3: Science and Health with Key to the Scriptures Summary - www.enganchecubano.com

Science and Health with Key to the Scriptures is Mary Baker Eddy's primary work, which contains the full explanation of Christian Science and its biblical foundation for spiritual regeneration and healing.

The wakeful shepherd beholds the first faint morning beams, ere cometh the full radiance of a risen day. The time for thinkers has come. Truth, independent of doctrines and time-honored systems, knocks at the portal of humanity. Contentment with the past and the cold conventionality of materialism are crumbling away. Ignorance of God is no longer the stepping-stone to faith. The only guarantee of obedience is a right apprehension of Him whom to know aright is Life eternal. It is the task of the sturdy pioneer to hew the tall oak and to cut the rough granite. Future ages must declare what the pioneer has accomplished. On this basis Christian Science will have a fair fight. A child drinks in the outward world through the eyes and rejoices in the draught. He finds a few words, and with these he stammeringly attempts to convey his feeling. Later, the tongue voices the more definite thought, though still imperfectly. So was it with the author. From until , copies were, however, in friendly circulation. Before writing this work, Science and Health, she made copious notes of Scriptural exposition, which have never been published. This was during the years and These efforts show her comparative ignorance of the stupendous Life-problem up to that time, and the degrees by which she came at length to its solution; but she values them as a parent x x: Various books on mental healing have since been issued, most of them incorrect in theory and filled with plagiarisms from Science and Health. They regard the human mind as a healing agent, whereas this mind is not a factor in the Principle of Christian Science. A few books, however, which are based on this book, are useful. By thousands of well-authenticated cases of healing, she and her students have proved the worth of her teachings. These cases for the most part have been abandoned as hopeless by regular medical attendants. Few invalids will turn to God till all physical supports have failed, because there is so little faith in His disposition and power to heal disease. The divine Principle of healing is proved in the personal experience of any sincere seeker of Truth. Now, as then, these mighty works are not supernatural, but supremely natural. When God called the author to proclaim His Gospel to this age, there came also the charge to plant and water His vineyard. The first school of Christian Science Mind-healing was started by the author with only one student in Lynn, Massachusetts, about the year

I have read it many, many times and study from it every day. I have experienced many healings, physically, morally, mentally and in all possible aspects. It has given me a better understanding of God, who is really Love, Truth and Life. It has opened my eyes to perceive that whatever is good can be achieved now. It has given me the power to experience and do good is available now to everybody who is sincere and honestly seeks a different way of approaching the whole of human experience. This is the book that changed my life. It is a book that can only bless, even if one does not understand at first try. Just keeping my consciousness clean and full of ONLY good thoughts has helped me under very difficult conditions to survive and go ahead with my life. It teaches me that the power to experience and do good is available now to everybody who is sincere and honestly seeks a different way of approaching the whole of human experience. This is a book that cannot be read just once. This book is read alongside the Bible by millions of people throughout the world. Eddy does a wonderful job at explaining things how they are, like she has a third eye that is all knowing. She explains things from the Bible in terms that everyone can understand. T As far as spiritual books go i thoroughly enjoy pulling this book out to look up everything from marriage to sin to child rearing. This is a very long book as it is the foundation of a religion, some people pick it up and read it front to back, while others read it in areas as needed. A person who is part of this faith would likely have read the entire book and they would live their lives based on the fundamental principles virtues and morals that the book explains so clearly. Embrace this book with an open heart and mind. Once you understand some of the truths and ideas, you cannot go back to your old way of thinking. Strengthened my awareness of my oneness with God. One thing; you must be seeking wisdom or fulfillment to understand this book. Keep the book on the shelf for when you are ready because you WILL need it someday. Then read it over and over and over. Great compliment to the Bible especially the Go Very healing. This is a book you keep for a lifetime of reference.

That ye might walk worthy of the Lord unto all pleasing, being fruitful in every good work, and increasing in the knowledge of God. Let us get up early to the vineyards; let us see if the vine flourish, whether the tender grape appear, and the pomegranates bud forth. THOUSANDS of letters could be presented in testimony of the healing efficacy of Christian Science and particularly concerning the vast number of people who have been reformed and healed through the perusal or study of this book. For the assurance and encouragement of the reader, a few of these letters are here republished from The Christian Science Journal and Christian Science Sentinel. The originals are in the possession of the Editor, who can authenticate the testimonials which follow.

