Plot summary[edit] Gil Blas is born in misery to a stablehand and a chambermaid of Santillana in Cantabria , and is educated by his uncle. He leaves Oviedo at the age of seventeen to attend the University of Salamanca. His bright future is suddenly interrupted when he is forced to help robbers along the route and is faced with jail. Frontispiece and title page of a English translation of The Adventures of Gil Blas He becomes a valet and, over the course of several years, is able to observe many different classes of society, both lay and clerical. Because of his occupation, he meets many disreputable people and is able to adjust to many situations, thanks to his adaptability and quick wit. He finally finds himself at the royal court as a favorite of the king and secretary to the prime minister. Working his way up through hard work and intelligence, Gil is able to retire to a castle to enjoy a fortune and a hard-earned honest life. In both works, Lesage uses witty valets in the service of thieving masters, women of questionable morals, cuckolded yet happy husbands, gourmands, ridiculous poets, false savants, and dangerously ignorant doctors to make his point. Each class and each occupation becomes an archetype. This work is both universal and French within a Spanish context. However, its originality was questioned. He reminded me much of some of the characters in Gil Blas. Don Juan had with him a retainer, who was as much like many of the characters in Gil Blas as his master. He called himself a private secretary, though there was no writing for him to do, and he lived in the steerage with the carpenter and sailmaker A member of his staff had died protecting a car with prominent visitors by forcing them to stop short of where an incoming shell landed. When he was arrested, Gragnon remembered this officer telling him about Gil Blas and located the book among his effects.
