A loudmouth classmate injects some mild humor into this tame mystery, which is illustrated with black-and-white drawings. Hazel Rochman Booklist, Dec. With the informal storytelling and the immediacy of the scenarios, this is sure to draw beginning readers to the pleasure of mystery stories with a protagonist close to home. Books for the Young--Fiction. Response to Two Professional Reviews: Both reviews on this book were positive. I remember devouring these books when I was younger. Both reviews talk about how the novels are fast paced, and east-to-read which makes it the perfect type of transitional chapter book. The reviewers also comment on how these books are a series that might hook a young reader. Evaluation of Literary Elements: The books have both full pages of text, but also illustrations on some of the pages very few double spreads. This is helpful so students can see the story and visualize the mystery as it is going on. Some of the stories include clues in the illustrations too. Consideration of Instructional Application: These books would be good to use in a study of predictions. After the mystery is first presented students can make predictions.

### 2: Dianne L. Blomberg (Author of Sam and Gram and the First Day of School)

*Gram helps Sam get ready for the big day! Fast-paced and fun, with vivid, cheery illustrations, this book takes the child reader hour-by-hour through a typical first day at school—so a child will know just what to expect on their very own big day—and also look forward to all the fun things that happen at school.*

Back To School Books for Kids August 1, By Erica Leggiro 5 Comments The First Day of School is around the corner for many of us, and if your child is anything like mine, they are nervous, excited, anxious, worried, thrilled, and many more emotions! There are a variety of books in this collection, so no matter what grade your little one will be joining, there is a book included! This post may contain affiliate links. Little Critter books are recognizable and a favorite among many children. Back to School Splat the Cat. Splat the Cat is another recognizable character that children love. When Splat gets to school, he gets homework on the first night! His homework assignment is to pick just one of his favorite summer activities to share with his friends. What will the best part of his summer be? This book is great for calming any fears about Kindergarten because it shows the readers both sides of getting ready for school. It shows the kids getting ready for school, as well as Miss Bindergarten preparing her classroom. Their names are also the names of animals, Adam is an Alligator, Brenda is a Beaver, etc. What a great way to get some alphabet practice in while reading! The Night Before First Grade. I love these books because they are rhyming books. This book is all about the realities of being nervous for your first day of school, so it gives kids a perspective on what to expect at school. Mind Your Manners In School. This book is a collection of all the manners and behaviors that are appropriate for school. This book covers topics such as sharing, picking up after yourself, taking care of friendships, and many more! This is a great book for teachers and students alike. This book is geared toward all ages as well. I feel that this is one of the more important books that should be read before going back to school, and even as a refresher in the middle of the school year. With all the bullying topics in the news today, this book can really address how students should act toward others. This book helps kids see that not everyone has the latest fashions, and that not everyone is as trendy as their neighbor. Ok, who can resist Amelia Bedelia? I put this book in the collection because of the comic relief Amelia provides. And sometimes laughter is all we need to calm our fears. This one is particular is great for addressing separation anxiety. Llama goes to school for the first time, and is devastated when his mommy leaves. His friends help him see just how fun preschool can be. The day goes by so fast, that Mama is back before little Llama knows it. For all the new Kindergarteners out there! This is the perfect countdown book! We all know that one of the expectations of going to Kindergarten is learning how to tie your shoes—and this book addresses that. The cat in the story also provides a lot of comic relief. This is also a great book for parents to see that issues that we think are minor can cause much anxiety for our kids. Unfortunately instead of being patient, Sam takes matters into his own hands one day while his class is on a field trip. This is a great book about patience and how important it is to follow the rules. This book is also great for teaching a very important reading skill: Before you read the next part, let your child tell you what he thinks the mouse will ask for next. Maisy Goes To Preschool. Not all of our children are going to grade school for the first time, some are going to preschool this fall. I included this book because Maisy is an old favorite of mine. This book talks all about playtime, snack time, potty time, nap time, and more! This book will take your child through the day in the life of a preschooler. Sam and Gram and the First Day of School. This book touches on a wide variety of feelings your child may feel on their first day, until everything becomes more familiar. This book is hilarious! This book is about Sarah and how scared she is to start over in a new school. She has a pit in her stomach and her nervousness consumes her, until she finds a new friend. Sarah finally pulls it together and goes to school to conquer the first day. Your kids will love the surprise of knowing that Sarah is actually a teacher who is feeling just as nervous as the students! Follow The Line To School. First, the illustrations are VERY well done as each picture is created by one single line that carries on and on throughout the whole book. That wraps up my collection! I hope you found some books you can pick up to read with your children before their first day of school.

*Gram helps Sam get ready for his first day at school. The story takes the child hour-by-hour through a typical first day at school, so that the child will know just what to expect on his or her own.*