The trouble finally reached the knees, and I became very lame and had to be assisted in and out of bed. I went to the different health resorts for the benefit I hoped to derive from the baths and waters that were prescribed by physicians, but found no permanent relief. I was placed under an X-ray examination, and was told that the joints were becoming ossified. I then consulted a celebrated specialist, who after a thorough examination said my condition would continue to grow worse and that I would become completely helpless. Eddy was loaned me. I read it more from curiosity than with the thought of any physical benefit. As the truth was unfolded to me, I realized that the mental condition was what needed correcting, and that the Spirit of truth which inspired this book was my physician. My healing is complete, and the liberation in thought is manifest in a life of active usefulness rather than the bondage of helpless invalidism and suffering. I owe to our beloved Leader, Mrs. Eddy, gratitude which words cannot express. I did not even have to apply to a practitioner, but am most grateful for the helpful words of loving friends. Where would I be now, had not this blessed truth been brought to me by much persuasion of a very dear friend? I certainly should have been deep in the slough of despond, if not in the grave. Am I truly thankful for all the good that has come to me and mine? At that time I had been a chronic invalid for a good many years. I had acute bowel trouble, bronchitis, and a number of other troubles. One physician had told me that my lungs were like wet paper, ready to tear at any time, and I was filled with fear, as my mother, two brothers, and a sister had been victims of consumption. I tried many physicians and every material remedy that promised help, but no help came until I found a copy of Mrs. The book was placed in my hands by one who did not then appreciate it, and I was told that it would be hard for me to understand it, I commenced reading it with this thought, but I caught beautiful glimpses of Truth, which took away my fear and healed me of all those diseases, and they have never returned. I would also like to tell how I was healed of a sprained ankle. The accident occurred in the morning, and all that day and during the night I gave myself Christian Science treatment, as best I could. The next morning it seemed to be no better, being very sore, badly swollen, and much discolored. Feeling that I had done all I could, I decided to stop thinking about it. I took my copy of Science and Health and began reading. After two hours I laid the book down and walked into another room. When next I thought of my ankle, I found it was not hurting me. The swelling had gone down, the black and blue appearance had nearly vanished, and it was perfectly well. I was afflicted with a fibroid tumor which weighed not less than fifty pounds, attended by a continuous hemorrhage for eleven years. The tumor was a growth of eighteen years. I lived in Fort Worth, Tex. I had tried to live near to God, and I feel sure He guided me in all my steps to this healing and saving truth. After being there several weeks I received letters from a Texas lady who had herself been healed, and who wrote urging me to try Christian Science. Changing my boarding-place, I met a lady who owned a copy of Science and Health, and in speaking to her of having seen the book, she informed me she had one, and she got it and told me I could read it. The revelation was marvellous and brought a great spiritual awakening. This awakened sense never left me, and one day when walking alone it came to me very suddenly that I was healed, and I walked the faster declaring every step that I was healed. When I reached my boarding-place, I found my hostess and told her I was healed. She looked the picture of amazement. The tumor began to disappear at once, the hemorrhage ceased, and perfect

