When approached about creating a third Halloween film, original Halloween writers John Carpenter and Debra Hill were reluctant to pledge commitment. According to Fangoria magazine, Carpenter and Hill agreed to participate in the new project only if it was not a direct sequel to Halloween II, which meant no Michael Myers. Post linked the masks of the film to the popularity of masks in the real world: Every society in every time has had its masks that suited the mood of the society, from the masked ball to clowns to makeup. People want to act out a feeling inside themselves—angry, sad, happy, old. It may be a sad commentary on present-day America that horror masks are the best sellers. Director Tommy Lee Wallace was then assigned to revise the script. Harper argues, "Any plot dependent on stealing a chunk of Stonehenge and shipping it secretly across the Atlantic is going to be shaky from the start. Not a great plan. Kill the kids and replace them with robots? Season of the Witch consisted mostly of character actors whose previous acting credits included cameo appearances on various television series. Atkins told Fangoria that he liked being the hero. Stacey Nelkin co-starred as Ellie Grimbridge, a young woman whose father is murdered by Silver Shamrock. She landed the role after a make-up artist working on the film told her about the auditions. Although I like to think of myself as having these traits, she was written that way in the script. Ebert explained, "She has one of those rich voices that makes you wish she had more to say and in a better role. Too bad she plays her last scene without a head. Los Muertos and the miniseries It , the television adaptation of the Stephen King novel. Tommy Lee Wallace was incredibly helpful and open to discussion on dialogue or character issues. Another stylistic reference to the original film is found in the scene where Dr. Challis tosses a mask over a security camera, making the image on the monitor seem to be peering through the eye holes. This is a nod to the scene in which a young Michael Myers murders his sister while wearing a clown mask. New York Times film critic Vincent Canby notes, "The movie features a lot of carefully executed, comically horrible special effects. Season of the Witch soundtrack The soundtrack was composed by John Carpenter and Alan Howarth , who worked together on the score for Halloween II and several other films. Just as in Halloween and Halloween II, there was no symphonic score. Much of the music was composed to solicit "false startles " from the audience. Carpenter replaced the familiar piano melody with a slower, electronic theme played on a synthesizer with beeping tonalities. The music style of John Carpenter and myself has further evolved in this film soundtrack by working exclusively with synthesizers to produce our music. This has led to a certain procedural routine. The film is first transferred to a time coded video tape and synchronized to a 24 track master audio recorder ; then while watching the film we compose the music to these visual images. The entire process goes quite rapidly and has "instant gratification", allowing us to evaluate the score in synch to the picture. This is quite an invaluable asset.
