favorites Contagion Series: Feeling less the golden boy than a jaded cynic, Stapleton retrain in forensic pathology and relocates to find an uneasy niche for himself in a city that suits his changed perspective: Show more add to favoritesadd In favorites Vector Series: A former technician in the Soviet biological weapons systems, he possesses the knowledge to unleash into the streets of New York City the ultimate terror: But before he executes his final act of vengeance, he must first experiment on a few unsuspecting victims Show more add to favoritesadd In favorites Toxin Series: In desperation, he is forced to follow a trail of ignorance and corruption from the tangled red-tape of the medical community to the highest levels of the powerful meat industry. It is an eye-opening thriller that every American should read. Show more add to favoritesadd In favorites Brain Series: Both of them wondered why a beautiful young woman had died on the operating table and her brain secretly removed. Both of them found it impossible to explain the rash of female patients exhibiting bizarre mental breakdowns and shocking behavior. Both of them were placing their careers and very lives in deadly jeopardy as they penetrated the eerie inner sanctums of a medical world gone mad with technological power and the lust for more. Show more add to favoritesadd In favorites Death Benefit Series: Through her work with the brilliant molecular geneticist Dr. Tobias Rothman, Pia knows she will be given the chance to fulfill her ambition to participate in medical discoveries that can help millions while bringing her a measure of personal peace that might once and for all push aside memories of her difficult and abusive childhood.