strength was manifest. There was no joy ever greater than mine for this Christ-cure, for I was very weary and heavy laden. I thought very little of either sleeping or eating, and my heart was filled with gratitude, since I knew I had touched the hem of his garment. I must add that the reading of Science and Health, and that alone, healed me, and it was the second copy I ever saw. I have great cause to be grateful to God and to our revered Leader, Mrs. Eddy, for these blessings, which her discovery and love for humanity made possible. Proofs of healing came immediately, and I was able to do much useful work without a sense of burden or fatigue. As time went on I learned the nothingness of discouragement, and understood in a measure that God is my Life and that all action is in divine Mind. I was healed of spinal trouble; and nervousness and weakness faded away and were replaced by health and strength. A larger sense of joy and gratitude did much towards overcoming indigestion, which had caused suffering for a number of years. Beliefs of heredity and lack have been overcome, and self-will, self-love, and pride are less in evidence. In May, , going home for lunch, on a bicycle, and while riding down a hill at a rapid gait, I was thrown from the wheel, and falling on my left side with my arm under my head, the bone was broken about half-way between the shoulder and elbow. While the pain was intense, I lay still in the dust, declaring the truth and denying that there could be a break or accident in the realm of divine Love, until a gentleman came to assist me, saying, he thought I had been stunned. I was only two and a half blocks from home, so I mounted my wheel again and managed to reach it. On arriving there I lay down and asked my little boy to bring me our textbook. He immediately brought Science and Health, which I read for about ten minutes, when all pain left. I said nothing to my family of the accident, but attended to some duties and was about half an hour late in returning to the office, this being my only loss of time from work. My friends claimed that the arm had not been broken, as it would have been impossible for me to continue my work without having it set, and carrying it in a sling until the bone knit together. The physician was asked to examine my left arm to see if it differed from the ordinary. The doctor pointed out the place as being slightly thicker at that part, like a piece of steel that had been welded. This was the first of several cases of mental surgery that have come under my notice, and it made a deep impression on me. For the benefit of others who may have something similar to meet, I will say that I have overcome almost constant attacks of sick headaches, extending back to my earliest recollection. I was healed through simply reading this wonderful book, Science and Health. I had been troubled periodically for many years with sore eyes, and had been to many doctors, who called the disease iritis and cataract. They told me that my eyes would always give me trouble, and that I would eventually lose my sight if I remained in an office, and advised me to go under an operation. Later on I had to wear glasses at my work, also out of doors as I could not bear the winds, and my eyes were gradually becoming worse. I could not read for longer than a few minutes at a time, otherwise they would smart severely. I had to rest my eyes each evening to enable me to use them the next day; in fact gas-light was getting unbearable because of the pain, and I made home miserable. A dear brother told me about Christian Science, and said that if I would read Science and Health it would help me. He procured for me the loan of the book. The next day, on looking at my eyes, my wife noticed that the cataract had disappeared. I put away my outdoor glasses, which I have not required since, and through the understanding gained by studying Christian Science I have been able to do away with my indoor glasses also, and have had no return of pain in my eyes since. This is now a year and a half ago. I sent there for information regarding a book called Health and Science, and the return mail brought me the book, Science and Health, and in it I at once found sure promise of deliverance from valvular heart disease, with all the accompaniments such as extreme nervousness, weakness, dyspepsia, and insomnia. I had suffered from these all my life, finding no permanent relief, even, in material remedies, and no hope of cure at any time. Only those who have been held in such bondage and have been liberated by the same means, can know the eager joy of the first perusal of that wonderful book. I read on, thinking only of the spiritual enlightenment, content to wait until I should be led to some person who would heal me; but old things had passed away, and all things had become new. I was completely healed before I had met a Scientist, or one who knew anything about Christian Science, and before I had read a line of any other Christian Science literature except one leaf of a tract; so it is absolutely certain that the healing was entirely impersonal, as was also the teaching, which enabled me to begin at once demonstrating the power of Truth to destroy all forms of error. While visiting friends in the southwestern part

of Ontario, about three years ago, my attention was called to Christian Science and the wonderful healing it was doing. I had lived in New York for twenty-five years, but had never heard of Christian Science before, to my recollection. Up to that time, for seventeen years, I had suffered with indigestion and gastritis in the worst form, often being overcome from a seeming pressure against the heart. I had asthma for four years, also had worn glasses for four years. It seemed to me that I had swallowed every known medicine to relieve my indigestion, but they only gave me temporary benefit. I used to smoke eight or ten cigars a day, and also took an occasional drink, but the desire for these has gone, “ I feel forever. I travel on the road, and am constantly being invited to indulge, but it is no effort to abstain, and in many instances I find that my refusal helps others. While I fully appreciate the release from my physical troubles, this pales into insignificance in comparison with the spiritual uplifting Christian Science has brought me. I had not been inside a church for more than ten years, to attend regular services, until I entered a Christian Science church. What I saw and realized there, seemed so genuine that I loved Christian Science from the very start. I have never taken a treatment, “ every inch of the way has been through study and practical demonstration, and I know that all can do the same thing if they will try. I was treated by the best of physicians in New York, Minneapolis, and Duluth, and was finally given up as incurable, when I heard of Christian Science. A neighbor who had been healed of consumption, kindly loaned me *Science and Health* by Mrs. Eddy, which I read and became interested in. In three months 5 time, I was healed, the truth conveyed to me by this book being the healer, and not only of these diseases, but I was made whole mentally as well. I have not been in bed one day since, or rather in eleven years. I will mention a demonstration of painless childbirth which I have had since coming to Idaho. Perhaps it may help some sister who is looking through the *Journal* for a demonstration of this kind, as I was before my baby came. Good help being scarce here, I did my housework up to the time I was confined, and was in perfect health.