Plenty of sunshine and heat – a much needed break from the otherwise crispy weather we are quite accustomed to. As we all know, the first week of school can sometimes be quite nerve-wrecking, filled with newness and a degree of uncertainty for teachers and students alike. To the same degree however, September is a time of pure excitement and renewed optimism as we get to know our new students and gear up for lots of learning and fun together. Admittedly, this year is especially exciting for me, as I move to teach grade 2. Though I will dearly miss my Kindergarten students, they will be just across the hall from my new room yay to visiting them often. Regardless of grade, I like to begin every school year by setting a communal tone in the classroom. After all, if we are to successfully work together for the next ten months, we need to respect and value each other, similarities and uniqueness all the same. With the goal of establishing a sense of togetherness, celebrating individuality and getting to know each other, while easing into a new school year together, I have prepared a few Back-to-School activities. You are more than welcome to download the resources for your personal use in the classroom by clicking the Back-to-School image on the bottom of the post. This serves as a great ice breaker and gets the kids interacting. As part of that discussion, brainstorm qualities of a good friend and invite students to reflect on why this would be especially important as we begin a new school year together and of course, all the time. Following their writing responses, invite students to have fun creating a mini-me template, adding hair, arms, and legs. The Same But Different – As a class, brainstorm ways in which we are all the same. If there is enough space, you may want to include your name, as well as other teachers that will work with your students this year. Provide each group with a bin of random objects and have them work together to build a free standing structure. Tell students that you will be observing them and taking notes as they work together, but be somewhat vague about how you will pick the winner shhh, it will be a surprise. To download a free copy of the above templates, for your personal use in the classroom, click on the image below. I hope you enjoy them. Back to School, Splat! Splat must pick only one of all of his fun summer adventures to share with his classmates at show-and-tell. For any family dealing with first day nerves, this bright and reassuring picture book will help ease the transition into school – both for new students and their older siblings. This wonderful classroom has singing, playacting, math – even a rabbit named Lopsy. It is Cassandra who thinks up the perfect disguise for her mother, and she sets off for school one morning with a beautiful – plant. What do plants and mothers have in common? First Grade Jitters by Robert M. Will his friends be there? Will he have to know how to read and spell? Looks like a case of first grade jitters! If your teacher tells you to bring something from nature for show-and-tell, she does not want you to bring an alligator! How much trouble can they get into? What will they do at recess? And, most important, what treasure awaits them at school? A stunning new book from Claire Freedman and Kate Hindley. Oliver is finding the big city a lonely and scary place but when he finds a little lost dog he makes his first friend in the city. The trouble is, he knows that somewhere out there someone is missing the little dog just as much as he is loving having him, So, with a heavy heart, Oliver sets about doing the right thing. A beautifully told story with a lovely, uplifting ending. Sam and Gram and the First Day of School: Blomberg Gram helps Sam get ready for his first day at school. The story takes the child hour-by-hour through a typical first day at school, so that the child will know just what to expect on his or her own big day. Words by Lora Rozler In this emotional and highly visual picture book, a lonely letter sets off on a journey to find meaning. As it encounters various letter combinations, it is confronted by two distinct paths and must make an important choice. Readers of all ages will be captivated by this simple, yet high concept, rich story that explores universal themes of discovery, relationships and the need to belong, with an underlying message about bullying. Both timeless and original, Words is an evocative tale about how letters become words and words create meaning – meaning which could ultimately build or destroy. Have a wonderful week back everyone!

### 4: 15 Back to School Books for Kids

*Sam and Gram and the First Day of School: A Story to Answer a Child's Questions & Soothe Fears about School is a good primer for kids and their parents. Skip Nav. Family.*

SLJ mentioned the "refreshing" relationship between the siblings. Charlie and Lola get along well and he is a protective older brother. This book is a good read for a child that is feeling a bit reluctant about the first day of school. The book is about a young boy named Sam who stays with his grandmother while his parents work. However, now it is time to start kindergarten, and he is scared. Everything is unfamiliar and big. This review is pretty detailed about what is in the book and why parents will find it helpful for a child who is scared of starting school. Paulette Bourgeois is the author and has written over 40 books for children. Franklin gets ready for his first day of school by getting a new pencil case ready. He packs his ruler, colored pencils and an eraser. The book does a good job of describing how children feel before entering kindergarten. She mentioned that the story moves along at a good pace and has a "reassuring conclusion. Probably one of the most telling reviews comes from the Spaghetti Book Club , which is an organization that gathers reviews from students in classrooms across the country. Jesse, a second grader, states that he loves this book because of the illustrations. The book is set in the s and takes a snapshot at the tensions that arose during the beginning of school integration. Kirkus Reviews points out that the illustrator, xx Roth, uses collages and mixed media to give the book a "modern-but-retro feel. This is a good book to read to your first grader just before he starts school. It can provide a bit of perspective about the history of education in the United States. It is also a book that will lead to open and frank discussions about the different races a child might encounter in school and how to be a caring person to everyone. However, by the end of the book everything is well and the authors assure the reader that first grade will be a wonderful, exciting experience. Kirkus Reviews says that this book has excellent "punny" humor that the cartoon-style illustrations enhance. Any child starting first grade would enjoy reading this first book in the series. Her best friend will be in the same classroom. She learns that one is always making new friends and that sometimes the unexpected can turn out to be a good thing. Wing also wrote *The Night Before Kindergarten* , which is an excellent choice for children preparing to enter school via a kindergarten classroom. However, at the very end of the book, the reader learns that Sarah Jane actually is not a new student, but is the new teacher. The book shows children that everyone feels nervous when facing a new situation and opens up a dialogue for discussing how to overcoming nervousness. The School Library Journal said that this book is humorous. Sarah Jane is partially hidden until the end, so the reader is unaware that she is an adult. The review states that children may find it reassuring that even teachers feel anxious. All children worry, but Stuart worries more than most. Unfortunately, every fear Stuart has seems to come true on his first day. The book follows Stuart during his first three days of school where everything that can go wrong does go wrong. However, Stuart soon comes to realize that there are worse things and his fears begin to ease. The review on that site states that the story and illustrations work well together and are vivid and interesting. The book should "encourage" students embarking on their own first days. Starting Point The books above serve as a good starting point for what to read when preparing your child for the first day of school. Was this page useful?
